

African swine fever in Slovakia state of play (19.10.2020)

October 2020, PAFF Committee

ASF in Slovakia – state of play in domestic pigs /wild boar population

Domestic pigs – no outbreaks from the last PAFF Committee, last ASF outbreak confirmed on 22.9.2020

In total: 17 outbreaks confirmed – mostly in non commercial holdings within an area close to the SK/HU border – south- east part of Slovakia

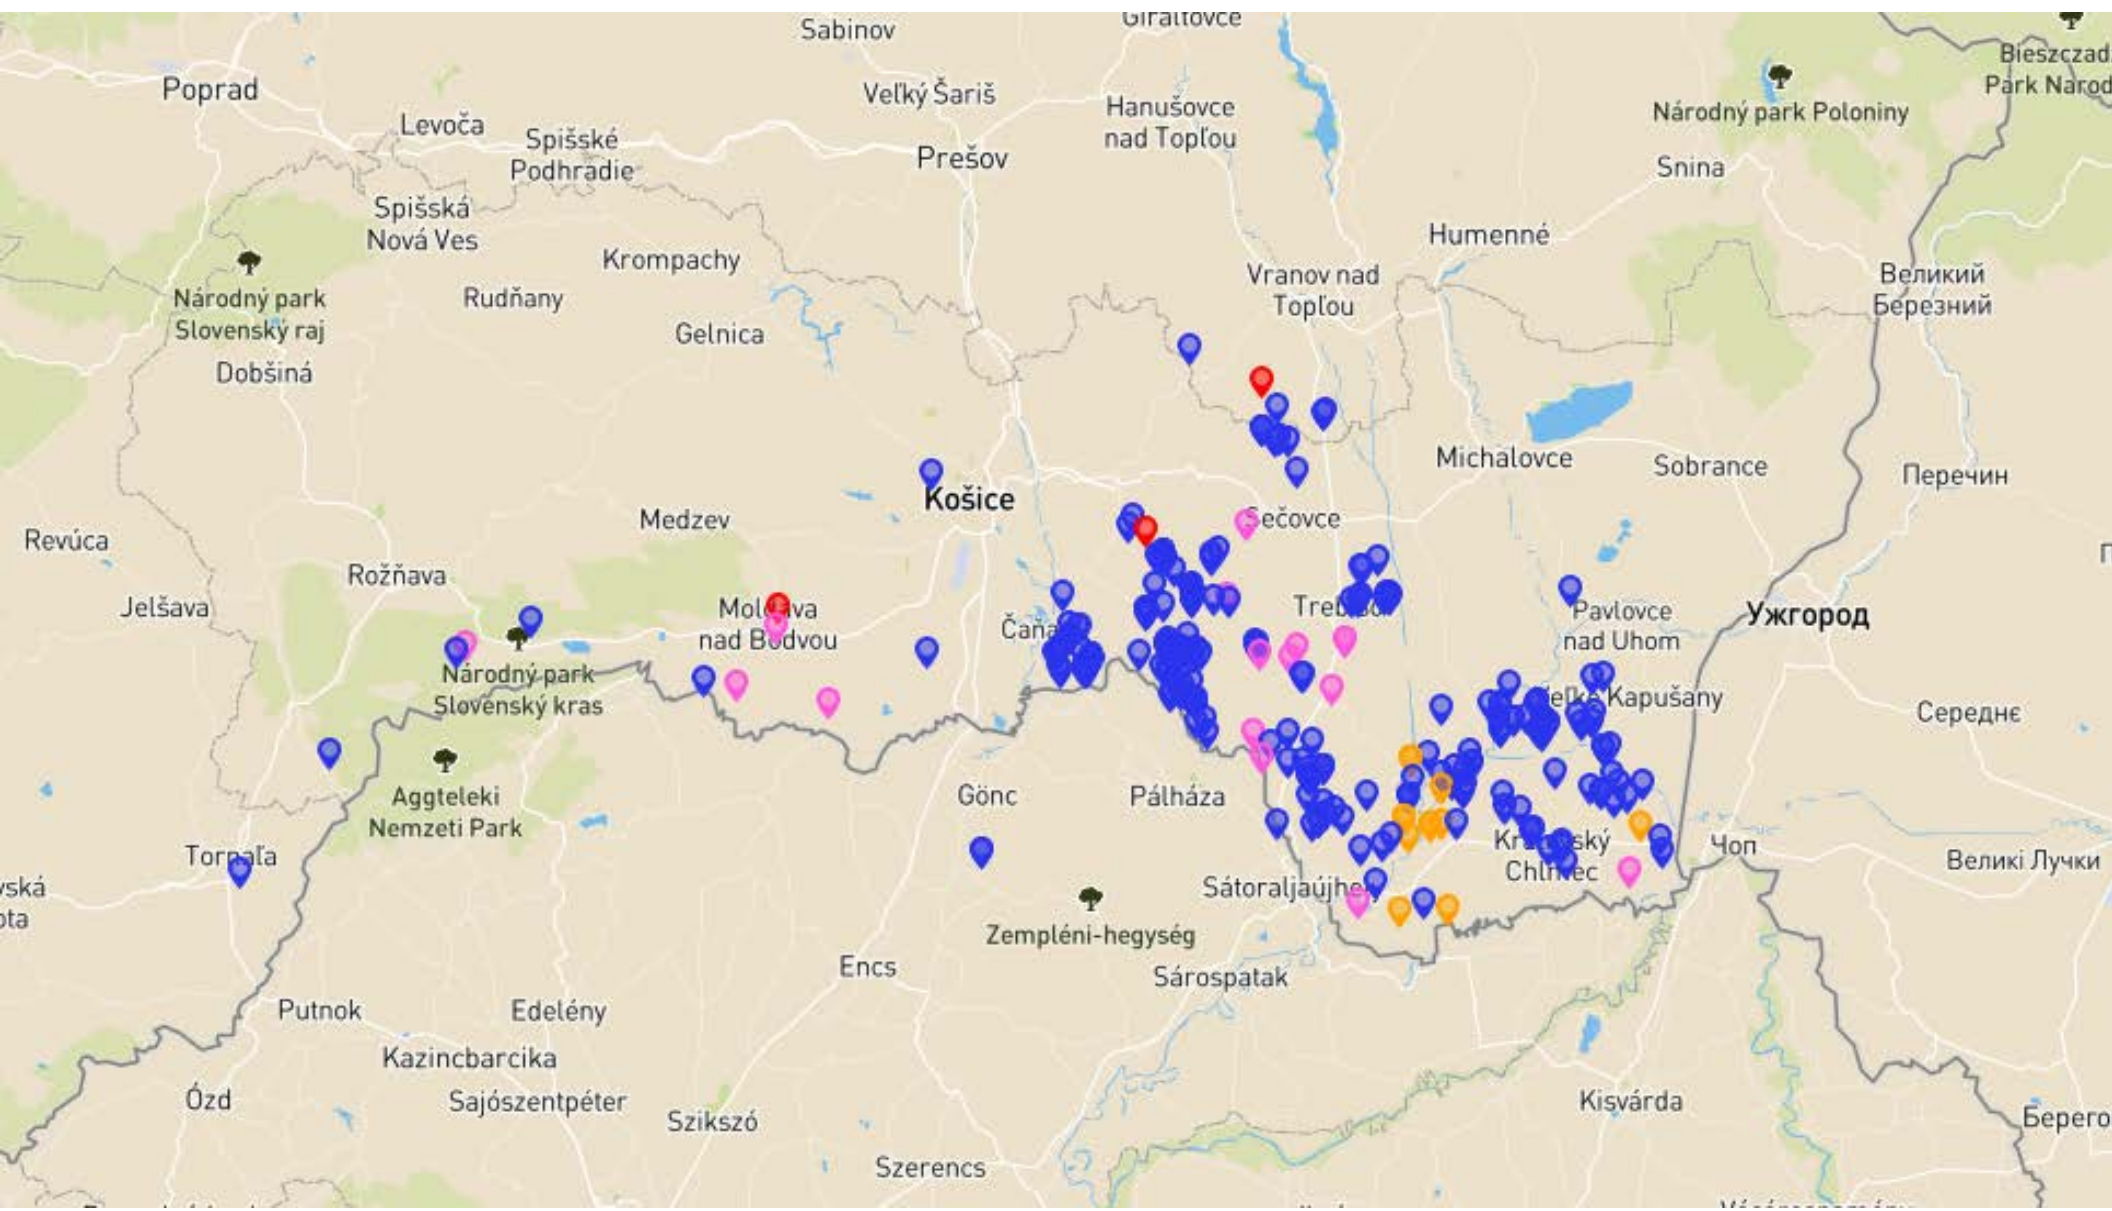

Wild boar :

- 37 posit WB tested/confirmed (as from 22.9.2020 till 19.10.2020)
- whole year 2020: 273 pozit. WB in 6 districts (Trebišov, Michalovce, Košice-okolie, Košice-city, Rožňava, Rimavská Sobota)
- the importance of testing of WB died by car incident.– new – one WB tested positive on 19.10 2020 in Košice –okolie district (already in infected area)

 Diviak s dátumom konfirmácie nie starším ako 7 dní.  Diviak s dátumom konfirmácie starším ako 7 dní.

