# Council Conclusions on the Farm to Fork Strategy

Ministers for Agriculture approved Council Conclusions on the Farm to Fork Strategy on **19 October 2020**.

- Conclusions show **overall support for the strategy** and endorse its goal of developing a sustainable European food system.
- Member States stressed the importance of taking national specificities and different starting points into account, in particular for the quantitative targets set in the strategy.
- Member States highlighted the necessity of ensuring the competitiveness of the farming sector and an adequate income for farmers.

---

Subject: Council Conclusions on the Farm to Fork Strategy  
- *Council Conclusions (19 October 2020)*

---

Delegations will find in annex the Council Conclusions on the Farm to Fork Strategy, as approved by the Agriculture and Fisheries Council on 19 October 2020.

---

# European Economic and Social Committee opinion on the Farm to Fork Strategy

- The EESC adopted an opinion on the F2F Strategy on **18 September 2020**.
- According to the EESC, a comprehensive EU food policy should deliver:
  - economic, environmental and socio-cultural sustainability;
  - integration across sectors, policy areas and levels of governance;
  - inclusive decision-making processes; and
  - a combination of compulsory measures (regulations and taxes) and incentives (price premiums, access to credit, resources and insurance) to accelerate the transition towards sustainable food systems.
- Fair food prices (reflecting the true cost of production for the environment and society) are the only way to achieve sustainable food systems in the long term.
- Without changes in EU trade policies, the objectives of the strategy will not be met.

# The 2020 Farm to Fork Conference

On **15 and 16 October 2020** the Commission organised the first annual Farm to Fork Conference.

Main take-out messages and highlights:

- Urgent, systemic change is required
- The whole food value chain needs to be part of the shift
- Innovation is an integral part of the solution
- Consumers need clear, consistent information on sustainable food

# Implementation of the strategy – ongoing work

- The Commission is working on **several initiatives**, involving several services.
- Ongoing work on initiatives such as:
  - Code of conduct for responsible business and marketing conduct
  - Contingency plan
  - Marketing standards
- Legislative proposals will be preceded by **impact assessments** and **stakeholder consultations**.

# CAP Recommendations

## CAP Strategic Plans

Taking into account Member States' specific needs, national level CAP strategic plans will combine a wide range of local and EU-level objectives to deliver targeted, tangible results.

- As announced in the Farm to Fork Strategy, the Commission will issue recommendations to the Member States prior to the submission of the CAP National Strategic Plans.
- Structured dialogues with Member States on the draft recommendations are taking place.
- Recommendations to be adopted by the Commission before the end of 2020.

# Thank you
