European Commission

HaDEA —
The European Health
and Digital Executive Agency

New procedure for submitting applications for EU co-financed veterinary programmes : eGRANTs

PAFF Committee – AHW section – 07 April 2022

Health
and Digital
Executive
Agency

What is eGRANTS ?

- E-GRANTS is the Commission's corporate IT tool to manage the grants for all EU beneficiaries

- Compulsory use for all EU programmes

- It covers the entire life cycle of the grant

- It will replace DG SANTE IT tool ERADFUNDS which is phasing-out

Principles

➢ Single gateway for all exchanges: **Funding & Tenders Opportunities Portal**

 https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/home

➢ *Deep integration* of corporate IT tools and services

➢ *Electronic-only* paperless process flows

  ➢ Electronic signature on all official documents replacing blue ink signatures

➢ *Full traceability and audit trail ensured* *(who-what-when)*

When will we use eGRANTS ?

As from April 2022 for the Food strand of the SMP (onboarding process is ongoing)

For the Grants for 2023 veterinary programmes : as from 2022

> invitation to submit proposals is planned for 28 April 2022 (submission of proposals by the Member States before 31/05/2022)

DG SANTE IT Tool ERADFUND will be phased out by end of 2022 (but will still be used for the submission of final reports of the 2021-2022 veterinary grants)

Transition to e-GRANTS

Transition period in 2022 :

- Last year of use of ERADFUND for the submission of the 2023 veterinary programmes and start of use of e-GRANTS
- The veterinary programmes will be submitted in ERADFUND, and the submitted pdfs will have to be uploaded in e-GRANTS by 31/05/2022

As of 2023, only e-GRANTS will be used. New templates for submission will be provided in due time for next year's submissions.

Training on e-GRANTS

An INFO SESSION/TRAINING on eGRANT will be scheduled for all Member States on 3 May from 14:00 to 17:00 via Webex, to explain how to use e-GRANTS for the submission of the 2023 EU cofinanced programmes.

Please fill in the participants template available on CIRCABC and send it back to HADEA-VET-PROG@ec.europa.eu in view of organising this training
