

# Results of ASF eradication programme in Estonia in 2016

# Surveillance results in domestic pigs

## Surveillance results in 2015 and 2016

	2015		2016	
	No of tested animals	No of ASF positive animals/herds	No of tested animals	No of ASF positive animals/herds
Domestic pig	6618	70/18	8728	31/6

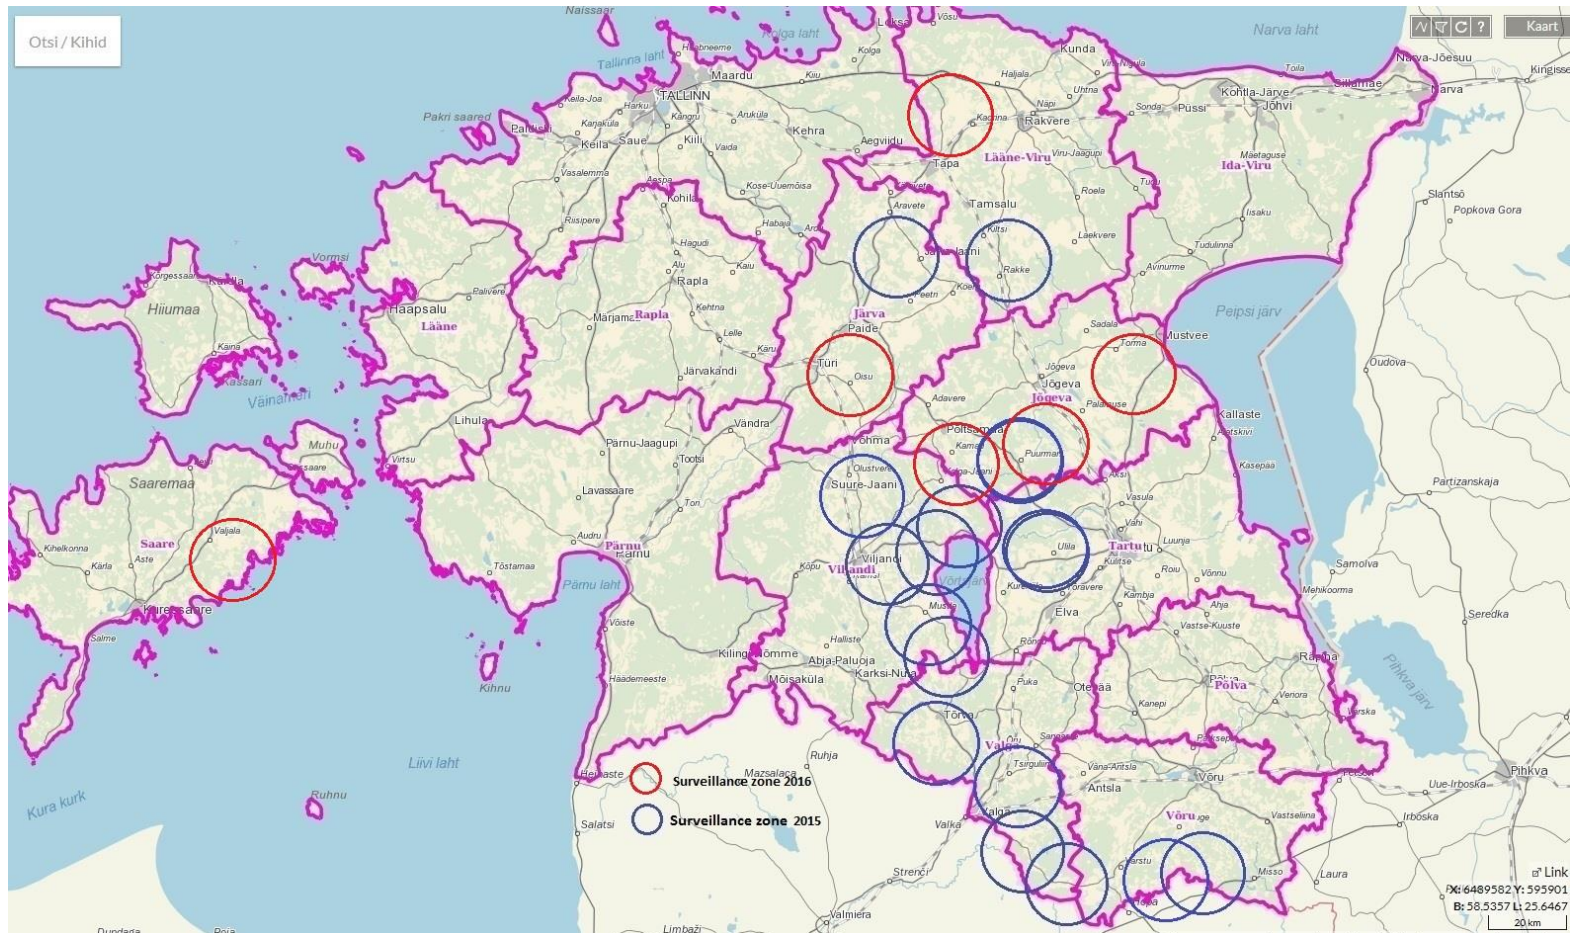

# ASF in domestic pigs (1)

## Outbreaks in 2016

No of outbreak	Location	Date of confirmation	Number of pigs
1	Puurmanni parish, Jõgeva county	01.07.2016	6
2	Põltsamaa parish, Jõgeva county	01.07.2016	7
3	Saarde parish, Jõgeva county	04.07.2016	3
4	Türi parish, Järvamaa	11.07.2016	5
5	Kadrina parish, Lääne-Viru county	20.07.2016	4091
6	Valjala parish, Saare county	24.08.3016	2700

# ASF in domestic pigs (2)

## Surveillance zones in 2015 and 2016

# ASF in wild boars (1)

## Surveillance results in wild boars

Laboratory testing 2014-2016

	2014		2015		2016	
	No of animals tested	No ASF positive/prev alence	No of animals tested	No ASF positive/Preva lence	No of animals tested	No ASF positive/Preval ence
