Situation in poultry and captive birds

The current genotype in DEU remains H5N1 2.3.4.4b "DI";
There have been no deviations in wild birds or poultry here since summer.

“Active”
outbreaks on
12/12/2024

Special situation in **lower saxony**,
see next slides

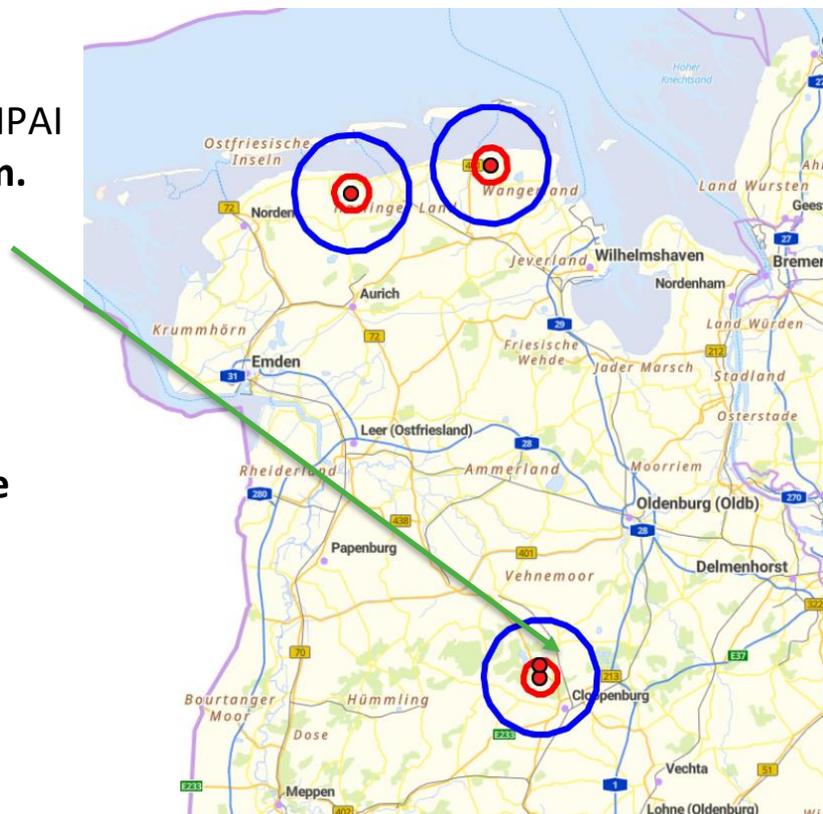

Measures are in place,
mainly primary outbreaks,
one secondary outbreak in
Mecklenburg Western Pomerania
= contact establishments

Situation in **poultry** and **captive birds**

Lower Saxony, District of Cloppenburg:

- Municipality of **Molbergen**, the outbreak of HPAI H5N1 was detected in a **turkey fattening farm**.
- **Passive monitoring** was established in the **protection zone**.
- With this, **H5N1 was detected** in a **turkey fattening farm** located in the municipality of **Garrel**.
- Municipalities of **Garrel, Bösel and Friesoythe** are a **high density area** of turkey farms.
- In the municipality of **Garrel**, around **13.000 animals are kept per square kilometer**.

Situation in **poultry** and **captive birds**

District of **Cloppenburg** has therefore issued a general order with a **restocking ban** in the municipalities of **Garrel, Bösel and Friesoythe** for a period of **30 days**.

The **restocking ban** applies from **December 17, 2024** to turkeys.

