

The Digital Tool of the EU Platform on Animal Welfare

Denis Simonin

Head of Sector "Animal Welfare", Unit G2
Directorate General for Health and Food safety - European Commission

What is the Digital Tool?

- Restricted to Platform's members
- Moderated by the Commission; contents under the responsibility of the users
- Co-working instrument, horizontal dialogue and exchange of information
- Different from the EU Platform on Animal Welfare webpage
- Users' proactivity and willingness

Welcome on our new Digital Tool!

THE EU PLATFORM ON ANIMAL WELFARE

Everyone is Responsible

The EU Platform on Animal Welfare is an interactive network which aims at promoting dialogue among competent authorities, businesses, civil society organisations and scientists on animal welfare issues that are relevant for the Union.

This dialogue intends to build mutual understanding, foster trust and encourage voluntary commitments between Platform members to achieve concrete results in improving the welfare of animals. The Platform therefore relies on the contribution of each of its members, hence the motto "Everyone is responsible".

The Digital Tool of the EU Platform on Animal Welfare that you are currently browsing is an online space specifically designed and restricted for Platform members, providing them with a secure messaging system.

[Access/request access to My network](#)

Digital Tool Structure

- **Agora:** common space open to all users
- **Sub-groups:** Restricted-access working networks on specific issues, as mandated by the Commission
- **Thematic networks:** accessible to all users and open to discussion on thematic issues, besides sub-groups

The working language is **English**

EU Platform on Animal Welfare

[Home](#)[Digital Tool Structure](#)[Who can join](#)[About](#)

Access a Network

AGORA

In this network you can both discuss crosscutting issues related to animal welfare and gather ideas on relevant policy areas. In here, you can also share pertinent information, such as the reports you produce, new projects, campaigns and the events you organise.

[Participate >](#)

Access granted

EU Platform Sub-groups

Animal Transport

This sub-group on animal transport both promotes the exchange of experiences and facilitates the cooperation in the area of animal transport, with the purpose of supporting the Platform's work.

The sub-group is composed of 20 members and helps the Platform in gathering information and expertise on how:

- technical innovation could improve the welfare of animals during transport;
- education and training of drivers and attendants could be harmonised and improved;
- policy indicators on the protection of animals during transport could be set up and

More IT sub-groups and thematic networks to be created upon the Commission's mandate

Features and functionalities

- **Interacting** with other users
- **Sharing information** by uploading, downloading and browsing contents (.pdf, .doc, .ppt, .xls, .jpg)
- **Creating polls**, scheduling events, meetings and follow-ups on a **shared calendar**
- **Reacting** to other users' activities on the Digital Tool (commenting, liking, adding to favourites...)

Features are the same for all networks

What's new on your networks?
