

**European Union comments on  
Codex Circular Letter CL 2017/3-MMP:  
Request for Comments: Analysis of responses to CL 2016/46-MMP on the  
Draft Standard for Dairy Permeate Powders (Step 6)**

*Mixed Competence  
Member States Vote*

The European Union and its Member States (EUMS) appreciate the efforts made by New Zealand to accommodate Members' concerns.

The EUMS welcome the exclusion of anticaking agents from the current proposal and are in a position to support the advancement to step 8 of the draft standard presented in Appendix II to CL 2017/3-MMP.
