and Food of Denmark
Danish Veterinary and
Food Administration

African Swine Fever Danish action plan

Political agreement on strengthened efforts against introduction of ASF

Veterinary efforts

- Strengthening of the veterinary preparedness
- Intensive information campaigns in relation to biosecurity at farm level and leaving food offal in nature
- Put up information posters at rest places along major roads
- Information to free-range pig holders on requirements for fencing and risk for contamination via kitchen waste – backyard herds
- **Control campaigns:** Cleaning and disinfection transport vehicles (2018) – Fencing of free-range pigs including wild boars (2019)
- Increase fine levels for infringements in relation to the risk for ASF – illegal import of food from third countries and dirty transport vehicles

Extermination of wild boar in Denmark

- Intensify measures for extinction of wild boars in Denmark
- Change of hunting rules – permit wild boar hunting day and night all year
- Establish a wild boar fence along the Danish-German border
- Increase ASF surveillance in killed wild boars – incentive free examination for trichinella
- Improve collaboration with hunting associations

Veterinary preparedness

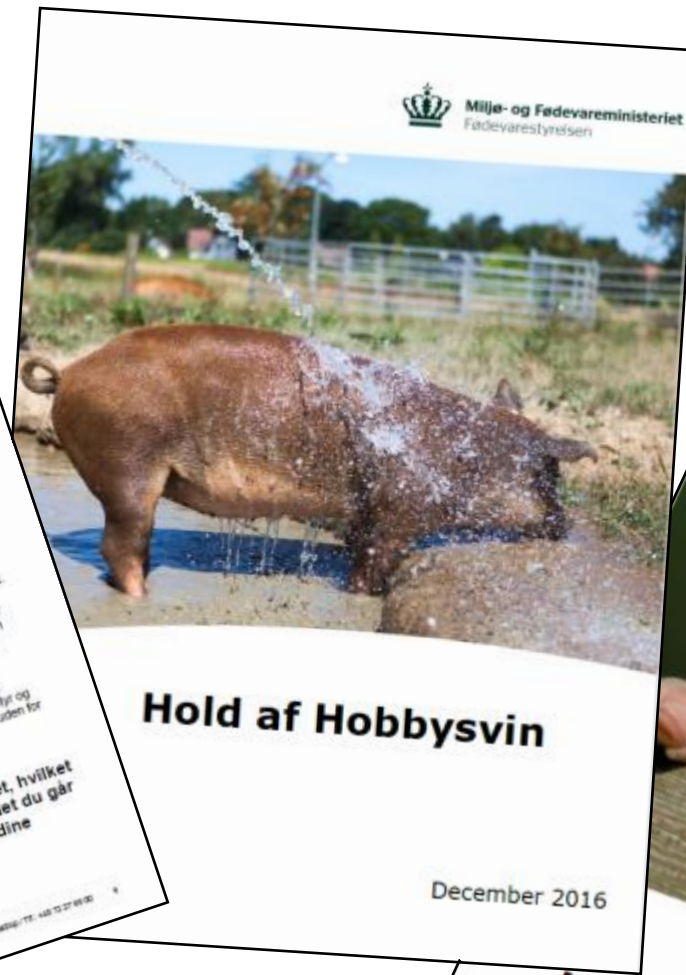

- **Update of contingency plan – insect control at outbreaks**
- **Risk assessments for new outbreak areas**
- **Early warning system: Test of two samples per day of selected organ material of pig carcasses where anamnestic information and pathology unclear – industry's lab**
- **All notified suspicions tested**
- **Test of all killed wild boars (free trichinella test)**
- **ASF simulation exercise in 2019**

Information

DVFA website and leaflets

- Hunters
- Backyard pig holders
- Pet pig holders

Further information measures

Information to target groups in relation to risk of introduction of ASF via food items and kitchen waste

- Private persons – import of food specialities from holidays
- Craftsmen and truck drivers from Eastern Europe
- Backyard holders

Advarsel!
Advarsel! Forsigtig er et meget smittende sygdom. Der er stor risiko for at bringe af smittet kød med sig hjemmefra. Forsigtig er det derfor vigtigt at være forsigtig med at bringe kød hjemmefra. SIKKERHEDEN ER VORES BESTE VEN. HUSK AT BRUGE RIGTIGT TILBUDNEDE UDVALGTE TILBUDSOPBUDNINGER!

