

| <i>Non-conformities found out during the controls carried out in order to check the way of observing animals' protection and welfare during transport</i> | <i>Action plan</i> |
|--|--|
| The transport of live animals in sanitarly veterinarily unauthorized/unregistered transport means | In conformity with the provisions of Ord. 16/2010 with further modifications and completions, the transporters and the transport meanss intended for the transport of live animals shall be authorized/registered only after the whole authorization procedure provided in this order shall be observed. |
| The functioning of sanitarly veterinarily unregistered fairs | |
| The transport of animals without the accompanying sanitary veterinary documents provided by the legislation in force, which should attest the property and the health status of animals | For this purpose, all transport means shall be authorized/registered only after all requirements provided by the national and Community legislation shall be fulfilled. |
| The list of unloading ramp of animals in the fairs of animals | There shall be enforced all trainings with the official veterinarians involved in the assessment and authorization/registration of transporters, transport means and animals' identification. |
| The failure to notify to the nearest sanitary veterinary establishment or to the local council on the cases of diseases or dead animals occured during their transport | |
| The failure of identifying the transport means with the syntagma 'transport of live animals'. | There shall be enforced all controls carried out together with the other competent authorities, based on the concluded collaboration protocols, so that the sanctions applied be efficient. |
| The transport of unidentified animals; | |
| The use of transport means unappropriately equipped (lack of weatherproof means) | |
| the failure to observe the density of transport | |
| The lack of documents that should attest the carrying out of cleaning and disinfection of transport means | |
| The existence and control of documents of some non-compliances between the actual situation and the evidences from the sanitary veterinary transport certificates regarding the identification of transport means, the individualizing and the number of transported animals | |
