Application for the recognition of SVD-Free status for Campania Region

Sarah Guizzardi

Bruxelles, 19/09/2017

Italian SVD status (updated to September 2017)

According to Dec. 2005/779/CE Italy is a SVD free country except for Campania and Calabria regions.

- SVD – free Regions
- SVD – not free Regions

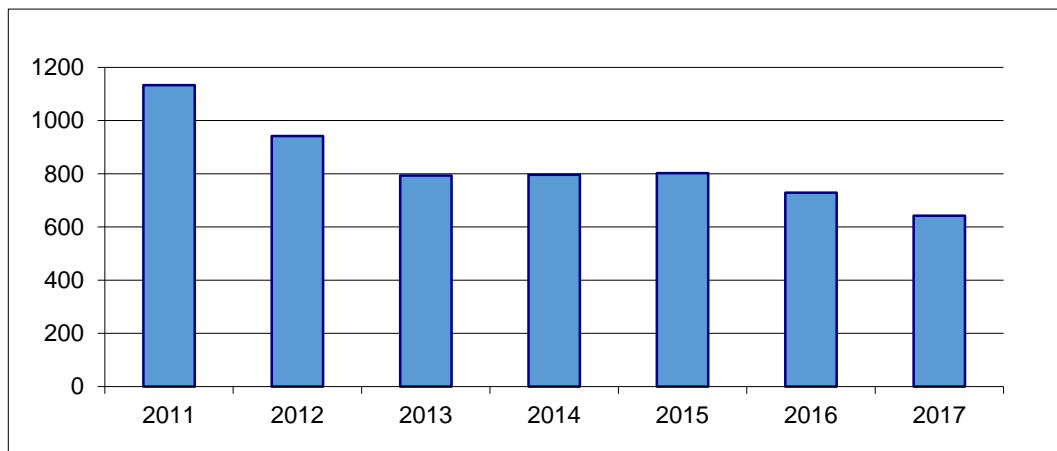

SVD Surveillance scheme in Italy

Dec. 2005/779/CE (art. 5-6), reinforced by national rules

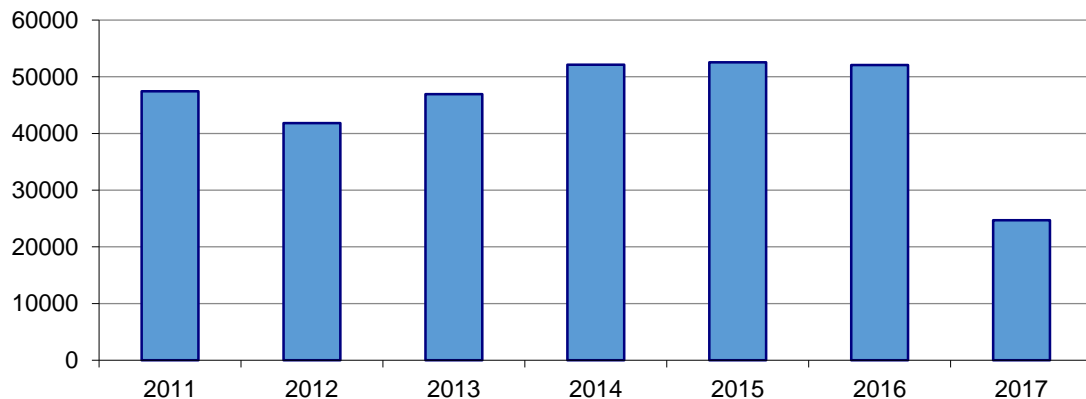

| Region Status | Farrow-to-wean | Farrow-to-finish | Fattening | Assembly centre/Dealer's premise |
|---------------------|---|---|--|--|
| SVD-Free | All holdings Serological testing (P=10%, CI=95%) Twice a year | All holdings Serological testing (P=10%, CI=95%) Once a year | Random sample (P=3%, CI=95%). Serological testing (P=10%, CI=95%) Twice a year | All holdings. Serological testing (P=5%, CI=95%) + faecal sampling Monthly |
| Not SVD-Free | All holdings Serological testing (P=10%, CI=95%) Twice a year | All holdings Serological testing (P=10%, CI=95%) Twice a year | All holdings Serological testing (P=5%, CI=95%) Twice a year | All holdings Serological testing (P=5%, CI=95%) + faecal sampling Monthly |

