Notification systems for plant health

Health and Food Audits and Analysis: Plants and organics

*Health and
Food Safety*

EU Plant Health Systems

- Legal Basis
- DG priority to enhance crisis capacity in plant health, drawing from experience in animal health and food
- A big effort is needed here to achieve tangible added value by the end of this Commission's term (DG wants a "Qualitative change" in how we address plant health)

EUROPHYT-Outbreak notification from FRANCE: *Pseudomonas syringae* pv. *actinidiae* - Message (HTML)

From: EUROPHYT-Outbreaks-DEV <saante-outbreak-europhyt-dev@ec.europa.eu> Sent: Tue 04/10/2016 12:43
To: MATHES-Pascal (SANTE)
Subject: EUROPHYT-Outbreak notification from FRANCE: *Pseudomonas syringae* pv. *actinidiae*

Message: EUROPHYT Outbreak No. 102.pdf (215 KB)

First Finding (suspected) of *Pseudomonas syringae* pv. *actinidiae* in FRANCE (La Bastide-de-Sérrou)

<i>PRESENCE REPORTED AND PEST STATUS IN THE MS</i>	
Scientific name of the harmful organism	<i>Pseudomonas syringae</i> pv. <i>actinidiae</i>
Date of the finding	2016-10-02
Pest Status in the MS after official confirmation	

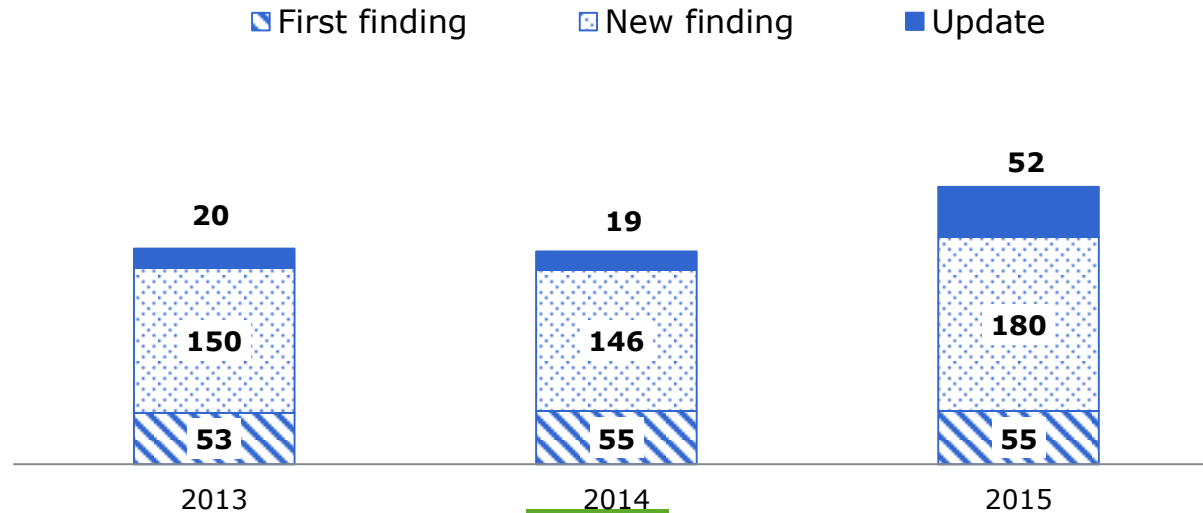

<i>CHARACTERISTICS OF THE INFESTATION</i>	
Element concerned by the infestation	Plant for planting
Scientific name of the host plant	<i>Actinidia chinensis</i>

<i>MEASURES TAKEN</i>
Objective of the official phytosanitary measures

<i>EXECUTIVE SUMMARY</i>
Summary of information provided in this update
Short summary of information of the information submitted in points 3-7
this is a test (Test 5)

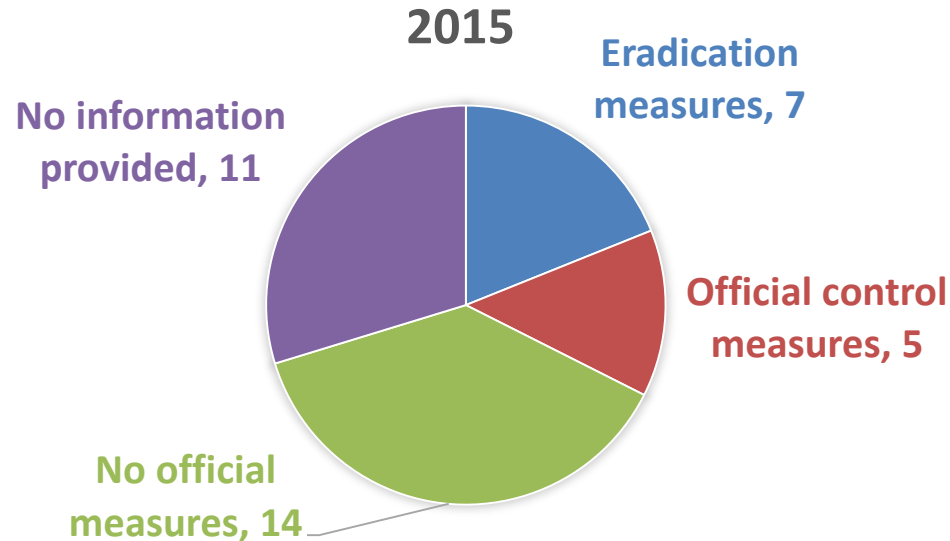

EUROPHYT-*Outbreaks*

Data overview/examples: Number of notifications per year

EUROPHYT-*Outbreaks*

Data overview/examples: Phytosanitary measures notified

Advantages

- *Rapid notification*
- *Uniform notification*
- *Onwards transmission to EPPO*
- *Updated notifications*

3. Plant Health Surveys

Plant Health Surveys

EUROPHYT-Surveys

- *First version of the module for co-financed surveys in the Member States has been launched in 2nd quarter 2016 with limited technical reporting and capabilities*
- *Future version to include module for the reporting of obligatory annual surveillance in MS (at present for 12 pests) to the European Commission*

EUROPHYT-Surveys

- *Now preparation of specifications (data dictionaries) for the technical reporting module fr*
- *Phase development of the module, starting in 4th quarter 2016 with some pests (potato bacterial diseases, Pinewood nematode, Xylella fastidiosa)*
- *Involvement of MS in the development of the system*

EUROPHYT-Surveys

- *Avoid duplication of work for MS and the Commission services*
- *Harmonisation of reporting, improvement of quality and consistency of data*
- *Preparation of annual reports and summaries presented to MS*
- *Preparation of specific reports, statistics and overview reports (to be discussed with the users)*

EUROPHYT conclusions

- *Continuous development*
- *More integration of systems:*
 - *Rationalisation of work*
 - *Increased possibilities for data analysis*
 - *Not always easy*
 - *Individual modules less flexible for changes*

European
Commission
