Measures in hunting grounds

Hunting grounds in protection zones and infected zones

- entry to unauthorized persons prohibited
- enhanced biosecurity measures and mandatory disinfection of footwear and vehicles before leaving the hunting grounds to carry out activities in the hunting grounds (hunting activities, forest and other works, etc.)
- active search for dead wild boars
- prohibited processing of wild boar carcasses and cutting of wild boar meat in approved and registered facilities
- shot and dead wild boars or their parts are harmlessly disposed of as category 1 material in a category 1 animal by-product processing facility (in exceptional cases, on-site burial)

Hunting grounds in surveillance zones

- the carcasses of wild boars shot in intensified shooting are handled in accordance with the provisions of Article 52, Paragraph 2 of Delegated Regulation (EU) 2023/594

HR-Laboratory testing wild boar 1.7. - 8.9.2023.
