

# Criteria for the development of FOP schemes

*Post-meeting Note: Due to lack of time, only the first criterion was presented and discussed during the meeting*

**SANTE.E1 – Food information and composition, food waste**

Joint meeting Member States and Stakeholders on front-of-pack nutrition labelling  
Brussels, 22 June 2018

## DEVELOPMENT OF FOP SCHEMES : POTENTIAL ELEMENTS FOR CONSIDERATION AND FURTHER DISCUSSION

(a) they are based on **scientifically valid consumer research** and do **not mislead** the consumer (Art 7 Fair information practices)

*'Not mislead the consumer':*

- ✓ *Coherence with conditions of use of corresponding nutrition claim?*
- ✓ *Information as complete as possible and should not classify food products into categories [IT, CEFS]*
- ✓ *Colour-coding to be based on a uniform basis (e.g. 100 g/ml) [BEUC]*
- ✓ *Any directive system potentially mislead consumers [CLITRAVI]*
