AGENDA

Section B Draft(s) presented for an opinion

B.01 Exchange of views and possible opinion of the Committee on a draft Commission Implementing Decision amending the Annex to Decision 2007/453/EC as regards the BSE status of Ecuador, Serbia and a region of the United Kingdom. (FS)

On 28 May 2019, the OIE World Assembly of Delegates adopted Resolution No 19 on the recognition of the Bovine Spongiform Encephalopathy Risk Status of Members. That resolution recognised Serbia “excluding Kosovo administered by the United Nations” as having a negligible BSE risk, and Ecuador and one zone of the United Kingdom, namely Scotland, as having a controlled BSE risk. These new statuses should be reflected in the Annex to Decision 2007/453/EC.
