Outbreak in wild boar in RZ I

Amendments of regionalisation

Action taken

- 3 active search activities carried out in the infected area designated by the DVO
 - ✓ ca. 230 hectares were searched.
 - ✓ 25 people participated (forest authorities, hunters and employees of the DVI).
 - ✓ Traces of the existence of animals were found, but no carcasses of wild boars or their remains;
- As part of ASF monitoring, 699 WB have been tested with negative results since the beginning of 2021.
 - 23 WB killed in traffic accidents,
 - 676 WB shot.

(data as of 7th May)
