# ADIS Union Notification

# Delays in updates of outbreak data in ADIS

ADIS data from HPAI (in poultry **and captive birds**) from June 2021 till March 2022:

- Several outbreaks are still without a date for “Preliminary Cleaning and Disinfection”
- This is a legal obligation in ANNEX II of Reg 2020/2002 to enter date for “Completion Preliminary Cleaning and Disinfection” – only Cat A diseases
- Thank you to the MSs that already entered the C&D dates for HPAI outbreaks in poultry
- ADIS Patch released

# ADIS Union Reporting

- 25 reports received for 2021
- Currently presented only in ADIS
- 5 MS have not yet submitted the 2021 report – draft created

# ADIS Updates, Bugs and upcoming Patch

## 2 - ADIS optimisation (speed-up of submission)

- In the ADIS submit outbreak (or update) procedure, delays can be caused by the dispatch of emails
- In normal conditions this should not be an issue (as the new outbreaks per day are usually limited)
- This can become burdensome when many outbreaks need to be processed in short time
- **ADIS development team deployed a patch in July 2022 to speed up the process → issue solved**

# ADIS next major release

- Foreseen by in November **2022** → follow ADIS welcome page for updates
- ADIS will be able to monitor performance indicators (e.g. speed on submission)
- C&D date will only appear for Cat A diseases
- Improvement of email layout (e.g. modification of outbreaks more clear)
- Other bug fixes will be addressed as well

# ADIS – WAHIS link

# ADIS – WAHIS link

- Current priorities:
  - Adapting to new WAHIS API
  - WAHIS – ADIS SOP
  - Bug fixing on regressions
  - Development of further reasons of notification (emerging diseases, unexpected increase, new strain, unusual host)
- WOAH and SANTE will organise an ADIS “**training and feedback session**” online on 13-14 December 2022 (date TBC)
