

## Cotton COT102

---

---

**Organisation: The European GMO-free Citizens (De Gentechvrije Burgers)**

**Country: The Netherlands**

**Type: Others...**

---

### Comments:

6-7-23. We – the European GMO-Free Citizens and the Ekopark Foundation in Lelystad (the Netherlands) – do not wish to eat this genetically modified cotton as oil and other ingredients. And we don't want that our clothing is made of this GM cotton. We want to eat unsprayed food that has not been genetically manipulated. This is also better for the environment and for our health and that of animals.

Nor do we want genetically modified cotton as animal feed. If you were to approve it (which we would regret), we would want every product and every end product (also clothing) to be labelled as a GMO, even if GMOs can no longer be detected in an end product.

See all our comments on GM cotton of an earlier date.
