

# Better Training for Safer Food: New legislation on Animal Health

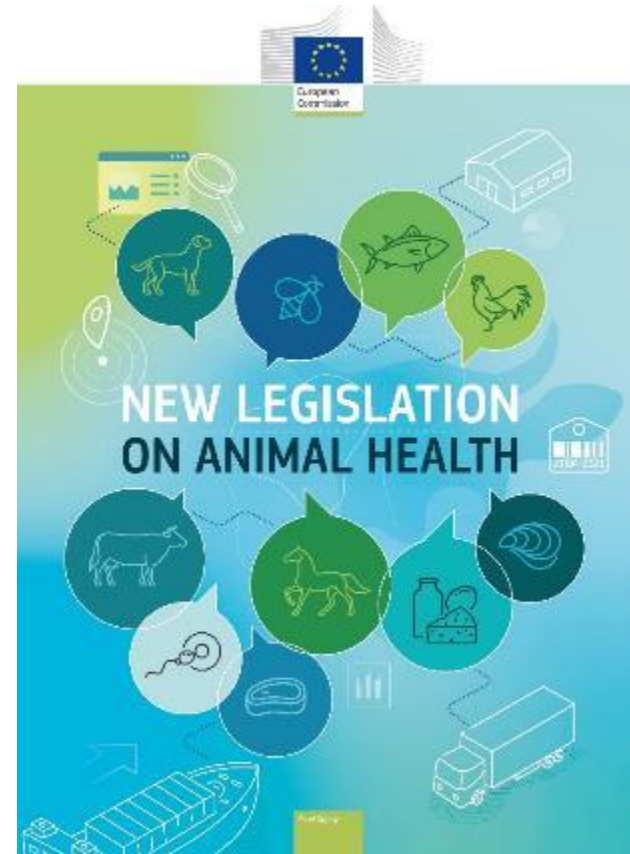

**Seminar 5**  
**22-24 June 2021**

*DG SANTE*

*Unit G2- Animal Health*

# Objective of this BTSF training

- The objective is to introduce and explain
  - Animal Health Law (AHL),
  - its background, development and history
  - its interaction with the official controls regulation (OCR)
  - main supplementing legislation (Delegated and Implementing acts)
  - explain how they work together
- No / few technical details (due to the volume of the substance covered)
  - More specific and practical BTSF trainings will follow

# Format of this training and participants

- A non-specific (extraordinary) BTSF training
  - In a form of Seminars & Conference
  - Virtual – online training
  - Tutors mainly from the Commission, and few colleagues from Member States
  - No “classical” workshops
- Raising the awareness of the new AHL package for
  - EU&EEA officials
  - Western Balkan countries
