Chronology – positive cases in 2014 in wild boars (1)

Month	Number of cases in wild boar	Location
September 2014	2	Case no 1/Infected area 1
	7	Case no 2/Infected area 2
	1	Case no 3/Infected area 3
	1	Case no 4/Infected area 4
Total	11	
October 2014	3	Case no 1/Infected area 1
	15	Case no 2/Infected area 2
	4	Case no 5/Infected area 5
Total	22	
November 2014	1	Case no 1/Infected area 1
	19	Case no 2/Infected area 2
	1	Case no 3/Infected area 3
	1	Case no 5/Infected area 5
Total	22	
December 2014	9	Case no 1/Infected area 1
	6	Case no 2/Infected area 2
	1	Case no 3/Infected area 3
	1	Case no 6/Infected area 6
	1	Case no 7/Infected area 7
Total	18	

Chronology – positive cases in 2014 (2)

Location	Number of positive wild boars
Case no 1/Infected area 1	15
Case no 2/Infected area 2	47 / 7 hunted
Case no 3/Infected area 3	3 / 1 hunted
Case no 4/Infected area 4	1
Case no 5/Infected area 5	5
Case no 6/Infected area 6	1
Case no 7/Infected area 7	1
Total	73

Map with locations of 7 positive cases/ 7 infected areas

ASF surveillance in Estonia in 2014

- The number of animals tested (1st January – 31st December 2014)

	PCR	ELISA
Domestic pigs	1318	1452
Wild boar	964	909
Total	2282	2361

- Total number of tested animals
 - Domestic pigs: 1986
 - Wild boars: 1056
 - 879 hunted

ASF surveillance in 2015 (1)

- Chronology – positive cases in wild boars

Month	Number of cases in wild boar	Location
January 2015	3	Case no 1/Infected area 1
	1 / 1 hunted	Case no 2/Infected area 2
	3 / 3 hunted	Case no 3/Infected area 3
	1	Case no 7/Infected area 7
Total	8 / 4 hunted	

ASF surveillance in 2015 (2)

- The number of animals tested (1st January – 9th January 2015)

