

Eradication: Final report for African Swine Fever 2018

For each approved annual or multi-annual programme Member States shall submit to the Commission by the 30 April each year an annual detailed technical and financial report covering the previous year. That report shall include the results achieved and a detailed account of eligible costs incurred (Art 14 of Regulation (EU) No 652/2014).

This form is for information only, no submission possible.

ID: 20190429-2WWZMZI1

Country code: LT

Reporting period

From: 2018

To: 2018

Year of implementation: 2018

1. Technical implementation of the programme

1.1 Description and evaluation of the evolution of the epidemiological situation, the technical implementation of the activities foreseen under the programme and the cost-effectiveness of the programme.

In 2018 in Lithuania have been found 1446 places with 3098 ASF affected wild boars (444 were hunted and 2654 have been found dead). In domestic pigs 51 outbreaks have been found, were 22704 pigs have been destroyed.

1.2 Details on the level of achievement of the targets set in the approved programme and technical difficulties.

All targets set in the programme has been met. Due to a lot of cases in wild boars, the targeted number of selective hunt have not be reached.

1.3 Epidemiological maps for infection and other relevant data on the disease/activities (information on serotypes involved,...) (Please attach files of data using the PDF attachment feature) Use the textbox below to provide clarifications for the maps you attach, if needed.

No 1. Map with positive cases in wild boars during 2018.

No 2. Map with outbreaks in domestic pigs during 2018.

2. Tables for SWINE DISEASES PROGRAMMES monitoring outcome of the year

VERY IMPORTANT: Please fill out the following tables with figures corresponding to measures performed during the implementing period (1/1 to 31/12)

Table A - DISEASE SURVEILLANCE IN DOMESTIC PIGS

Region	Number of clinical examined holdings	Number of farms sampled	Type of farm	Number of animals sampled	Number of farms with serologically positive result	Number of farms with active infection detection	Number of outbreaks
Alytus	4	4	Commercial	121	0	0	0
Alytus	850	114	Backyard	286	0	7	7
Kaunas	131	61	Commercial	1,483	0	2	2
Kaunas	1,777	431	Backyard	1,079	0	5	5

COMMENT / ADDITIONAL CLARIFICATION

According to Grant Decision Number SANTE/VP/2018/LT/SI2.774137 it was confirmed, that "Transport vehicles for dead wild boar delivery" should be co-financing by the rate of 38 %.
