

African swine fever in Lithuania

(update of the situation)

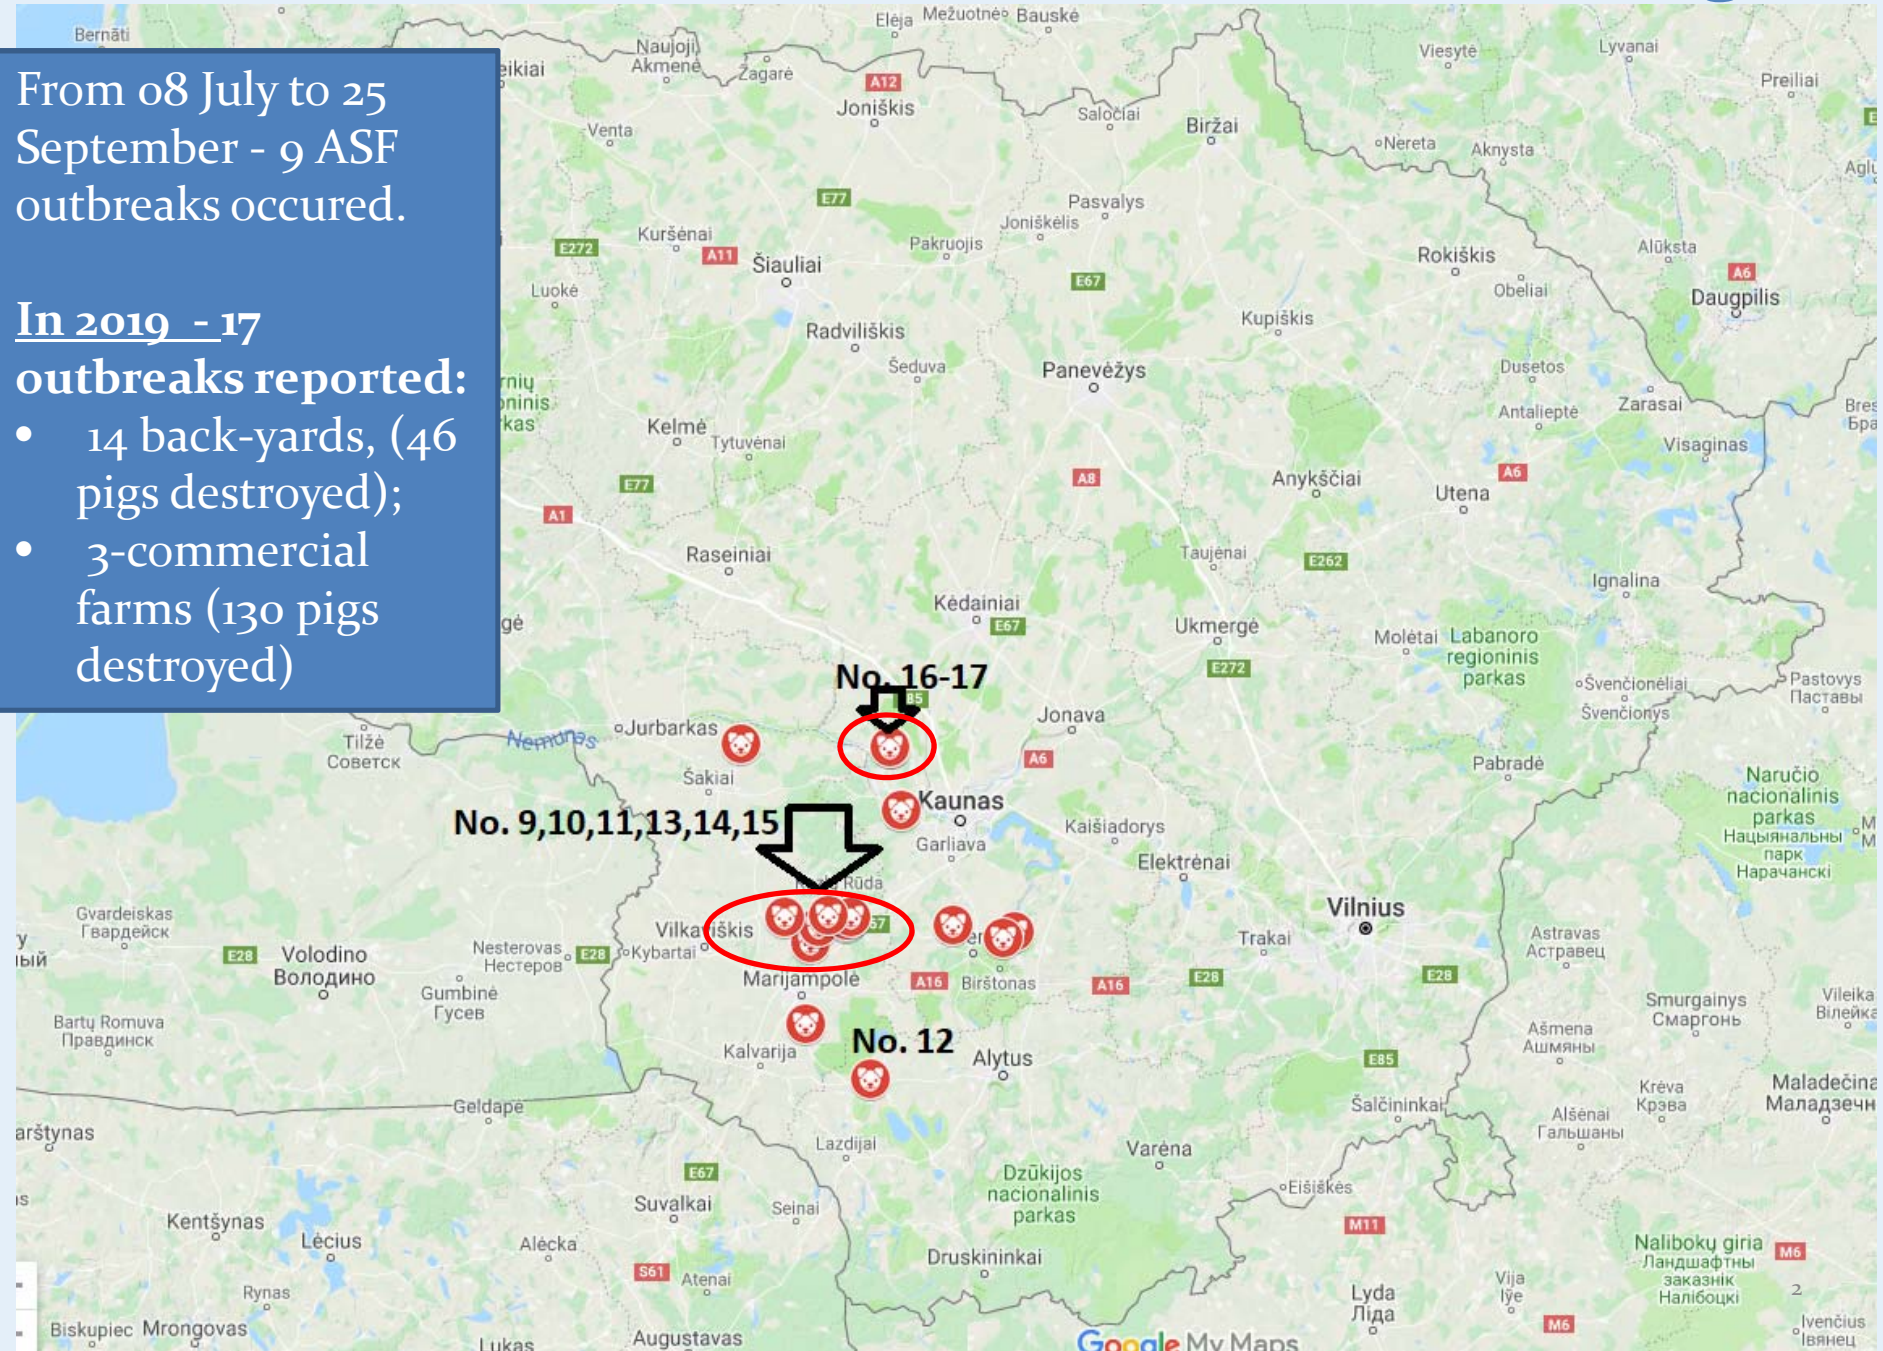

24/25 September 2019
State Food and Veterinary Service