SVD eradication programme in Campania

N. FARMS CONTROLLED

N. ANIMALS CONTROLLED

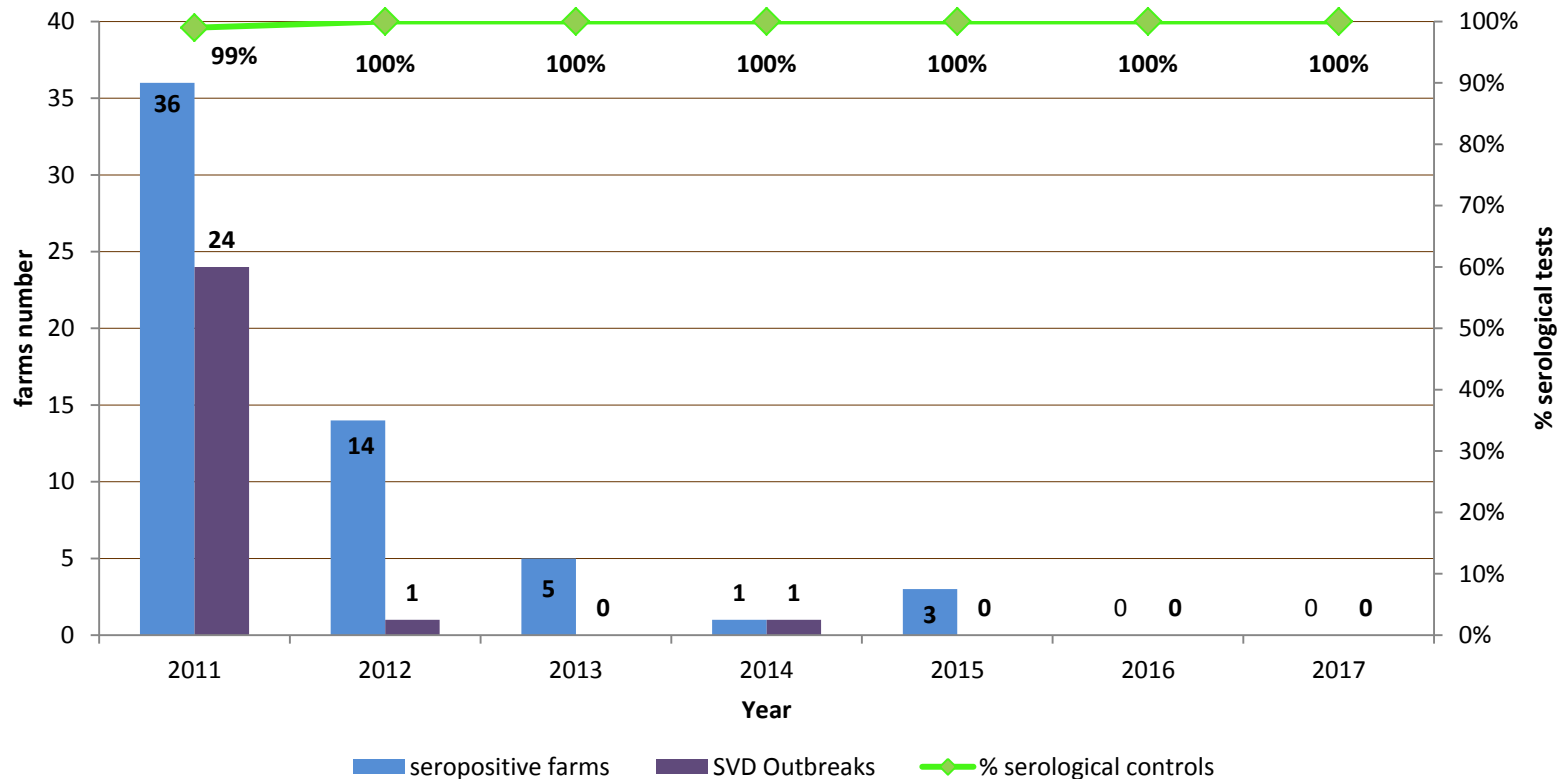

SVD eradication programme in Campania

- After 2011 epidemic, the Campania Region carried out an extra-ordinary eradication program. Additional measures implemented were:
 - Increased biosecurity measures and closure of non compliant holdings
 - Increased controls on pig movements
 - Stamping out, without compensation, of unidentified pigs

SVD eradication programme in Campania

SVD in Campania Region : % serological tests (OM/2008) with outbreaks and seropositivities - 2011-2017

-Last SVD outbreak in Campania Region notified on 27 Oct. 2014.

-Epidemiological investigation following the detection of last seropositive pigs in 2015.

-No SVD seropositive pigs detected in 2016 and 2017.

Recognition of Campania as SVD-Free Region

Since the end of 2015 the 100% of pig holdings are recognized as free from swine vesicular disease.

Based on this results Italy requests the recognition of SVD-Free status for Campania Region, with the amendment of Annexes I and II to Decision 2005/779/EC.
