TOTAL	2372	100

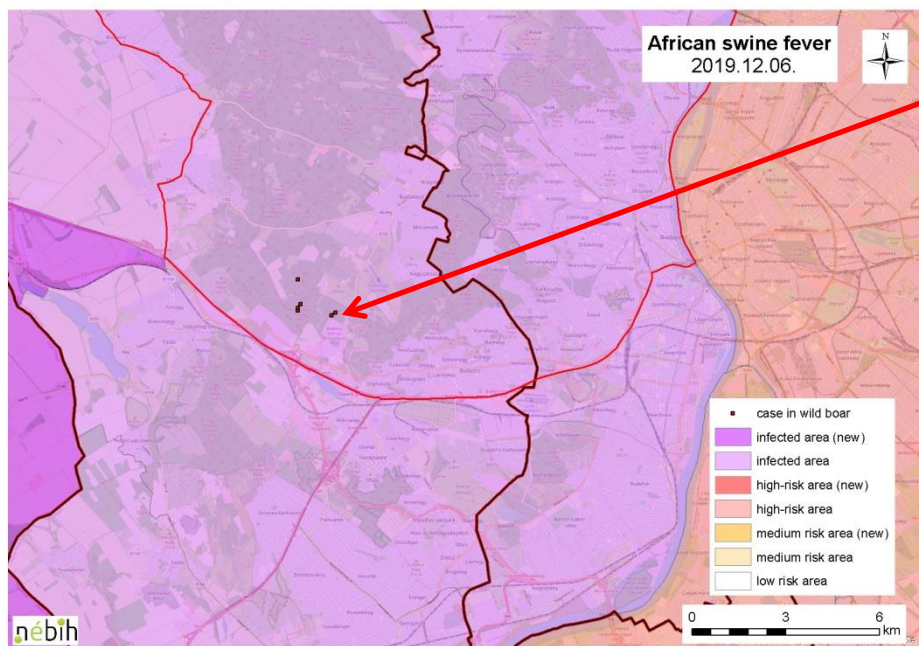

cases

New cases in Pest county

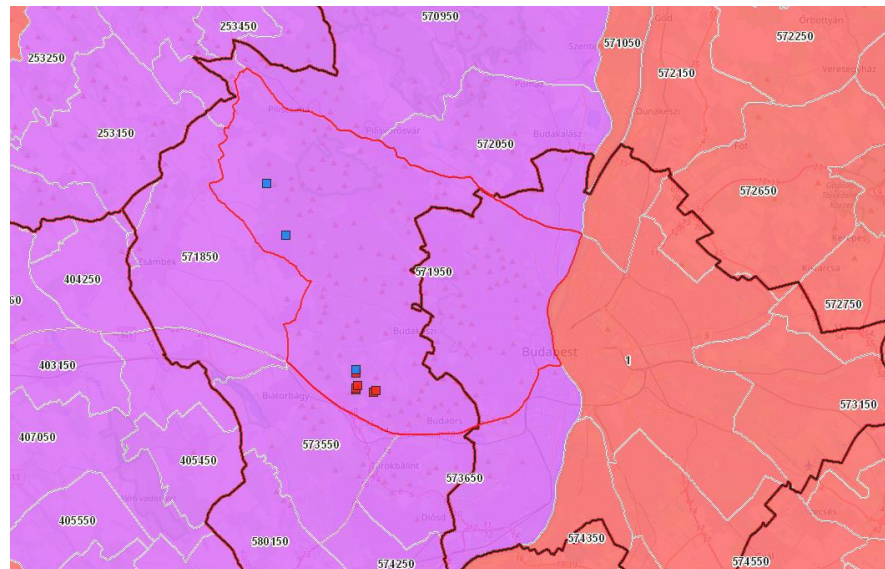

- 2 dead boars were found outside the wild game garden – close to the fence – 02.12.
- ASF was confirmed – 04.12.
- single fence, rain, human error (gate)?

New cases in Pest county

- Further cases in the strictly restricted area

- SRA – outside the garden: 39 dead WB, 260 shot - 5 positive (3 dead and 2 shot) all negative
- SRA – inside the garden:
 - 290 dead WBs found – 86 samples – 61 positives
 - 336 shot – 82 samples – 6 positive
- estimated: 10-15 WBs left in the garden

