

DIAGNOSTICS FOR ANIMALS
VETERINARY DIAGNOSTIC MANUFACTURERS

22 members manufacturing
over 1600 veterinary
diagnostic tools under ISO
9001 or higher Quality
Management System

<https://diagnosticsforanimals.com/>

- Animal Health Diagnostics (AHDx) are niche market products of the Global Animal Health market ($\approx 2\%$)
- AHDx are highly regulated in most of the countries, worldwide, and regulations increase steadily in quantity as well as complexity
- Founded in March 2006, and headquartered in France, Diagnostics for Animals, D4A (formerly called EMVD) is the only professional organization representing AHDx manufacturers on an international/EU level
- Due to the global presence of its members, D4A is covering close to 90% of the global Animal Health Diagnostic reachable market

- **Federate** and **Represent** Manufacturers of Animal Health Diagnostics at large
- **Advocate** for a harmonized, efficient, and transparent regulatory and compliance framework to guarantee quality products serving animal welfare and food safety
- **Promote** initiatives for the development of Animal Health Diagnostics

D4A Partners

Data Base of Animal Health Diagnostics

- More than 1600 animal health diagnostics products listed
- The data base is organized according to OIE disease classification
- Research can be achieved using
 - Keywords
 - Producer or brand name
 - Disease
 - Target species
- Manufacturer's product page can be reached from each product line
- Results can be exported to XL

The screenshot shows the website interface for 'LIST OF ANIMAL HEALTH DIAGNOSTICS'. A search bar is visible with filters for 'keyword', 'Producer' (set to 'IBR'), and 'Target species'. Below the search bar are 'SEARCH', 'Cancel', and 'EXTRACT' buttons. The main table displays a list of diagnostic products with columns for Disease, Target species, Producer, Test principle, Name of the product, Packaging, DIVA, Pathogenic, and Product reference.

An Excel spreadsheet window titled 'extract (3).xlsx - Excel' is overlaid on the table, showing the data for the selected search criteria. The spreadsheet has columns for ID, Date, Disease, Target species, Producer, Test principle, Name of the product, Packaging, DIVA, Link, Pathogenic, and Product reference.

ID	Date	Disease	Target species	Producer	Test principle	Name of the product	Packaging	DIVA	Link	Pathogenic	Product reference
1	2568	2017-11-16	Strips for dett porcines	10	Lateral Flow	Rainbow Pigli 5 tests	n	n		n	Rota, E. coli F BIO K 372
2	2562	2017-11-16	Strips for dett porcines	10	Lateral Flow	Rainbow Pigli 5 tests	n	n		n	Rota, E. coli F BIO K 365
3	2556	2017-11-16	Strips for dett porcines	10	Lateral Flow	Rainbow Pigli 5 tests	n	n		n	Rota, E. coli F BIO K 357
4	2555	2017-11-16	Strips for dett porcines	10	Lateral Flow	Rainbow Pigli 5 tests	n	n		n	Rota, E. coli F BIO K 356
5	2552	2017-11-16	Strips for dett porcines	10	Lateral Flow	Rainbow Pigli 5 tests	n	n		n	Rota, E. coli F BIO K 353
6	2551	2017-11-16	Strips for dett porcines	10	Lateral Flow	Rainbow Pigli 5 tests	n	n		n	Rota, E. coli F BIO K 352

Below the spreadsheet, a portion of the website table is visible, showing the following data:

Disease	Target species	Producer	Test principle	Name of the product	Packaging	DIVA	Pathogenic	Product reference
Bovine herpesvirus type 1 - IBR	Cattle diseases and infections	THERMO FISHER SCIENTIFIC		PrioCHECK BHV-1 -GB	450	x	BHV1 - IBR	7610359
anti-BoHV-1 (IBR) (mo ab) (unconjugated)	bovines	BIO X DIAGNOSTICS	IIF	MoAb BoHV-1 / IBR	0,5 ml	x	anti-BoHV-1 (IBR) (mo ab) (unconjugated)	BIO 289
IBR - IPV	bovines	BIO X DIAGNOSTICS	DIF	FITC-MoAb BoHV-1	0,5 ml	x	IBR - IPV	BIO 026

- **How is the list of Animal Health Diagnostics updated ?**
 - Each Member can, via his extranet access, update his diagnostics information in real time, every day if needed.
- **Who is this data base for?**
 - Any Veterinarian in clinics, laboratories, research institutes or National Authorities looking for quality products addressing their needs
 - Any investigator mapping the gaps and availability of diagnostics tools (*)
- **Is the Data Base open to any manufacturer?**
 - Only Members of D4A can feed the Data Base; this guarantees products manufactured following a strict and recognized high level Quality Management System
