ASF cases in Hungary in wild boar

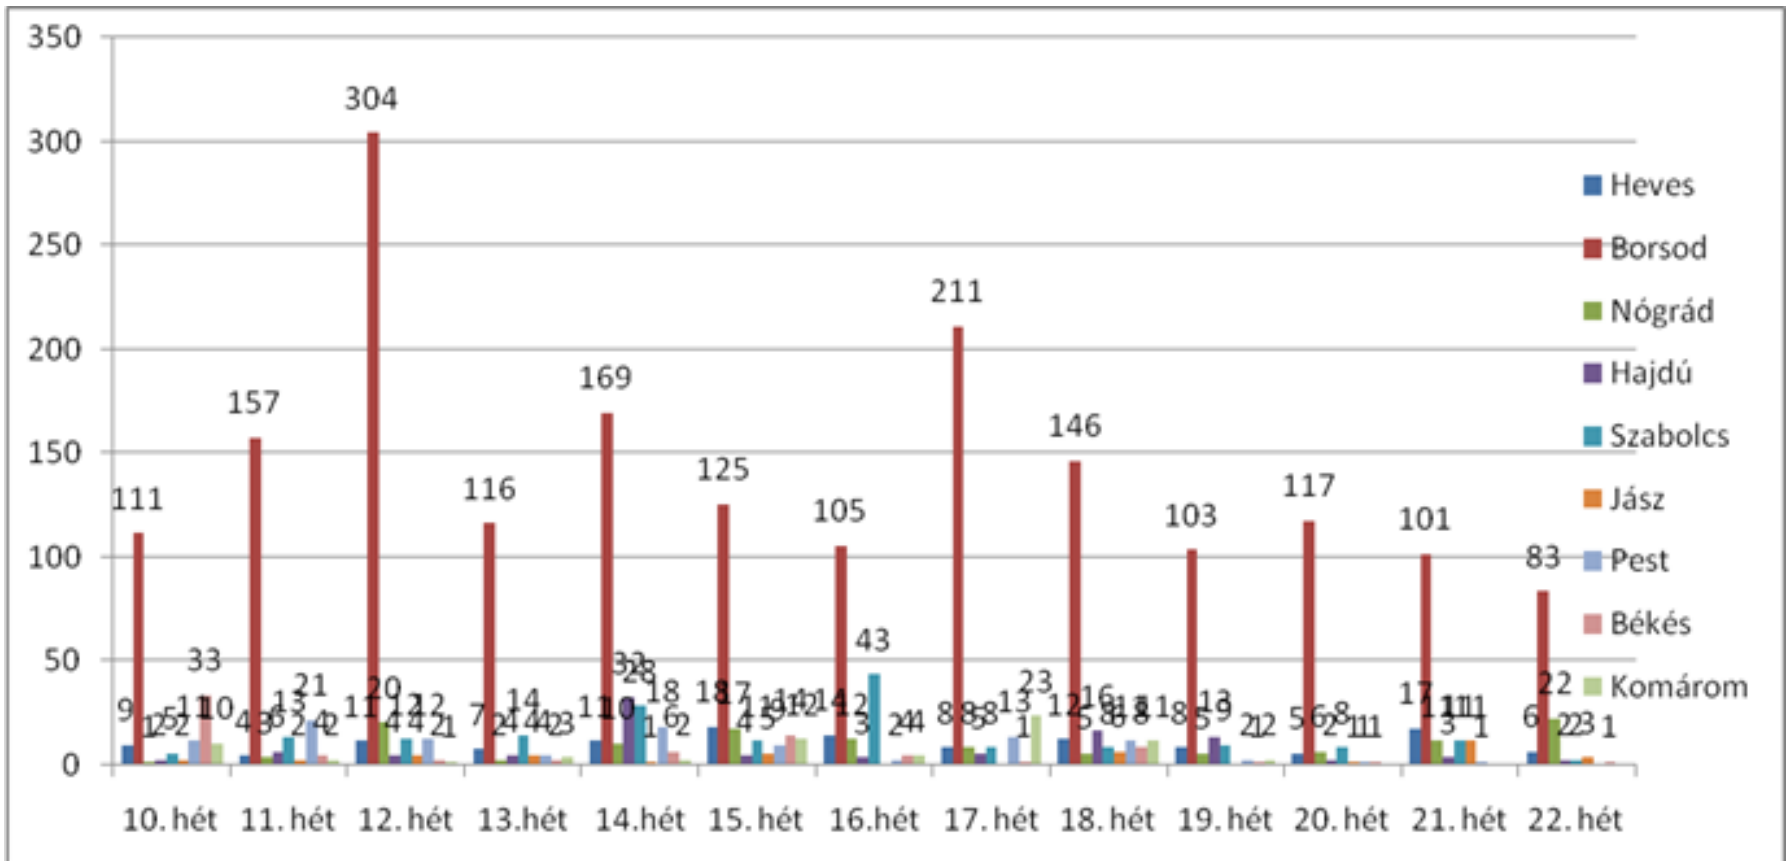

Ministry of Agriculture

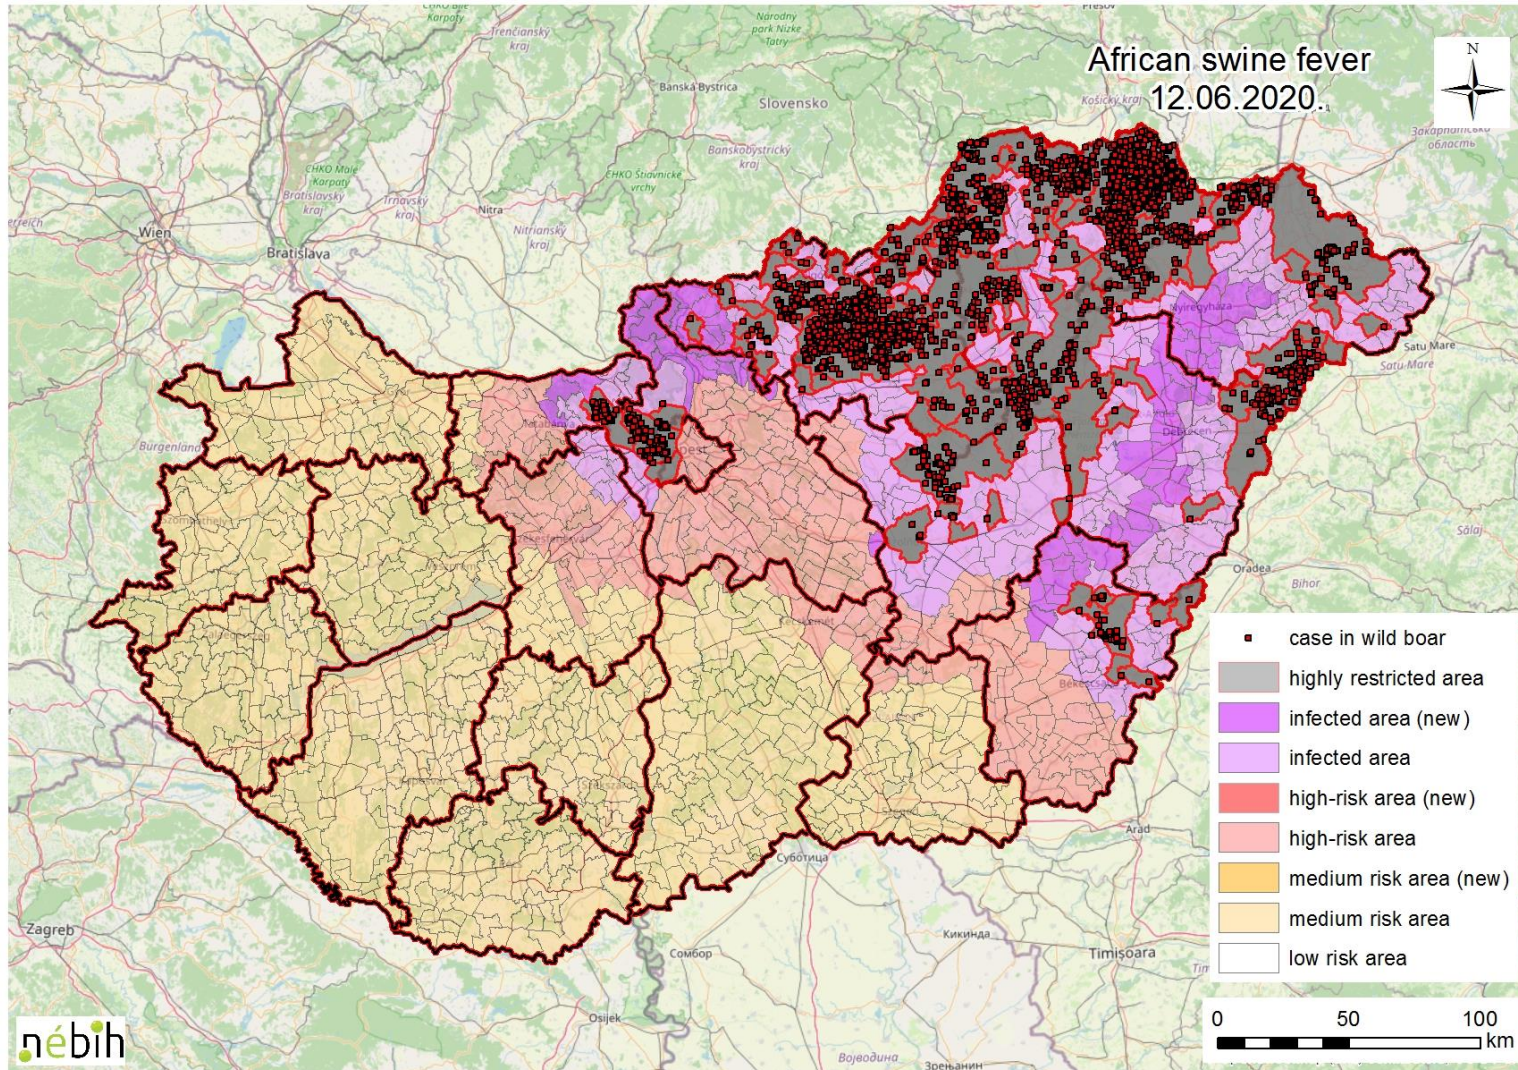

Overview of ASF cases in Hungary in wild boar

County (in order of infection)	Frequency (number)	Percentage (%)
Heves	1219	17,9
Szabolcs- Szatmár- Bereg	376	5,5
Borsod-Abaúj-Zemplén	4029	59,1
Nógrád	393	5,8
Hajdú-Bihar	181	2,7
Jász-Nagykun-Szolnok	163	2,4
Pest	260	3,8
Békés	119	1,7
Komárom	81	1,2
TOTAL	6821	100

cases

New GMUs added to Part II based on risk assesment

Modifications to the eradication plan

- GMUs in the infected zone with secondary cases automatically become part of the SRA (strictly restricted area)
- in the SRA only individual diagnostic shooting can be allowed
- in the SRA dogs can only be used at small game group huntings
- wild game farms have to be eliminated in the infected area within 6 months
- diagnostic shooting to be performed is 150% of hunting year 2019/2020 for all age groups
- if target is not met external help can be used for diagnostic shooting
- banned equipments (thermal camera, silencer) can be approved by the leader of the National Disease Control Centre for dedicated persons
- home slaughter is to be notified in the SRA and infected area
- grains not to be used for 90 days
- new definition for small scale non-commercial holdings

Surveillance of wild boars - 2019

County	Shot for decreasing population	Found dead	Roadkill	Shot due to clinical symptoms	Shot during hunting	NA	Total	Unsuitable for testing