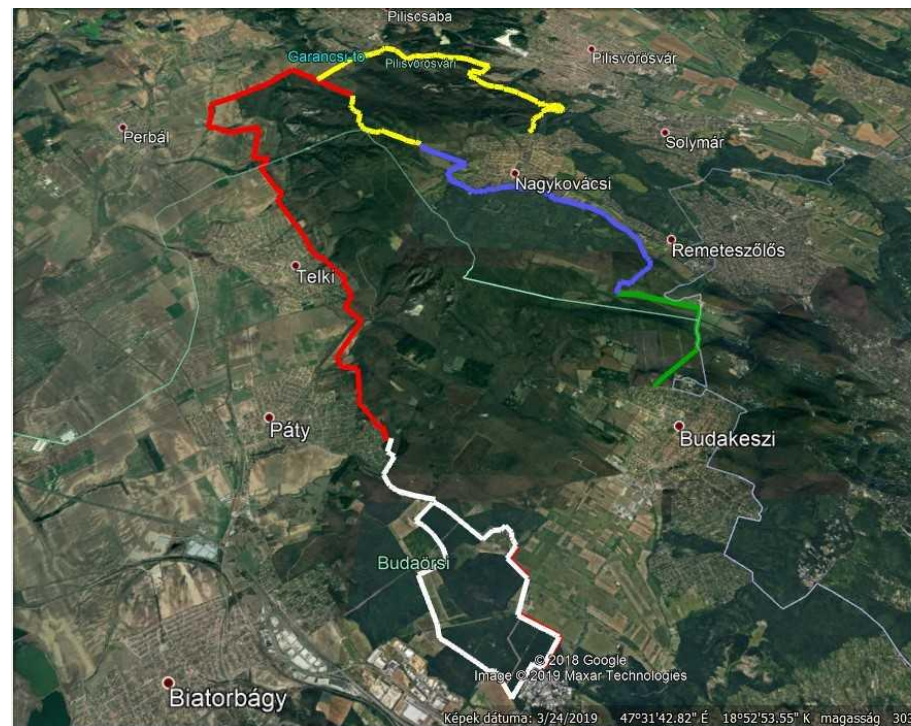

Measures in this territory

SRA

- renewal of the fences in the west (red) and in the north (yellow)
- till that no diagnostic shooting near the fence
- intensive trapping
- feeding to localize WB