Warning!
Highly contagious. ASF is a very infectious disease. There is a high risk of bringing home contaminated meat. It is therefore important to be careful when bringing home meat. PLEASE BE CAREFUL! PLEASE USE THE OFFERED SAFETY PACKAGING!

Achtung!
Zoonose! ASF ist eine hoch ansteckende Krankheit. Es besteht ein hohes Risiko, kontaminiertes Fleisch mit nach Hause zu bringen. Bitte seien Sie vorsichtig, wenn Sie Fleisch mit nach Hause bringen. BITTE SEIEN SIE VORSICHTIG, WENN SIE FLEISCH MIT NACH HAUSE BRINGEN! BITTE VERWENDEN SIE DIE RICHTIGEN ANGEBOTENEN VERPACKUNGSWEISEN!

Увaga!
С 2014 года в Европе распространяется очень опасная инфекция ASF (африканская чума свиней) – заболевание, которое может передаваться человеку и свиньям. Очень важно быть осторожным, когда вы привозите мясо из стран, где распространяется эта инфекция. ВАЖНО ПОСМОТРЕТЬ НА ПРАВИЛЬНЫЕ СПОСОБЫ УПАКОВКИ ПРИБЫВАЮЩЕГО МЯСА!

Atentie!
Din anul 2014 în Europa s-a răspândit o boală foarte contagioasă și foarte periculoasă pentru om și porc. Este foarte important să fiți atenți când aduceți carne acasă. ATENȚIE! ATENȚIE! ATENȚIE! ATENȚIE! ATENȚIE! ATENȚIE! ATENȚIE! ATENȚIE! ATENȚIE! ATENȚIE!

Pozor!
Od roku 2014 se v Evropě rozšířila velmi závažná a smrtelná onemocnění člověka a prasata. Je velmi důležité, abyste byli opatrní, když přivážíte maso domů. POZOR! POZOR! POZOR! POZOR! POZOR! POZOR! POZOR! POZOR! POZOR! POZOR!

Внимание!
С 2014 года в Европе распространяется очень опасная инфекция ASF (африканская чума свиней) – заболевание, которое может передаваться человеку и свиньям. Это не опасно для человека, заболеть может только свинья. Поэтому просим Вас быть осторожными, когда вы привозите мясо из стран, где распространяется эта инфекция!

Animal transport vehicles (cloven hoofed animals) returning to Denmark

■ Industry code of practice

- Compulsory wash and disinfection at the border
- Inside and outside security wash + disinfection
- 48 hour quarantine before access to a farm if the truck arrived from an ASF “high risk area” - Red
- 7 day quarantine before access to a farm if the truck arrived from “alert risk areas” in ASF infected countries - Black

Control campaign on cleaning and disinfection of transport vehicles

Directive 64/432, Article 12 (a) ii. “MS shall ensure that transporters of animals use means of transport that are: (ii) cleaned and disinfected immediately after every transport of animals or of any product which could affect animal health, and if necessary before any new loading of animals, using disinfectants officially authorised by the competent authority”;

According to Directive 64/432, Article 12 (b) MS must either:

“(i) have appropriate cleaning and disinfection facilities approved by the competent authority, including facilities for storing litter and dung; or

(ii) provide documentary evidence that these operations are performed by a third party approved by the competent authority.”

Controls conducted at the entry to Denmark

Preliminary results:

Planned no of controls 300 vehicles during April-Oct

	No of vehicles checked
Properly C&D	144 (55 %)
Warning	5 (2 %)
Prohibition	85 (33 %)
Police notification	27 (10 %)
Total	261