	PCR	ELISA
Domestic pigs	6	6
Wild boars	112	108
Total	118	114

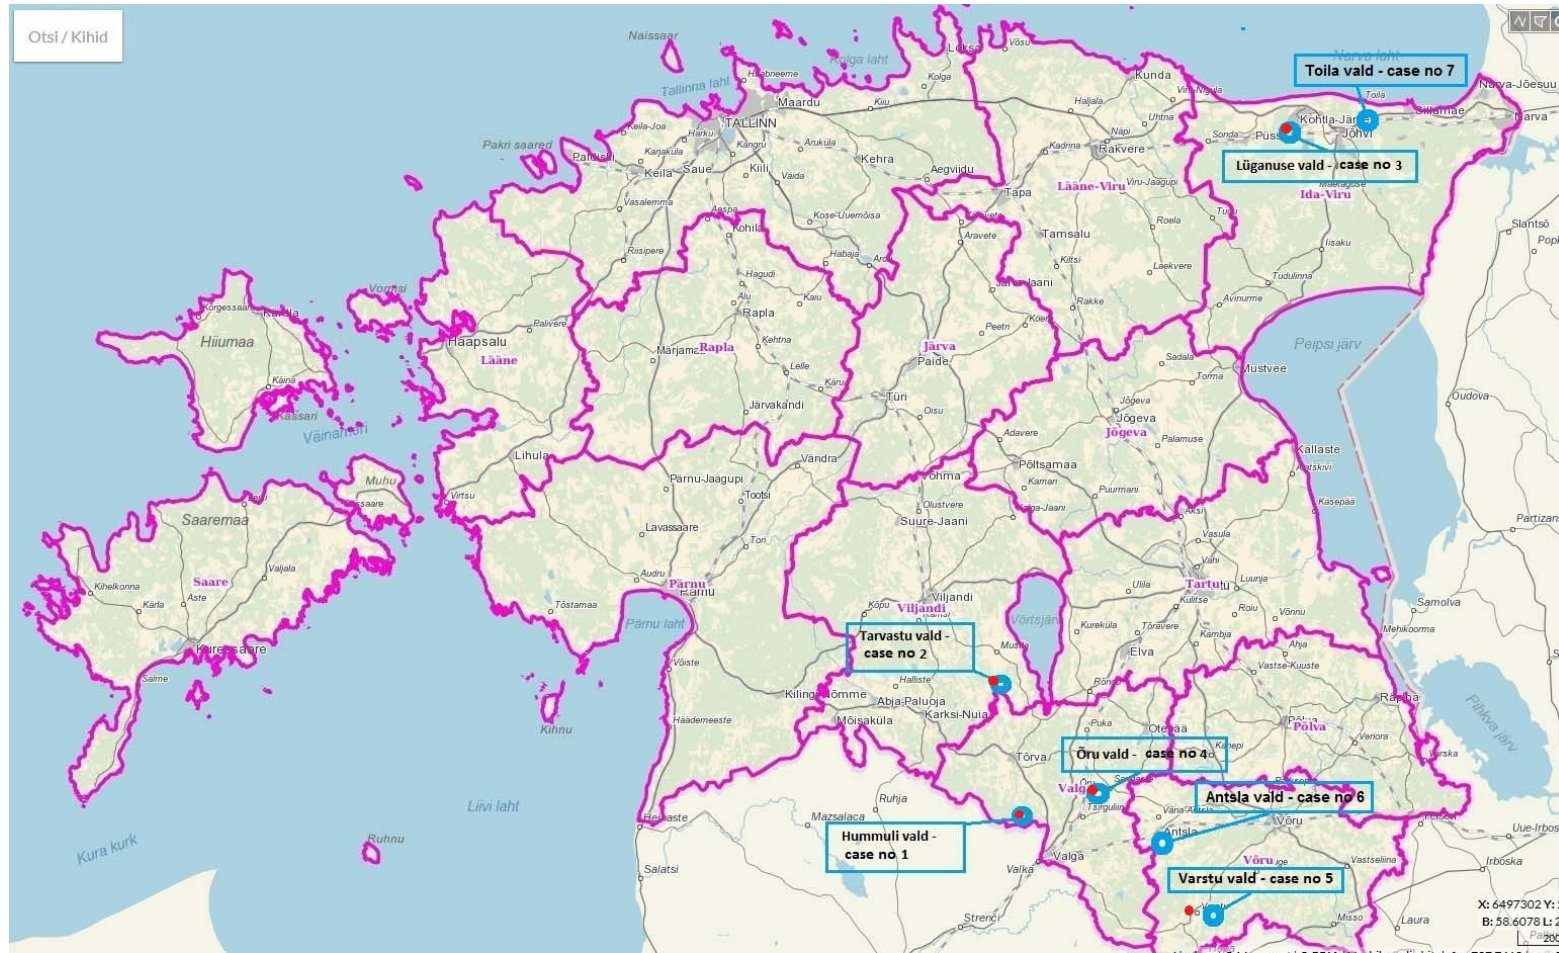

- Total number of tested animals
 - Domestic pigs: 6
 - Wild boars: 112
 - 106 hunted
 - 6 found dead/carcasses (tissue, bone marrow)

Wild boar carcass collection system (1)

- Organized by Vireen AS which collects and recycles perished farm animals and the animal by-products of the meat industry of Estonia
- 5 containers are placed in the areas where ASF has been diagnosed in wild boars
- Containers are placed near the places of positive wild boar cases:
 - One in Ida-Viru county
 - One in Viljandi county
 - Two in Valga county
 - One in Võru county

Wild boar carcass collection system (2)

Location of the containers

Thank you for the attention!
