Avian Influenza in The Netherlands

Paul Leijs DVM MBA

Brief summary of last presentation

9 November 2016

Legal measures by Ministry of Economic Affairs

- Mandatory to keep birds indoors for commercial kept poultry
- For back yard flocks (hobby) it is recommended to keep birds fenced

Due to:

- Finding of larger amounts (+/-25) dead wild birds with H5
- several outbreaks of H5N8 in member states

First outbreak

12 November 2016

Small zoo in Rotterdam
(urban area)

- No protection and surveillance zone

14 November 2016

Strengthened legal measures

15 November 2016

H5N8 in Back yard flock

- No protection and surveillance zone

On set HPAI in commercial farms

- Measures according 2005/94/EG and Diagnostic manual 2006/437
- Additional national measures
 - Hygiene protocols and additional measures for transport and entering premises
 - Transport of living birds only allowed after clinical examination