Lithuania

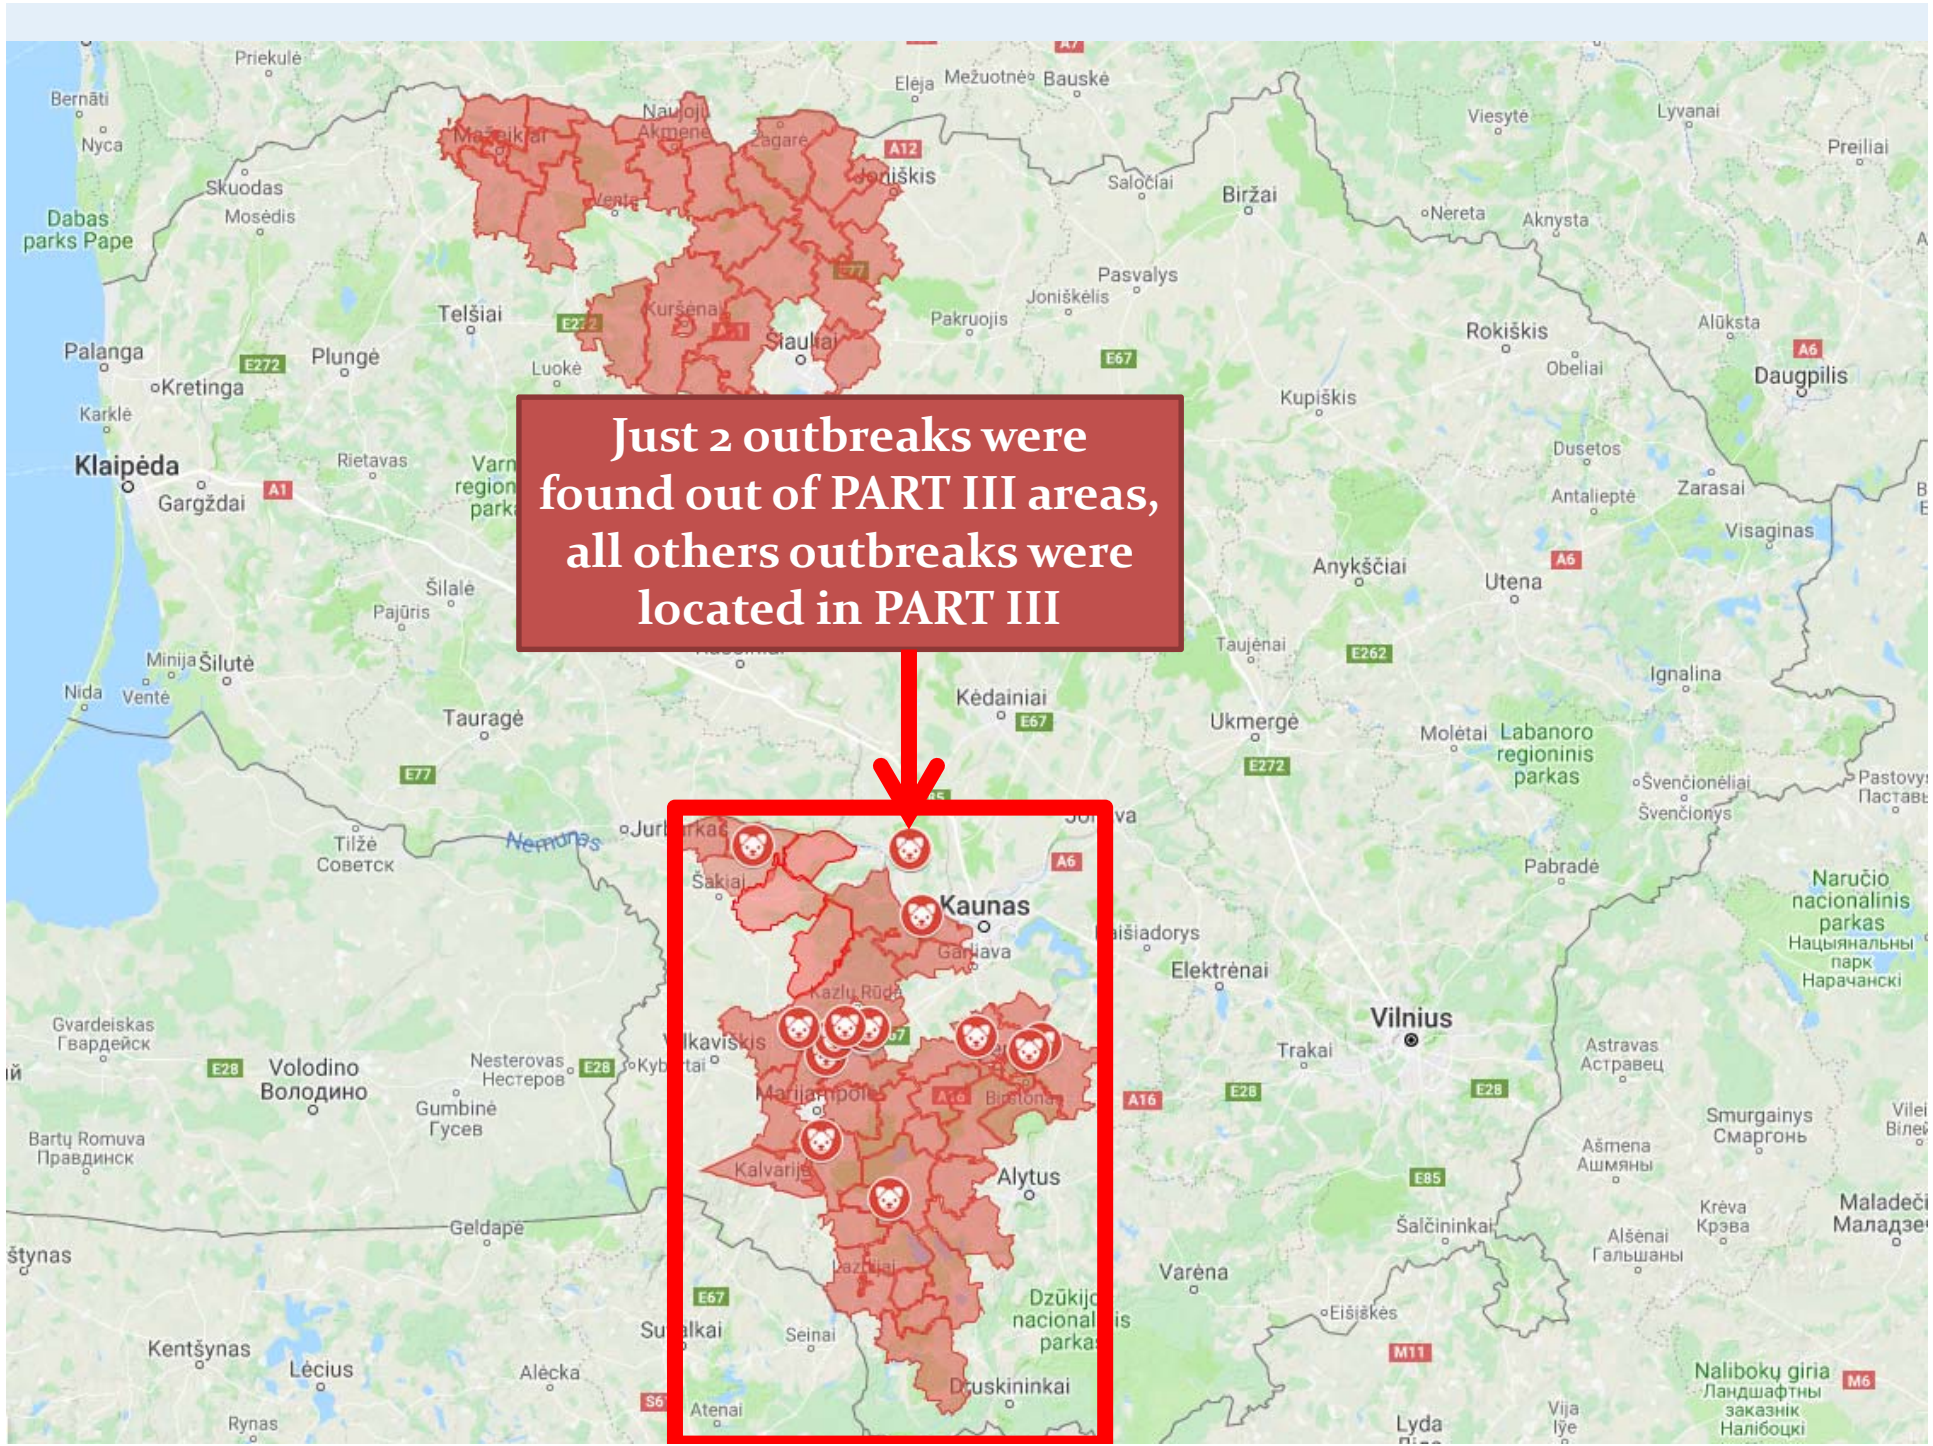

ASF outbreaks since the last PAFF meeting

From 08 July to 25 September - 9 ASF outbreaks occurred.

