

Work Programme 2013 for the EURL for Feed Additives (under Regulation 882/2004)

Organisation of the second proficiency testing exercise for the determination of authorised coccidiostats in poultry compound feed at carry over levels (Directive 2002/32/EC on undesirable substances in animal feed).

The activity includes the preparation of the technical report on the mentioned exercise and the organisation of a workshop with participants.

This will be the second exercise organized by the EURL for Feed Additives specifically under Regulation (EC) No. 882/2004 on official controls and supported by the Commission Financial Decision.
