

**Analysis of major deficiencies detected during the non-discriminatory inspections and action plan to address them  
as provided for in Article 27(2) of Regulation (EC) No 1/2005**

**Member State** Netherlands  
**Year** 2017

**1. ANALYSIS OF THE MAJOR DEFICIENCIES DETECTED DURING THE NON-DISCRIMINATORY INSPECTIONS**

*For the purpose of this annual report, the following have been considered to be major deficiencies:*

1. Fitness for transport: lame /injured/ sick animals;
2. Fitness for transport: >90% of gestation (cattle)
3. Catching injuries poultry
4. Not respecting transport and resting times
5. Not returning of journey logs to the competent authority of departure

**2. ACTION PLAN TO ADDRESS THE DEFICIENCIES DESCRIBED UNDER POINT 1.**

Point 1

Intensified and uniform checks on fitness for transport with extra attention to end of production animals.

Point 2

In addition to checks at the slaughterhouses for cattle, also administrative checks are performed, using the I&R system.

Point 3

After successful action weeks in the Summer of 2017, which lead to a remarkable decrease of catching injuries, inspections and enforcement will continue

All points:

A new "specific intervention policy" regarding Regulation 1/2005 will be published in 2018. The imposed measures in case of non-compliance will be more stringent: less warnings and more fines
