Slaughter duck	1	11 949

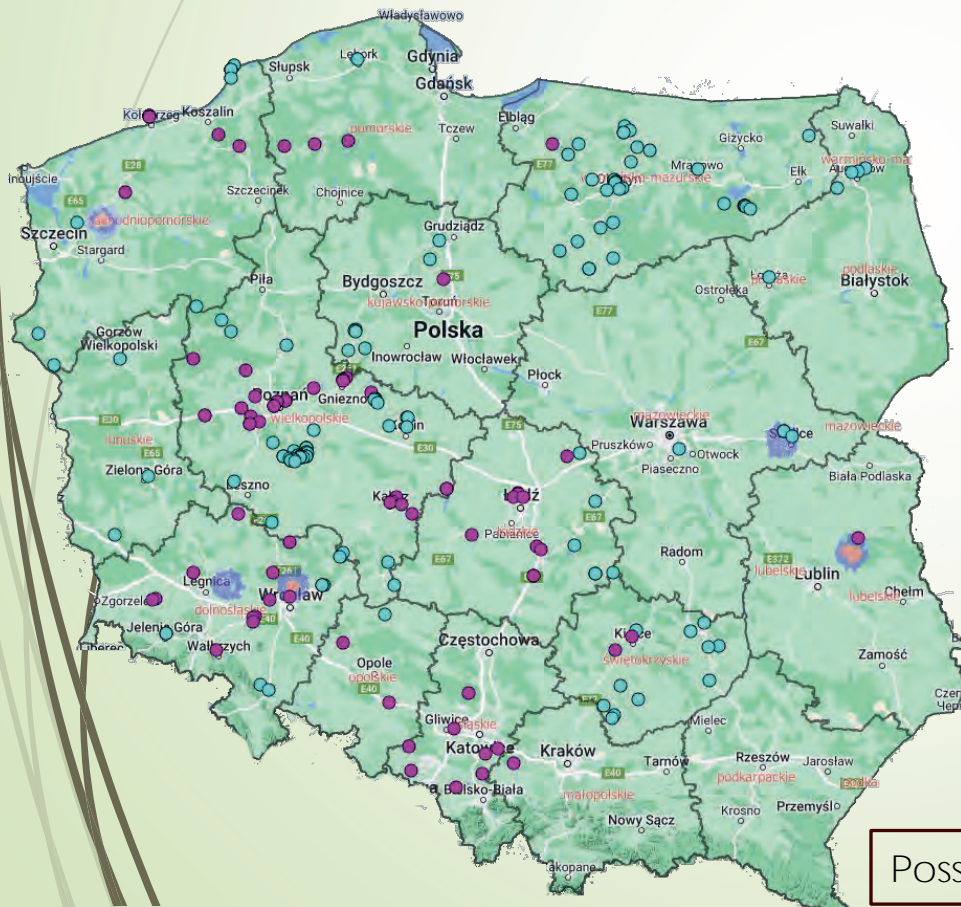

➤ last confirmed outbreak in wild birds - 17.01.2024

Monitoring in wild birds

Since July 2023 (to the end of 2023) - pilot program:
204 notifications - 142 outbreaks (2023)

In 2024 – mandatory reporting of dead wild birds obtained for laboratory tests - (up to 22/01/2024)
- 8 (4 outbreaks confirmed)

