01.01.2020 - 30.06.2020	16167	682	1159	20103	1625

## INFORMATION ABOUT THE USE OF PROVISIONS FORESEEN IN ART. 11.2(C) OF DIRECTIVE 2002/60/EC

Beginning with May, in the North-Est part of Romania, Bacău county, 5 ASF outbreaks were confirmed, leading to movement restrictions on a pig breeding farm. The same operator also has a fattening farm located at 3 km distance from the breeding farm, in the same restriction area.

Due to movement restrictions, the animal welfare is already in danger: high density, high temperatures, behavioral disorders like otophagy, caudophagy, etc and operation procedures performed in order to lift the restrictions can not be started sooner than 14.07.2020 and only with the condition that the epidemiological situation remains stable.

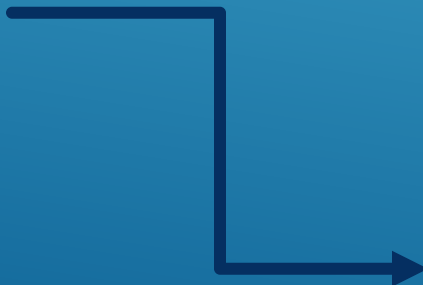

Motivated by the welfare conditions, NVFSA would like to authorized the removal of pigs within protection/surveillance zones, as laid down in the Art. 11.2(c) of Directive 2002/60/EC, provided that all relevant conditions of the legislation in force are also met.

# ASF EPIDEMIOLOGICAL SITUATION IN BACAU COUNTY

Domestic pigs		Wild Boars		
No. of outbreaks	No. of affected pigs	No. of wild boar cases	No. of positive found dead wild boars	No. of positive hunted wild boars
