

Composite products – current rules

Meat (any quantity)	Milk, not shelf stable (any quantity)	More than 50% of animal origin	Less than 50% animal origin
BIP control by MS	BIP control by MS	BIP control by MS	Control by MS
Third country listed for that commodity	Third country listed for that commodity	Third country listed for that commodity	
Certificate (animal + public health)	Certificate (animal + public health)	Certificate (animal + public health)	

+ a list of categories of composite products explicitly excluded from BIP controls

Possible solution for the future

Meat (any quantity)	Not shelf stable (any content, except meat)	Shelf stable (any content, except meat)
<p><u>BCP control</u> Documentary check: 100% Identity check: based on risk Physical checks : based on risk</p>		<p><u>BCP control</u> Documentary check: 100% Identity check: <i>less than 10%</i> Physical check: <i>less than 10%</i></p>
Third country listed for <u>all commodities</u> in the product		Third country existing on <u>any list</u> of EU approved countries
Certificate (animal + public health)		Attestation

+ a list of categories of composite products
explicitly excluded from BCP controls

Hay and straw

**What level of risk do
hay and straw represent?**
