

CHAPTER 1.2.  
**LISTED DISEASES**

**EU position**

**The EU supports the adoption of the modified chapter.**

Article 1.2.1.

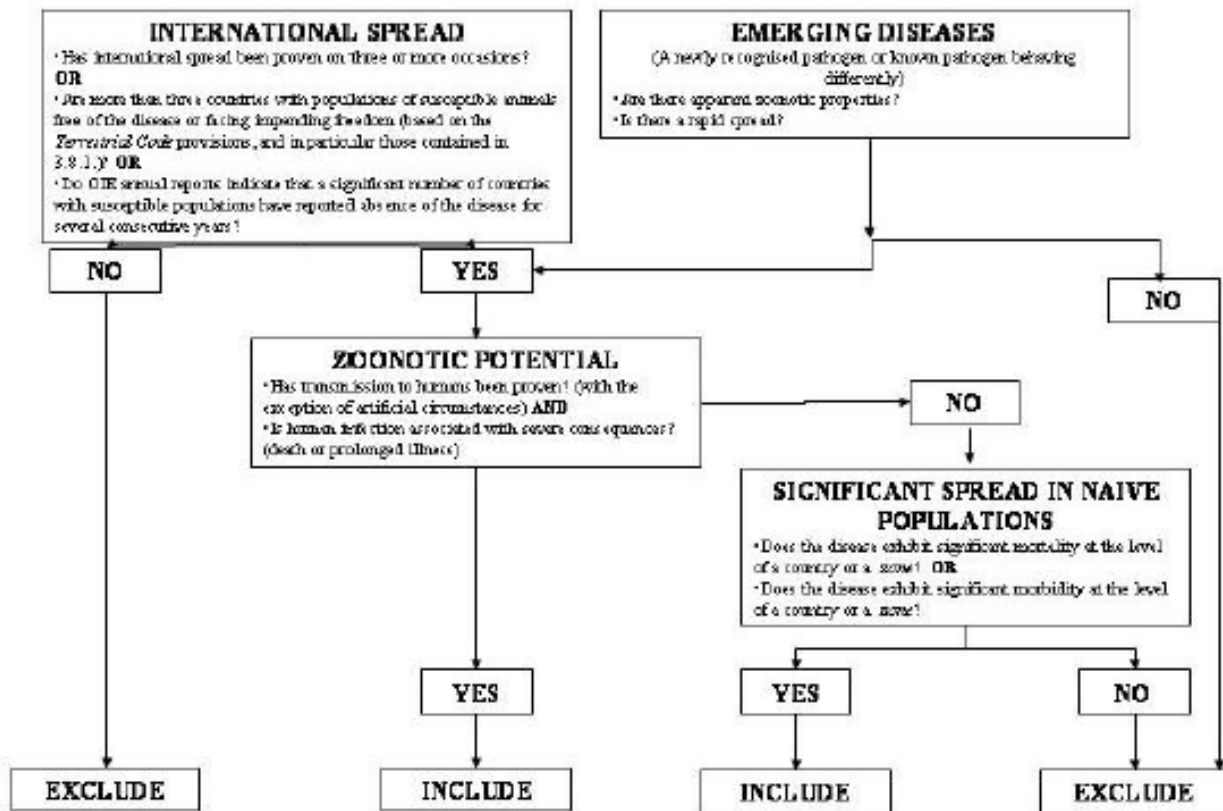

The criteria for the inclusion of a *disease* in the OIE List are as follows:

Basic criteria	Parameters (at least one 'yes' answer means that the criterion has been met)
<b>International Spread</b>	Has international spread been proven on three or more occasions? <b>OR</b> Are more than three countries with populations of susceptible animals free of the <i>disease</i> or facing impending freedom (based on the relevant provisions of the <i>Terrestrial Code</i> , and in particular those contained in Chapter 1.4.)? <b>OR</b> Do OIE annual reports indicate that a significant number of countries with susceptible populations have reported absence of the <i>disease</i> for several consecutive years?
<b>Zoonotic Potential</b>	Has transmission to humans been proven? (with the exception of artificial circumstances) <b>AND</b> Is human infection associated with severe consequences? (death or prolonged illness)
<b>Significant Spread within Naïve Populations</b>	Does the <i>disease</i> exhibit significant mortality at the level of a country or a <i>zone</i> ? <b>OR</b> Does the <i>disease</i> exhibit significant morbidity at the level of a country or a <i>zone</i> ?
<b>Emerging Diseases</b>	Are there apparent zoonotic properties or is there a rapid spread?

