

EU Platform on Animal Welfare

Pig Sub-group

Third meeting 10 and 11 July 2019

Grange-SANTE F building

Grange, Dunsany, Co. Meath, Ireland

- AGENDA -

A discussion on the following points :

1. Measuring tail lesions at the slaughterhouse as an indicator of tail biting on farm.
2. The risk of tail biting related to pig health.
3. The risk related to competition and aggression.
4. The risk related to diet.
5. Sharing this information, recommendations and proposals for better uptake of practices which deliver pigs with intact tails.
6. Update on SANTE F2 project on “quality controls and indicators for animal welfare”