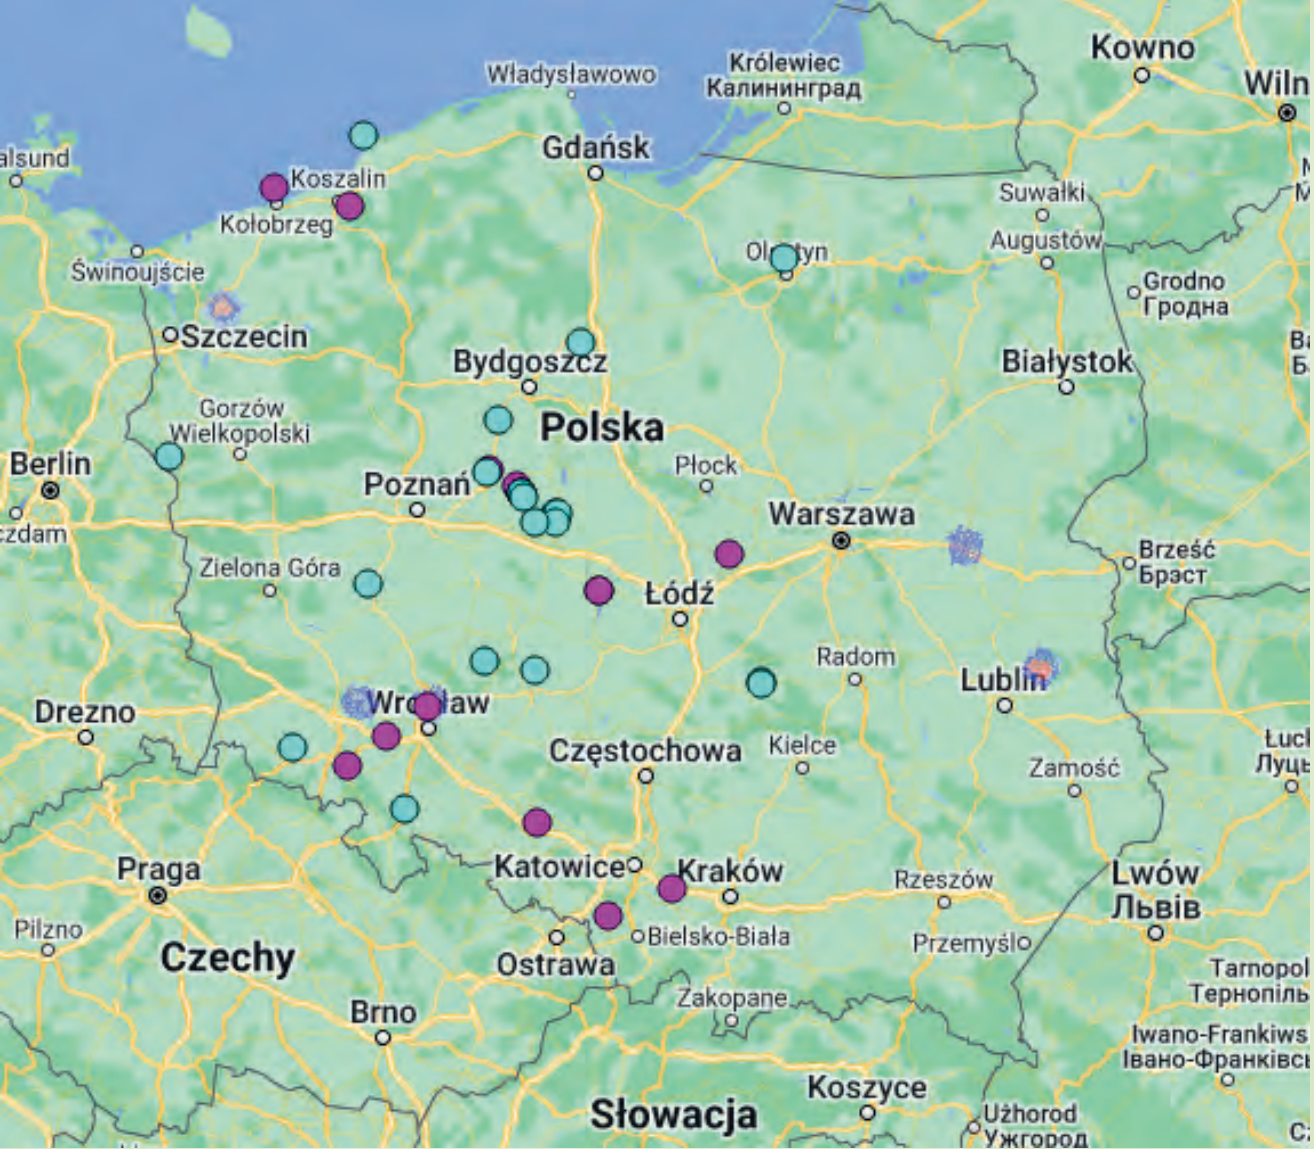

ZIMP

The color of the marker determines the status of the notification:
(approved/to approval)
by competent authority

Possibility of layering with zones for poultry outbreaks

Positive results in wild birds in 2023 and 2024 (ZIMP data)

Thank you
