

# Commission Delegated Regulation amending Annexes II and III of Regulation (EC) No 853/2004 laying down specific hygiene rules for food of animal origin

**Kris De Smet, SANTE G5  
Advisory Group meeting 12 May 2023**

European  
Commission

# Purpose

Amendment of certain requirements based on experiences gained by stakeholders, Member States and the Commission, on new scientific advice, on the need for further clarification, ...

European  
Commission

# Overview of amendments

- Identification marking
- Approval of mobile slaughterhouses
- Movement to another slaughterhouse
- Stunning and bleeding on the holding of provenance
- Dry-aged beef
- Temperature conditions transport of carcasses and major cuts
- Farmed game slaughtered at the farm
- Cutting of fishery products
- Heat treatment of milk
- Eggs with intended extraneous odour

# Identification marking (Annex II, Section I)

- Abbreviations of « European Community » -> « European Union »
  - ✓ EC, EU, EL, UE, EE, AE, ES, EÚ
  - ✓ Long transitional period till end of 2028
  - ✓ Health marking will follow
- Cross reference to special health or identification mark in animal health rules

# Stunning and bleeding on the holding of provenance

- Possibility extended to a limited number of small ruminants
- No longer limited to risk for handler or animal welfare risk during transport
- Strict hygiene rules remain

# Dry-aging of beef

- Increasing market -> EFSA advice requested on microbiological safety:  
<https://www.efsa.europa.eu/en/efsajournal/pub/7745>
- Defining « dry-ageing »
- Specific temperature, relative humidity, airflow and time condition, including flexibility
- Specific good hygiene practices

# Transport conditions carcasses, major cuts based on surface temperature

Introduced in 2017 based on EFSA opinions

New:

- Collection from 3 slaughterhouses or a cold store
- Can be combined with chilled meat
- Conditions for transport over maximal 30 hours added for ruminants
- Reference method for measuring surface temperature

## **Approval of (semi-) mobile slaughterhouse**

- Purely a clarification

## **Movement to another slaughterhouse**

- Purely alignment with Commission Implementing Regulation (EU) 2019/627 (Art 43(6))

## **Farmed game slaughter at the farm**

- Carcasses can go to game-handling establishments

# FISH

- To permit the use of machines that slice or cut fishery products, the temperature of fresh or processed fishery products needs to be temporarily higher than  $-18^{\circ}$  C.
- In order to avoid abuses, the total time of the operation of cutting or slicing at the technologically-required temperature shall not exceed 96 hours.
- Storage or transportation of fishery products at a temperature higher than  $-18^{\circ}$  C shall not be allowed.

# Eggs with intended extraneous odour

- Possibility to market such flavoured eggs requested by industry
- Flavouring must not aim at hiding the pre-existence of any foreign odour of the eggs
- Alignment of egg marketing standards in parallel so as these eggs can be sold as Class A eggs

# Heat treatment of milk

- Alternative option to phosphatase alkaline testing to check heat treatment for raw milk from non-bovine species or raw milk separated in different fractions before being heat-treated
- Assurances of correct heat treatment based on FBO HACCP recordings

# Time schedule

- Public consultation for feedback and SPS notification ongoing
- (Probably) final discussion with Member States beginning of July
- Adoption expected in September
- Publication expected in November-December

European  
Commission
