

European Union comments on

CL 2024/78-CAC

Request for comments on the standards and related texts submitted by the 55th Session of the Codex Committee on Pesticide Residues for adoption by the 47th Session of the Codex Alimentarius Commission

Maximum residue limits (MRLs) for pesticide residues for adoption at Step 5/8

*European Union Competence
European Union Vote*

The European Union (EU) would like to provide the following comments:

326 Broflanilide

The code in “VL 0467 Chinese cabbage (type pe-tsai)” should be changed to “**V**0467 Chinese cabbage (type pe-tsai)”.

This is in line with the recommendation of the 55th Session of the Codex Committee on Pesticide Residues (see Report REP24/PR55 (206/207), p. 18, Appendix II (here wrong code)) and the current Codex Classification for vegetables, Group 10 Brassica Vegetables (Except Brassica Leafy Vegetables).

As for previous sessions of the Codex Alimentarius Commission, the EU will, at a later stage, submit a CRD summarizing all EU reservations on MRLs for pesticide residues.
