AGENDA

Section B Draft(s) presented for an opinion

B.01 Exchange of views and possible technical agreement of the Committee on a draft Commission Implementing Regulation establishing the list of animals and products subject to official controls at border control posts, including their codes from the Common Nomenclature.

As the new import requirements for composite products only will become applicable on 21 April 2021, the current list of such products in Commission Decision 2007/275/EC shall continue to apply until then. Hence, the list established in this draft Regulation does not cover composite products. The draft Regulation will be presented for a technical vote.
