**Subject: Application for adjustment of geographical scope for authorization of the genetic modification MON810 of Maize**

Dear

According to the **Article 26c** of the Directive (EU) 2001/18/EC of the European Parliament and of the Council of 12 March 2001 on the deliberate release into the environment of genetically modified organisms and repealing Council Directive 90/220/EEC, Member States have the possibility to demand adjustments to geographical scope of a submitted notification/application.

Considering aforementioned legal basis, the Republic of Croatia is requiring adjustment of geographical scope of the notification/application for renewal of authorisation of the genetic modification **MON810 of Maize**, by **excluding the entire territory** of the Republic of Croatia.

We are at your disposal for any further clarification on the subject.

Yours sincerely,
