

FrieslandCampina contribution to the EU Code of Conduct for Responsible Business & Marketing Practices

20 July 2021

LETTER OF INTENT

At FrieslandCampina we believe we need to work together to realise measurable positive sustainable impact, therefore endorse EU Code of Conduct for Responsible Business & Marketing Practices.

This letter will offer a glance on our sustainability priorities and approach so we can actively work together on common goals.

FrieslandCampina's sustainability vision is to have a positive impact on farmers, society and planet. Given that we are a nutrition company, owned by a cooperative of dairy farmers, we do this by nourishing the growing world population with better & affordable nutrition, producing in balance with nature and realising a better living for farmers. That's why our sustainability programme for this decade of action is: Nourishing a better planet.

The "Nourishing a better planet" programme has commitments around six priorities:
