

The Digital Tool of the EU Platform on Animal Welfare

Andrea GAVINELLI
*Head of Unit - Animal welfare and
antimicrobial resistance*

What is the Digital Tool?

- Communication channel restricted to Platform's members
- To keep exchange of information between meetings
- Co-working instrument
- Moderated by the Commission; contents under the responsibility of the users
- Users' proactivity and willingness

European
Commission

How to access it ?

1. Create an EU Login
2. Request access by sending an email to:

SANTE-ANIMAL-WELFARE-PLATFORM@ec.europa.eu

3. Wait for the email of confirmation with the link to access the Digital Tool

Find all the details in our *Quick User Guide* ➔

Welcome on our Digital Tool!

THE EU PLATFORM ON ANIMAL WELFARE

Everyone is Responsible

The EU Platform on Animal Welfare is an interactive network which aims at promoting dialogue among competent authorities, businesses, civil society organisations and scientists on animal welfare issues that are relevant for the Union.

This dialogue intends to build mutual understanding, foster trust and encourage voluntary commitments between Platform members to achieve concrete results in improving the welfare of animals. The Platform therefore relies on the contribution of each of its members, hence the motto "Everyone is responsible".

The Digital Tool of the EU Platform on Animal Welfare that you are currently browsing is an online space specifically designed and restricted for Platform members, providing them with a secure working environment.

[Access/request access to My network](#)

Digital Tool Structure

- **Agora:** common space open to all users
- **Sub-groups:** restricted-access working networks on specific issues, as mandated by the Commission
- **Thematic networks:** accessible to all users and open to discussion on thematic issues, besides sub-groups

The working language is English

Access granted

EU Platform Sub-groups

Animal Transport

This sub-group on animal transport both promotes the exchange of experiences and facilitates the cooperation in the area of animal transport, with the purpose of supporting the Platform's work.

The sub-group is composed of 20 members and helps the Platform in gathering information and expertise on how:

- technical innovation could improve the welfare of animals during transport;
- education and training of drivers and attendants could be harmonised and improved;
- policy indicators on the protection of animals during transport could be set up and

More IT sub-groups and thematic networks to be created upon the Commission's mandate

European
Commission

Networks' structure

- **Link to all Networks**
- **Search buttons**, by type, by keywords
- **FAQ**
- **Latest contents**
 - News
 - Events
 - Documents (Library)
- **List of members**, by activity, by alphabetic order, added recently

European
Commission

Features and functionalities

- **Interacting** with other users
- **Upload documents** in the *Library*
- **Sharing information** by uploading, downloading and browsing contents (.pdf, .doc, .ppt, .xls, .jpg)
- **Creating polls**, scheduling events, meetings and follow-ups on a **shared calendar**
- **Reacting to members' activities** with comments and likes **or add to favourites**

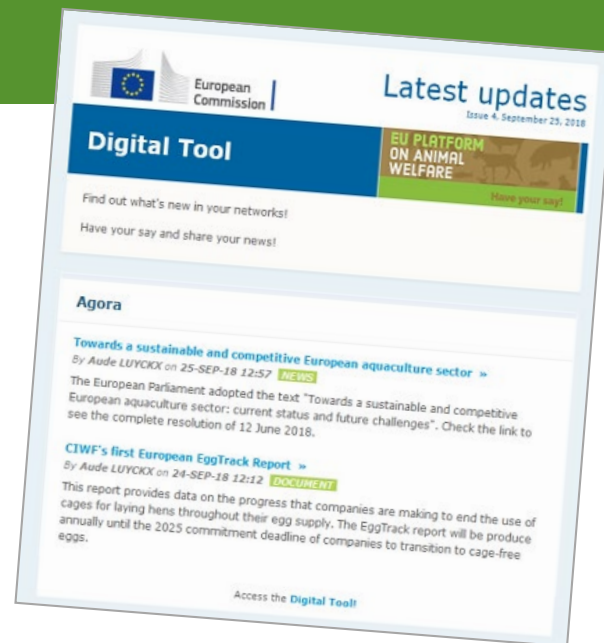

Features are the same for all networks

European
Commission

The Newsletter

- **Latest news** of your networks
- **Send to all members**
- **Increase the visibility of your initiatives**
- **Proactivity of the members of the subgroups**
➔ More than 60 activities in October!
- **Every Tuesday afternoon**
