Eradication: Final report for Avian Influenza 2019

For each approved annual or multi-annual programme Member States shall submit to the Commission by the 30 April each year an annual detailed technical and financial report covering the previous year. That report shall include the results achieved and a detailed account of eligible costs incurred (Art 14 of Regulation (EU) No 652/2014).

This form is for information only, no submission possible.

ID: 20200320-96LHQS4K

Country code: HU

Reporting period

From: 2019

To: 2019

Year of implementation: 2019

1. Technical implementation of the programme

1.1 Description and evaluation of the evolution of the epidemiological situation, the technical implementation of the activities foreseen under the programme and the cost-effectiveness of the programme.

There were no AI outbreaks in 2019. Active surveillance in poultry and passive surveillance in wild birds have been going on in Hungary for AI since year 2005. The implementation of AI surveillance programme is in accordance with 2010/367/EU Commission Decision. 21.020 total HAG tests were done on domestic poultry in the framework of sero-surveillance. 345 PCR test was done on wildbird samples in the framework of passive surveillance, none of them was positive for HPAI or LPAI. The program resulted 10.855 total sampling and 21.365 total testing.

1.2 Details on the level of achievement of the targets set in the approved programme and technical difficulties.

The targets set in the approved programme have not been achieved completely in case of sampling. Due to different reasons in some holdings slightly more, in some cases less samples were taken than the prescribed number. In some cases holdings designated to be sampled ceased its activities.

1.3 Epidemiological maps for infection and other relevant data on the disease/activities (information on serotypes involved,...) (Please attach files of data using the PDF attachment feature) Use the textbox below to provide clarifications for the maps you attach, if needed.

Not relevant

2. TECHNICAL IMPLEMENTATION OF THE PROGRAMME ON AVIAN INFLUENZA

VERY IMPORTANT: Please fill out the following tables with figures corresponding to measures performed during the implementing period (1/1 to 31/12).

In the column "Total number of samples taken", please put 0 if the same samples have already been counted for another laboratory analysis (example : for HI-H5 and HI-H7 test, only 1 sample should be counted).

Table A - POULTRY HOLDINGS SAMPLED : SEROLOGICAL INVESTIGATION ACCORDING TO ANNEX I TO COMMISSION DECISION 2010/367/EU

Poultry category	NUTS2 Code	Total number of holdings	Total number of holdings sampled	Number of samples per holding	Total number of samples taken	Methods of laboratory analysis	Total number of tests performed per method
Laying hens	HU10	34	7	10	70	HI test for H5	70