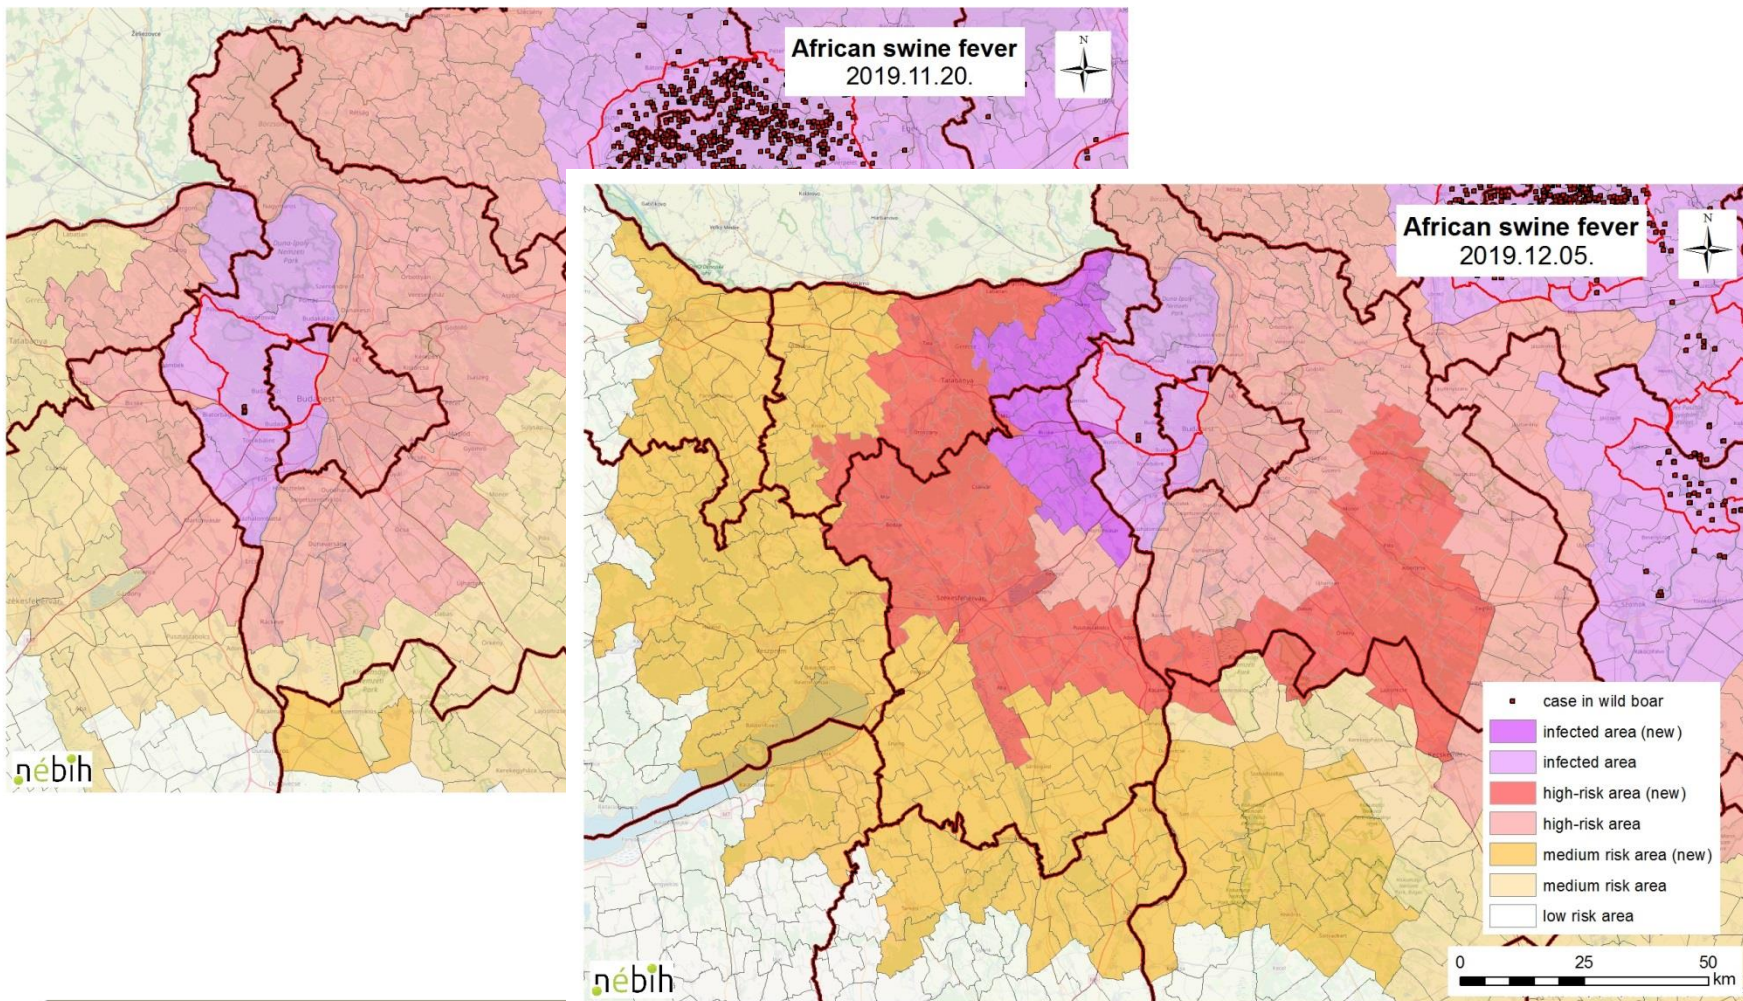

around the SRA:

