Application for lifting certain areas of Part III

Based on the Commission Delegated Regulation (EU) 2020/687 and according to Commission notice on the guidelines on the prevention, control, and eradication of African swine fever in the Union ('ASF guidelines') C/2023/1504:

- No further ASF outbreaks detected in kept porcine animal establishments in these territories since 17th August 2024
- The results of measures referred to in Articles 26 and 41 (visits by the official veterinarians and clinical and when necessary, laboratory examinations) of Delegated Regulation (EU) 2020/687 implemented.
- The scientific assessment carried out at EU or national level demonstrate no evidence of presence of *Ornithodoros* ticks in Latvia.
- Passive surveillance system for establishments of kept porcine animals is implemented;
- Active and passive surveillance for wild porcine animals are implemented.

ADIS Outbreak References	Date of outbreak confirmation	Date of preliminary cleaning and disinfection	Date of lifting protection and surveillance zones
LV-ASF-2024-00545	16/08/2024 Valkas county Ērgemes parish	17/08/2024	27/09/2024
LV-ASF-2024-00546	16/08/2024 Valkas county Ērgemes parish	17/08/2024	27/09/2024