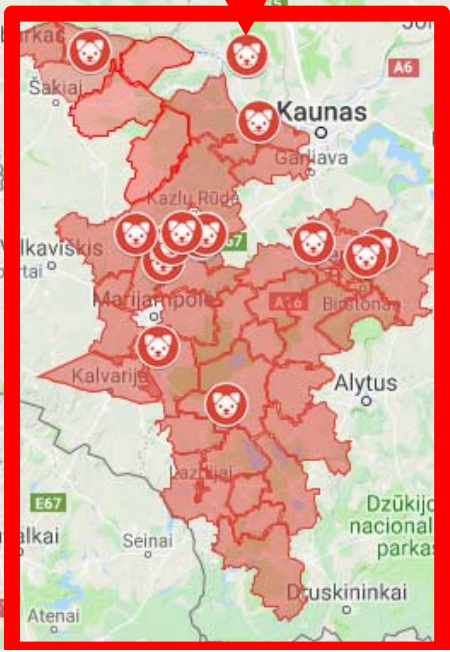

In 2019 - 17 outbreaks reported:

- 14 back-yards, (46 pigs destroyed);
- 3-commercial farms (130 pigs destroyed)

Just 2 outbreaks were found out of PART III areas, all others outbreaks were located in PART III

Main observations in ASF outbreaks

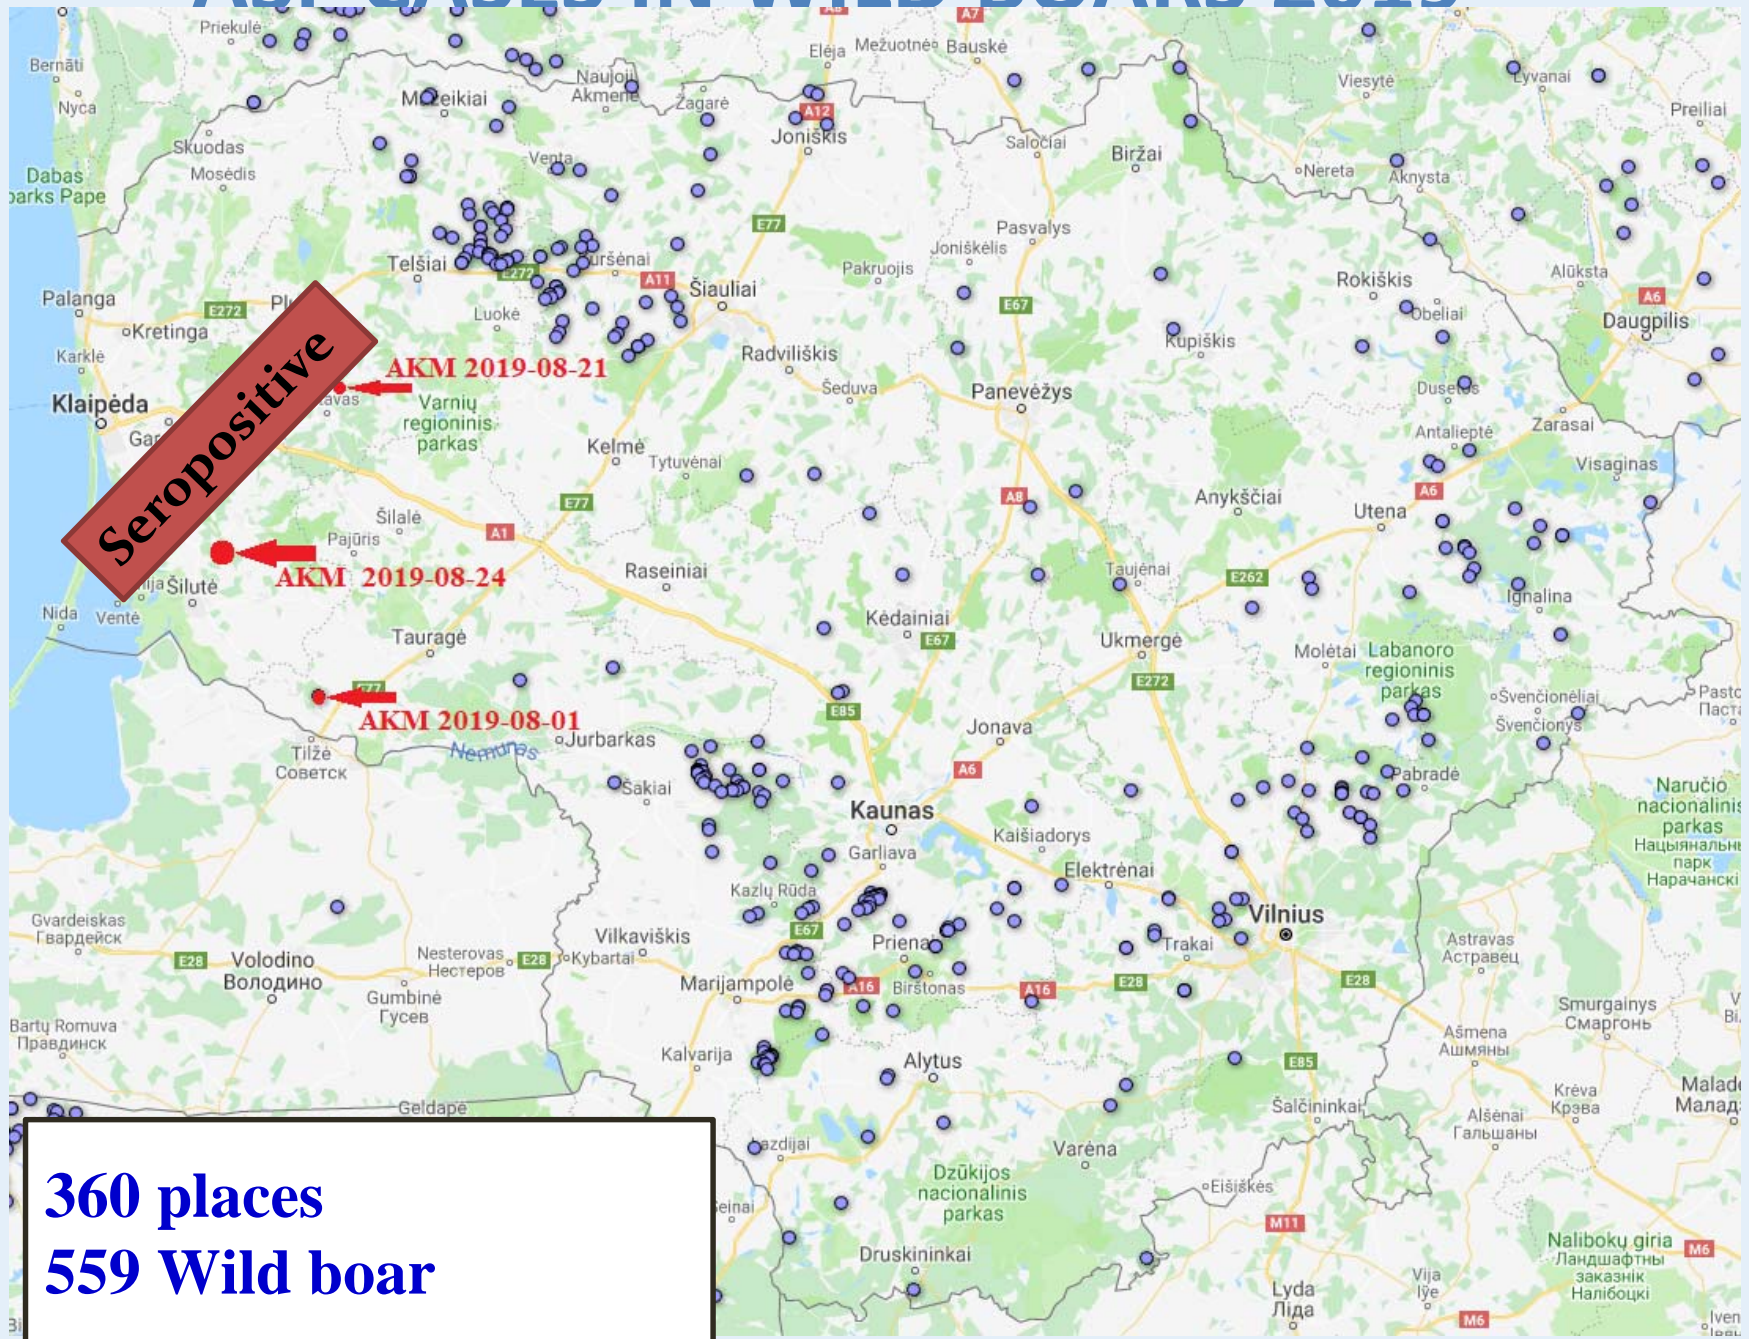

Lack of biosecurity (mainly - not effective disinfection mat)

