# Information on the submission of the final reports for the 2024 veterinary programmes grants

- According to the conditions of the grant agreement, final reports and deliverables should be sent 2 months after the implementation period.
- However, as in previous years and considering that you may need to collect information from within your country (e.g. from the regions), HADEA will accept 30 April 2025 as the final deadline for submission of final reports.
- The reporting of the final report will take place through EGRANT (Funding and Tenders Portal) and you will be requested to submit 1 report per work package (disease).
- Please note that HADEA is currently working on templates and guidance in order to facilitate your work. Therefore, we propose you NOT to submit anything through the EGRANT portal concerning the reporting for the 2024 grants until you receive additional instructions in the coming weeks.