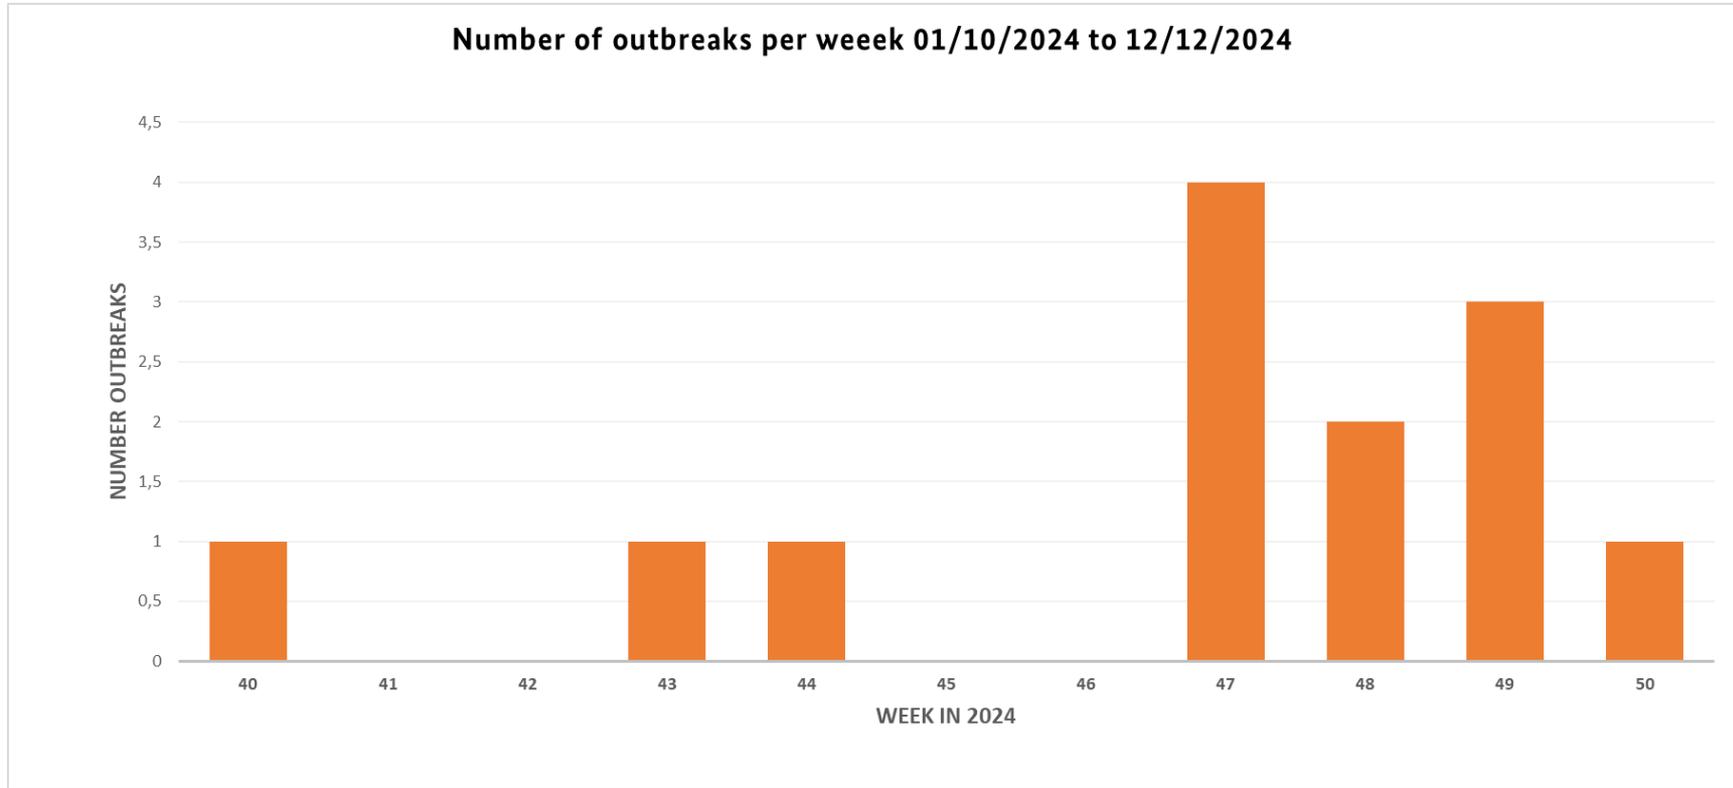

The ban on restocking is a **single, additional control measure pursuant to Article 71(1) of Regulation (EU) 2016/429** in conjunction with the **national Avian Influenza Regulation**.

The measure is intended to **reduce the density of turkeys** in the municipalities and thus **reduce the risk of infection with HPAIV**.