Hunted wild boars	879	9 (1%)	8617	680 (8%)	14976	749 (5%)
Found dead wild boars	175	64 (37%)	928	408 (44%)	987	818 (83%)
Culled/car accident	2	0	17	7 (41%)	15	5 (33%)
<b>Total</b>	<b>1056</b>	<b>73 (7%)</b>	<b>9562</b>	<b>1095 (11,5%)</b>	<b>15978</b>	<b>1572 (10%)</b>

# ASF in wild boars (2)

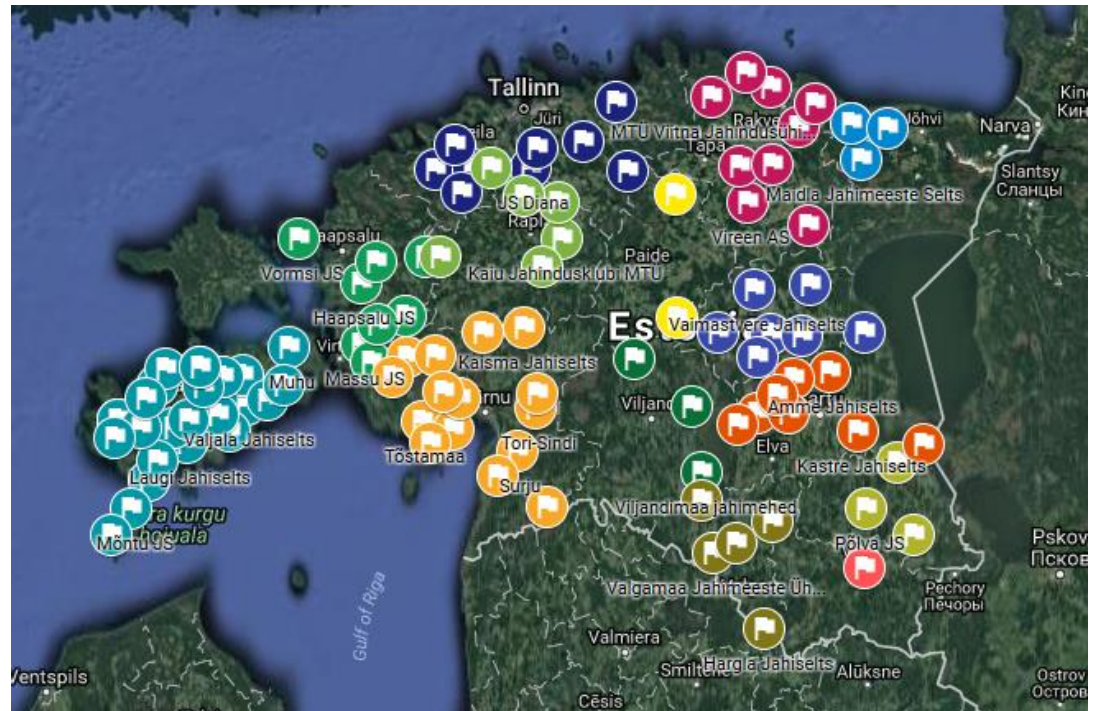

## Infected areas by the end of 2016

# Wild boar management

## Contracts with hunters

- In 2016 we had separate contracts (129) with hunting clubs for selective female hunting and carcass collection
  - Results: 4315 hunted sows and 1587 carcass removals (burials and container system)

# Challenges, cost of the programme

- Carcass delivery from island Saaremaa to rendering plant in main land
  - How? When? Public opinion of dead pigs on ferry?
- Media is being interested in outbreak management
  - Using security services
  - Marking of the restricted area around the farm
  - Drone photos
- Cost of the programme: 1,36 million EUR

Thank you!