## Annex V (contd)

## Article 1.2.2.

The criteria in Article 1.2.1. above are applied according to the decision-making model shown below:

## Article 1.2.3.

The following *diseases* are included in the OIE List.

In case of modifications of this list of animal *diseases* adopted by the General Assembly, the new list comes into force on 1 January of the following year.

1. The following *diseases* are included within the category of multiple species *diseases*:

- Anthrax
- Aujeszky's disease
- Bluetongue
- Brucellosis (*Brucella abortus*)
- Brucellosis (*Brucella melitensis*)
- Brucellosis (*Brucella suis*)
- Crimean Congo haemorrhagic fever
- Echinococcosis/hydatidosis

Annex V (contd)

- Epizootic haemorrhagic disease
  - Equine encephalomyelitis (Eastern)
  - Foot and mouth disease
  - Heartwater
  - Japanese encephalitis
  - Leptospirosis
  - New world screwworm (*Cochliomyia hominivorax*)
  - Old world screwworm (*Chrysomya bezziana*)
  - Paratuberculosis
  - Q fever
  - Rabies
  - Rift Valley fever
  - Rinderpest
  - Surra (*Trypanosoma evansi*)
  - Trichinellosis
  - Tularemia
  - Vesicular stomatitis
  - West Nile fever.
2. The following *diseases* are included within the category of cattle *diseases*:
- Bovine anaplasmosis
  - Bovine babesiosis
  - Bovine genital campylobacteriosis
  - Bovine spongiform encephalopathy
  - Bovine tuberculosis
  - Bovine viral diarrhoea
  - Contagious bovine pleuropneumonia
  - Enzootic bovine leukosis
  - Haemorrhagic septicaemia
  - Infectious bovine rhinotracheitis/infectious pustular vulvovaginitis
  - Lumpy skin disease

Annex V (contd)

- Theileriosis
  - Trichomonosis
  - Trypanosomosis (tsetse-transmitted).
3. The following *diseases* are included within the category of sheep and goat *diseases*:
- Caprine arthritis/encephalitis
  - Contagious agalactia
  - Contagious caprine pleuropneumonia
  - Enzootic abortion of ewes (ovine chlamydiosis)
  - Maedi–visna
  - Nairobi sheep disease
  - Ovine epididymitis (*Brucella ovis*)
  - Peste des petits ruminants
  - Salmonellosis (*S. abortusovis*)
  - Scrapie
  - Sheep pox and goat pox.
4. The following *diseases* are included within the category of equine *diseases*:
- African horse sickness
  - Contagious equine metritis
  - Dourine
  - Equine encephalomyelitis (Western)
  - Equine infectious anaemia
  - Equine influenza
  - Equine piroplasmosis
  - Equine rhinopneumonitis
  - Equine viral arteritis
  - Glanders
  - Venezuelan equine encephalomyelitis.

Annex V (contd)

5. The following *diseases* are included within the category of swine *diseases*:
  - African swine fever
  - Classical swine fever
  - Nipah virus encephalitis
  - Porcine cysticercosis
  - Porcine reproductive and respiratory syndrome
  - Swine vesicular disease
  - Transmissible gastroenteritis.
  
6. The following *diseases* are included within the category of avian *diseases*:
  - Avian chlamydiosis
  - Avian infectious bronchitis
  - Avian infectious laryngotracheitis
  - Avian mycoplasmosis (*Mycoplasma gallisepticum*)
  - Avian mycoplasmosis (*Mycoplasma synoviae*)
  - Duck virus hepatitis
  - Fowl cholera
  - Fowl typhoid
  - Highly pathogenic avian influenza in birds and low pathogenicity notifiable avian influenza in poultry as defined in Chapter 9.5.
  - Infectious bursal disease (Gumboro disease)
  - Marek's disease
  - Newcastle disease
  - Pullorum disease
  - Turkey rhinotracheitis.
  
7. The following *diseases* are included within the category of lagomorph *diseases*:
  - Myxomatosis
  - Rabbit haemorrhagic disease.

Annex V (contd)

8. The following *diseases* are included within the category of bee *diseases*:

- Acarapisosis of honey bees
- American foulbrood of honey bees
- European foulbrood of honey bees
- Small hive beetle infestation (*Aethina tumida*)
- *Tropilaelaps* infestation of honey bees
- Varroosis of honey bees.

9. The following *diseases* are included within the category of other *diseases*:

- Camel pox
  - Leishmaniosis.
-