 Domáca ošípaná s dátumom konfirmácie nie starším ako 90 dní.  Domáca ošípaná s dátumom konfirmácie starším ako 90 dní.

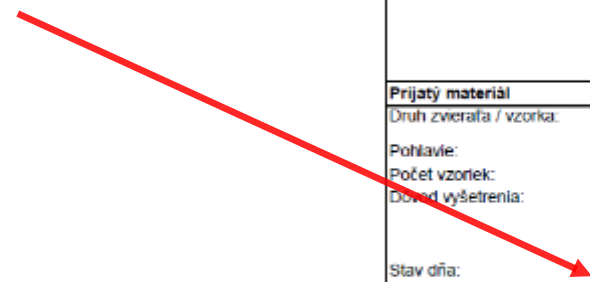

ASF-SK .- status 19.10.2020

Last case WB (19.10.2020) – car incident !- In Slovakia an obligation to check car incident WBs- valid for whole SK territory

Country of origin | SLOVAKIA
 Disease | African swine fever in wild boar
 Serial number of outbreak (year/number) | 2020/189
 Type of outbreak (primary '1' or secondary '2') | 1
 Region affected | 00031 Kosice okolie
 Traces LVU code | 01100 - Košice-okolie
 Latitude | 48.69
 Longitude | 20.97

Control measures :
 - 32 DEST OUT
 - 50 MOVE CONTRL

Laboratory Investigations of ASF in wild boars in Slovakia during 2012 - 2020

New zoning – SK- following ADNS WB posit 2020/181

Summary

- Till 20.10.2020 no further suspicions in domestic pigs in that area – **more than one month „quiet“ period in that matter**
- WB positivity confirmed in the area currently determined as a part II(III) of 2014/709/EC
- Controls of biosecurity – hunting grounds /holdings – ongoing (despite the „corona“ difficulties)
- Identification and registration of pig holdings – a massive campaign in whole Slovak territory in progress + connected with public awareness regarding „good“ practices in the holdings and biosecurity measures to prevent introduction of virus into the holdings
- Recommendation issued by CVO - to stop pig breeding in infected areas and/or areas with high risk ! (non-commercial holdings) + around big commercial farms
- The adjustment of zones (part II as well as part I) because of ASF WB posit closer part I (ADNS message 2020/181)

Thank you for your attention