- decreasing WB population

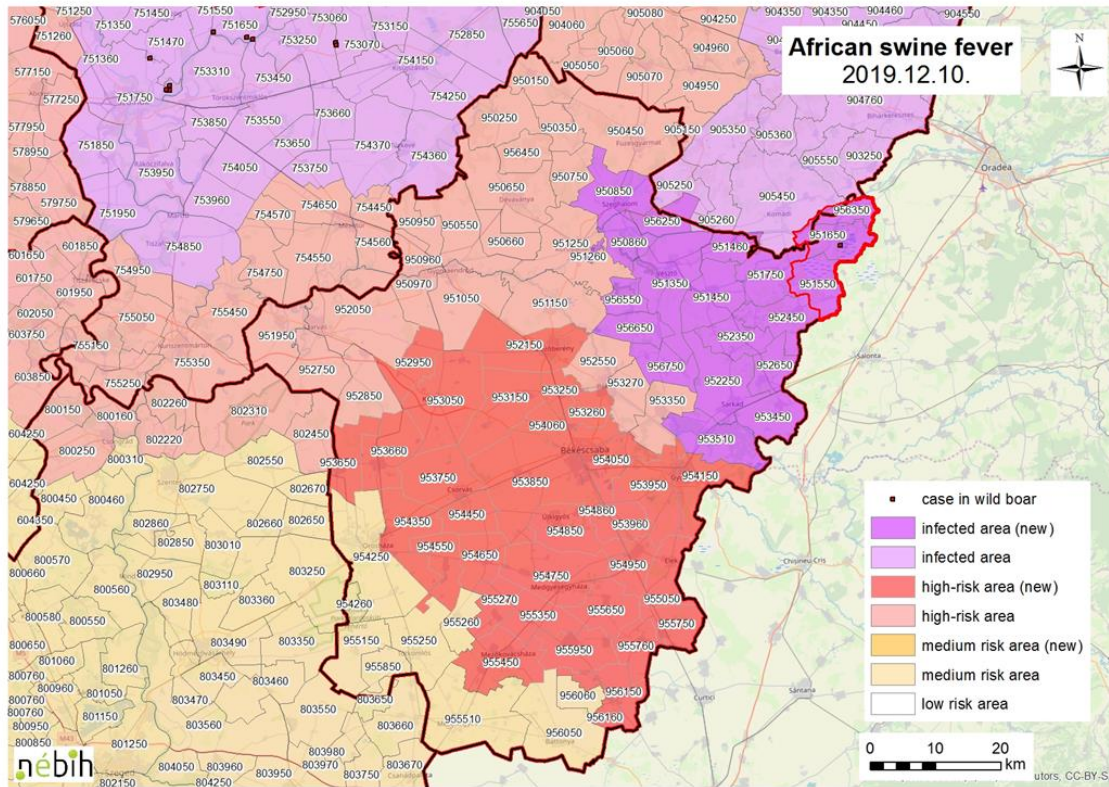

Enlargement of the infected area

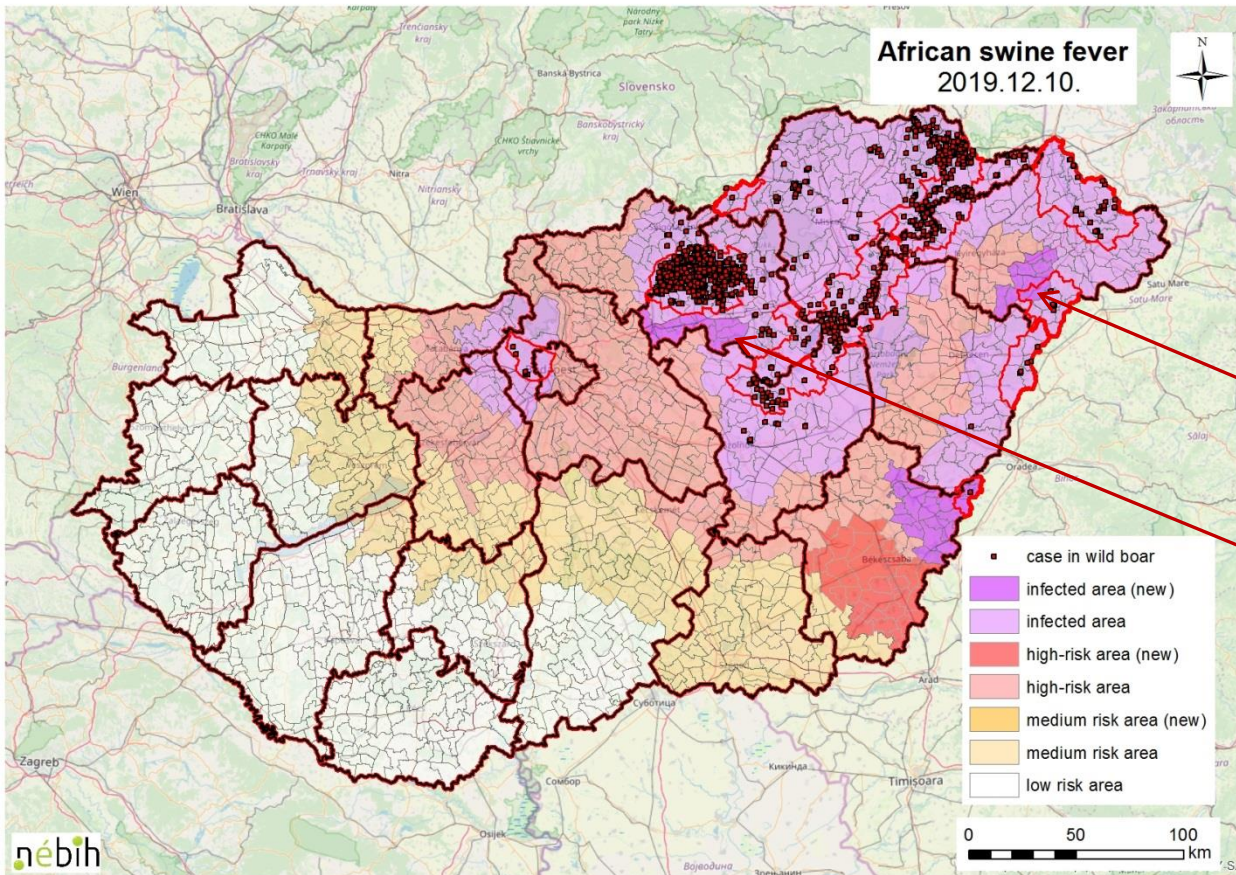

Case in Békés county

- New primary case in Békés county in high risk area
- Natural spread of wild boars is the most possible
- Enlargement of the infected and high risk zones (Part I and Part II)

Enlargement of the infected area

- Due to some cases at the edge of the infected area
- In Szabolcs-Szatmár-Bereg county
- In Heves county
