Critical points to be considered:

- ✓ Temporary suspension of all INTRA-Eu movements and exports of consignments of sheep and goats, for any purpose, from the entire territory of Greece to the other EU Member States and TC
- ✓ Political support at central and local level, working meetings in each region and regional unit
- ✓ Measures stricter than those provided by EU Regulation 687/2020
- ✓ Massive mobilization of veterinarians (150 vets from public sector, army, private veterinarians, universities)
- ✓ Active involvement of Civil Protection and Police
- ✓ EUVET mission (23-25.07.2024) provide valuable technical assistance

Special thanks to:

- ✓ The *Commission* for the continuous help and support
- ✓ The *EU-Vet team* for their valuable technical advice and support