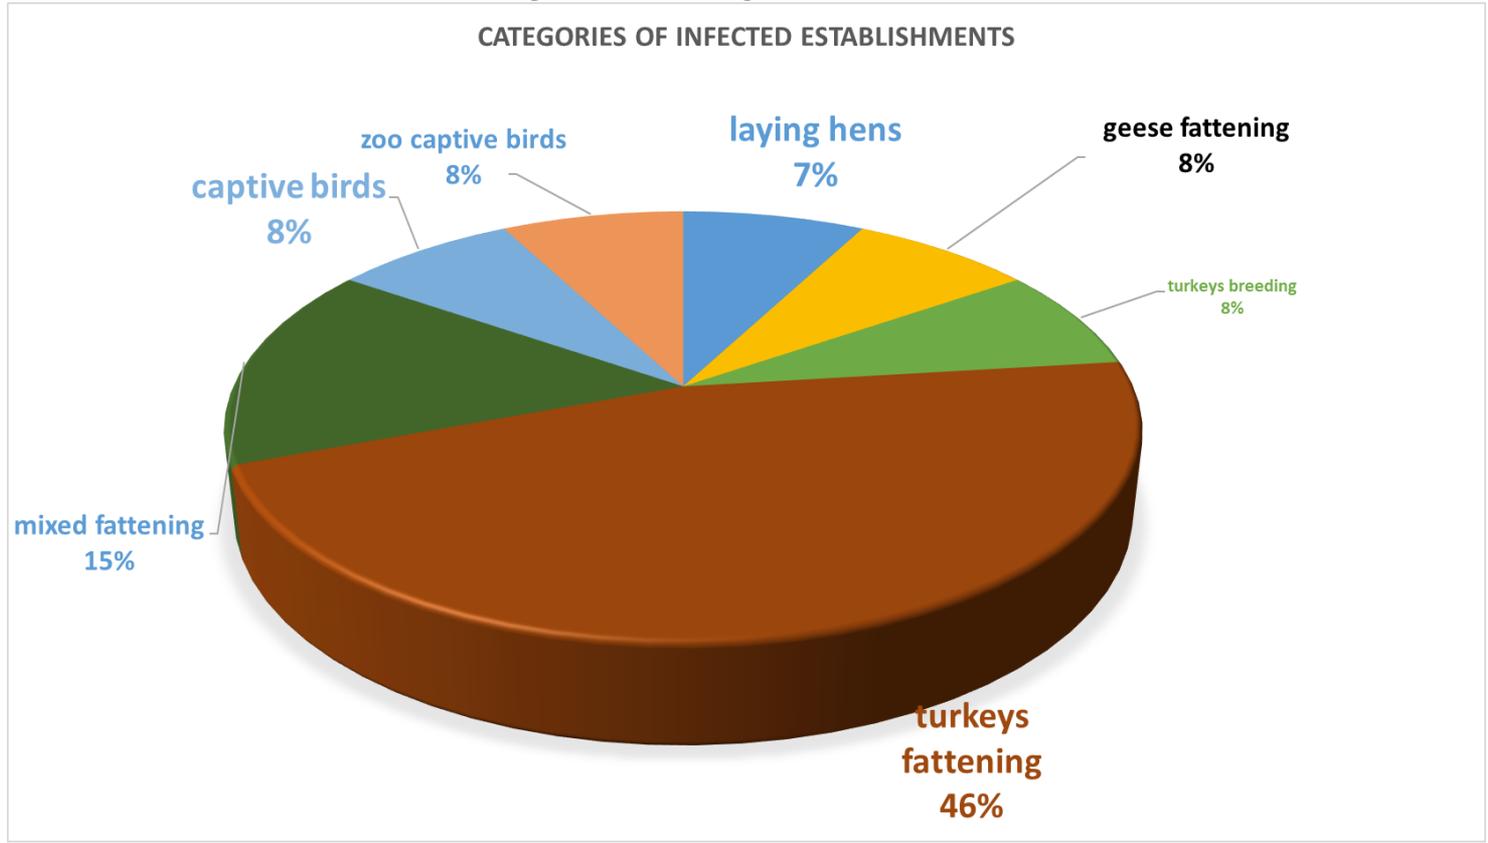

Pursuant to **Article 71(2) of Regulation (EU) 2016/429**, **Member States shall inform the Commission** of any additional disease control measures they have taken pursuant to **Article 71(1)**.

Evolution: Poultry and captive birds

Establishments: Poultry and captive birds 01/10/2024 -12/12/2024

Summary

- Number of cases in **wild birds increased**
- Number of cases in **poultry increased**, mainly **poultry for fattening** affected
- Awareness and **preparedness** very important!
- **Biosecurity measures** in poultry, captive birds and trade establishments in place
- Risk assessment results in **high risk**

Thank you for your attention!