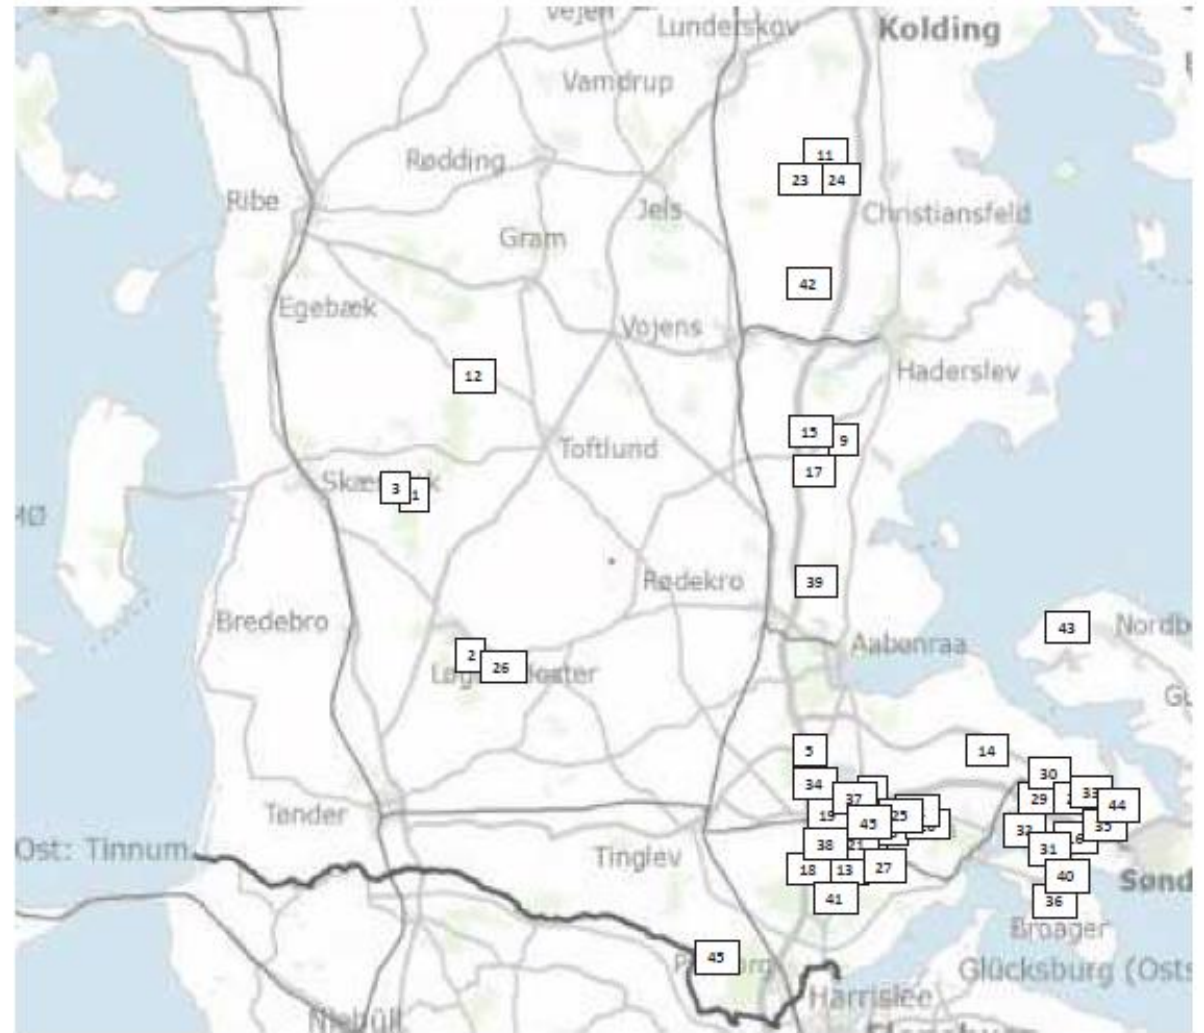

Wild boar management

DK has been free from wild boars since 1807

Culling wild boars – keeping DK free from wild wild boars

Reducing risk of ASF introduction via human activity

Fence along Danish-German border

Areas with wild boar observations in DK in 2017
Estimated population 100-150 animals

Wild boar management

Fence as protection against wild boars invasion

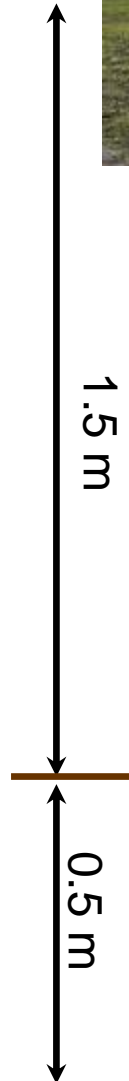

None of the Danish 8.500 pig farms are fenced

Free-range pigs fenced by double fence with electricity

Fence along Danish-German border – 67 km

Thank you for your attention