Indirect contact with wild boars/effected environment

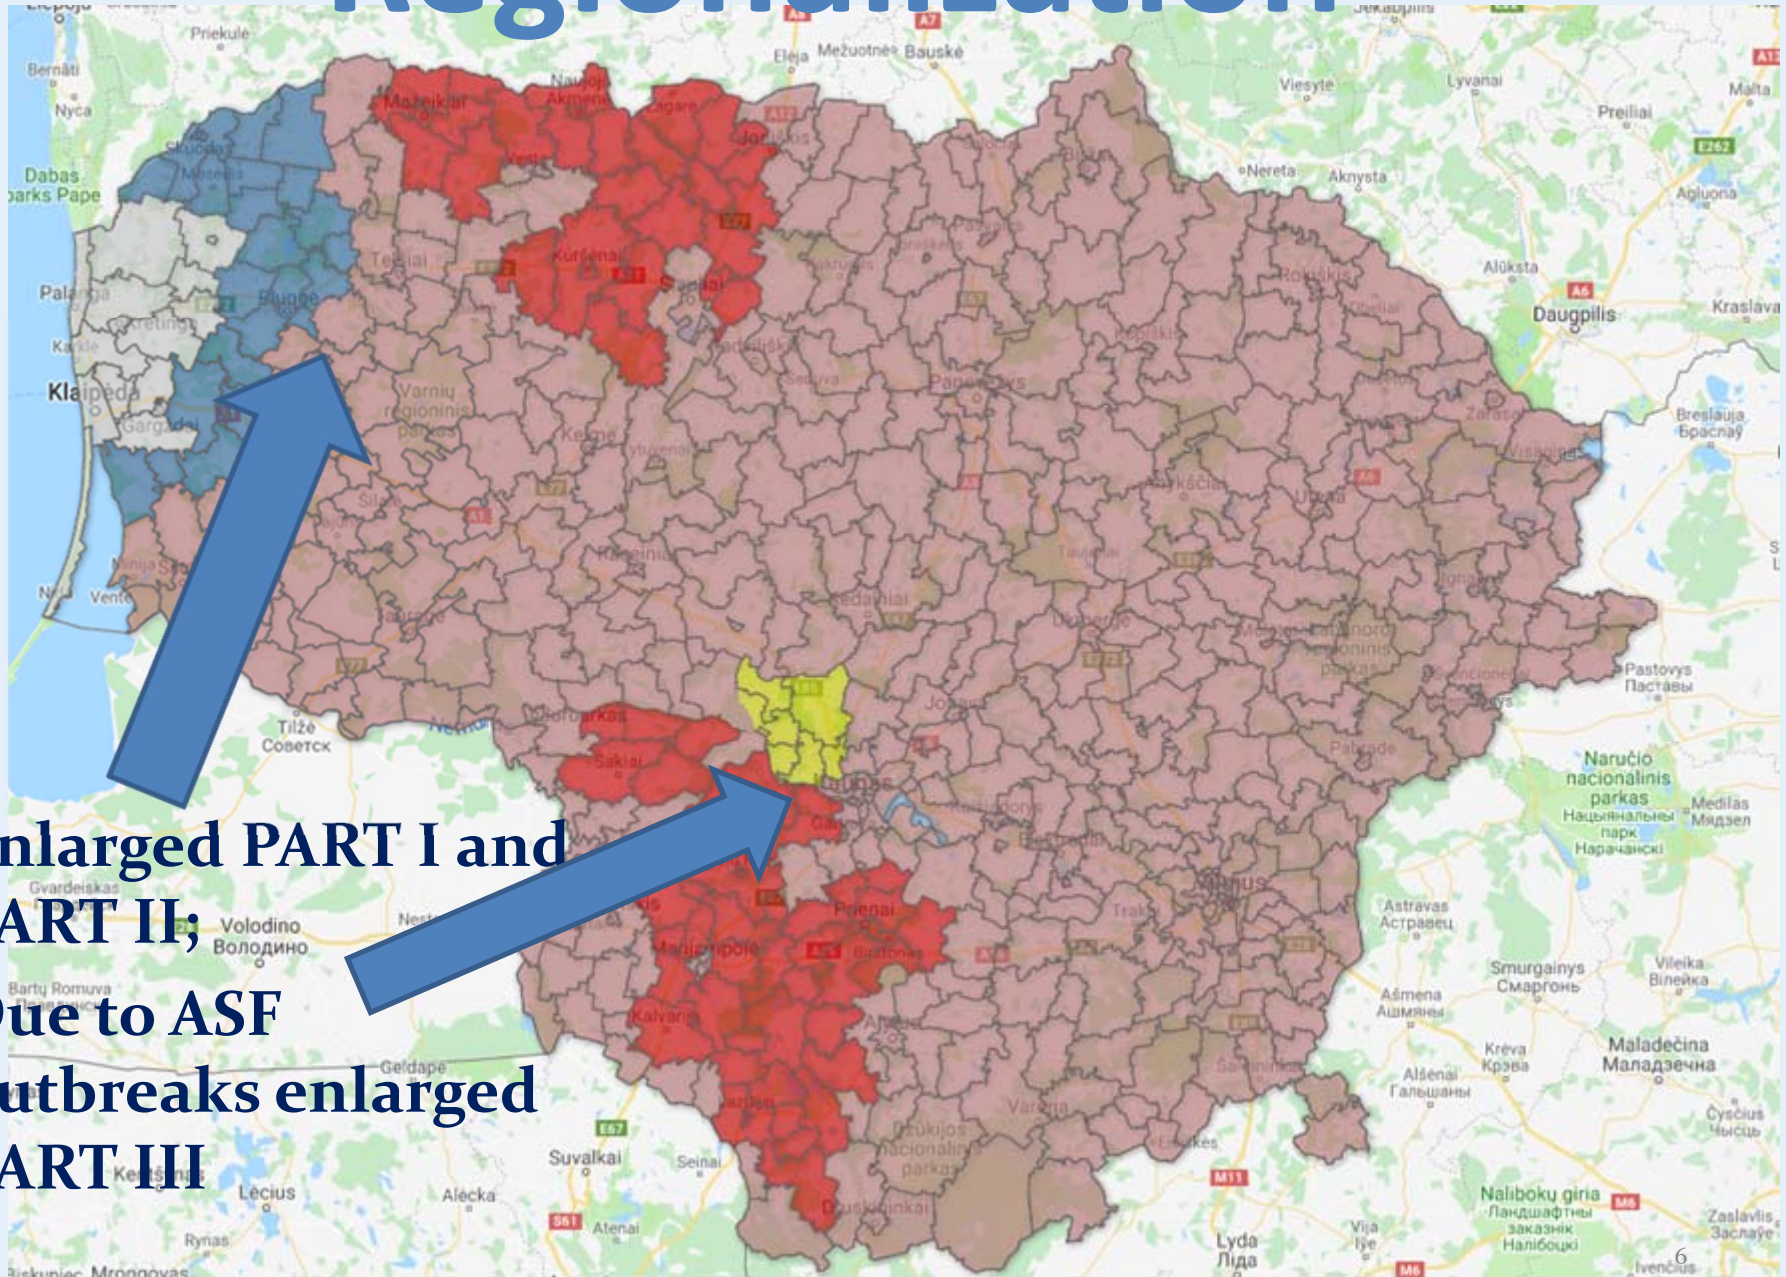

2 outbreaks in non-registered farms with non-registered pigs...

ASF CASES IN WILD BOARS 2019

Regionalization

- Enlarged PART I and PART II;
- Due to ASF outbreaks enlarged PART III

Thank you for your attention!
