# Surveillance results in wild boars

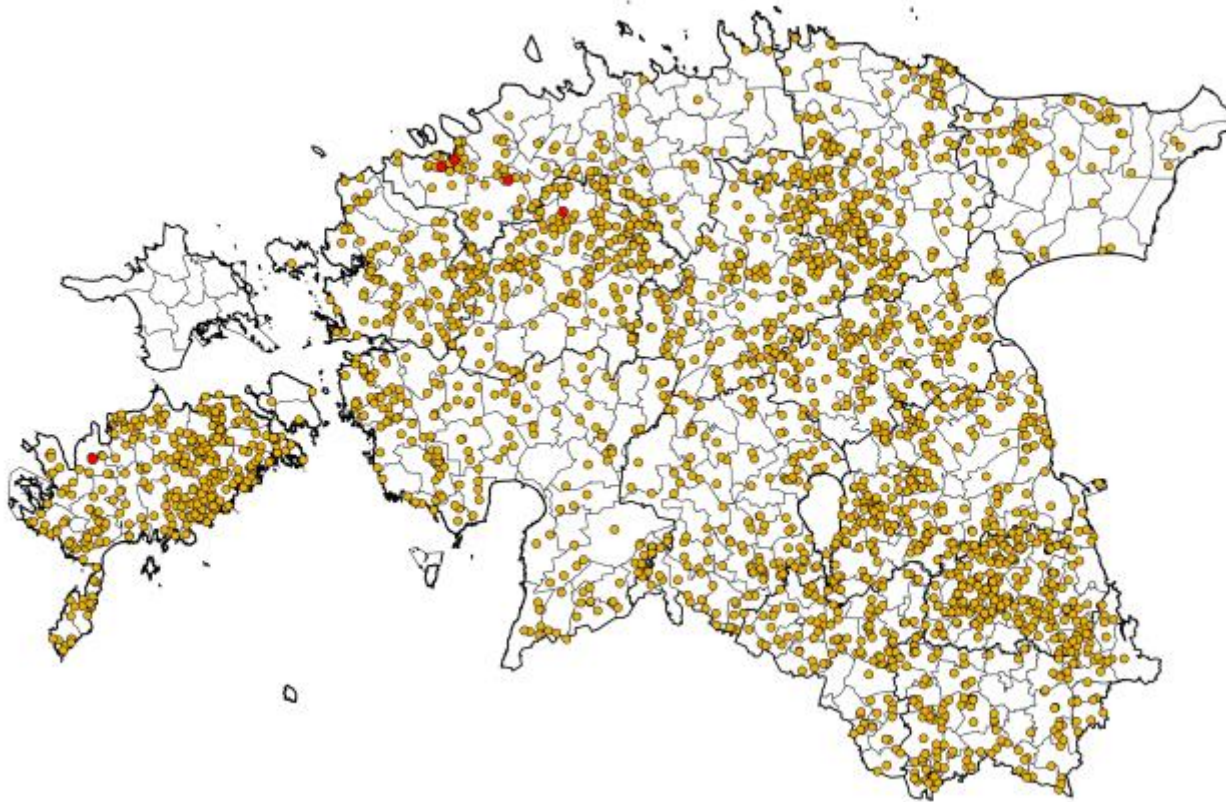

## Surveillance in 2014-2018

	2014		2015		2016		2017		2018 (as of August)	
	No of animals tested	No ASF positive/ Prevalence	No of animals tested	No ASF positive/ Prevalence	No of animals tested	No ASF positive/ Prevalence	No of animals tested	No ASF positive/ Prevalence	No of animals tested	No ASF positive/ Prevalence
Hunted wild boars	879	9 (1%)	8617	680 (8%)	14976	749 (5%)	9161	565 (6,2%)	3509	218 (6,2%)
Found dead wild boars	175	64 (37%)	928	408 (44%)	987	818 (83%)	372	299 (80,4%)	42	17 (40,5%)
Culled/car accident	2	0	17	7 (41%)	15	5 (33)	41	3 (7,3%)	13	1 (7,7%)
<b>Total</b>	<b>1056</b>	<b>73 (7%)</b>	<b>9562</b>	<b>1095 (11,5%)</b>	<b>15978</b>	<b>1572 (10%)</b>	<b>9574</b>	<b>867 (9,1)</b>	<b>3564</b>	<b>236 (6,5%)</b>

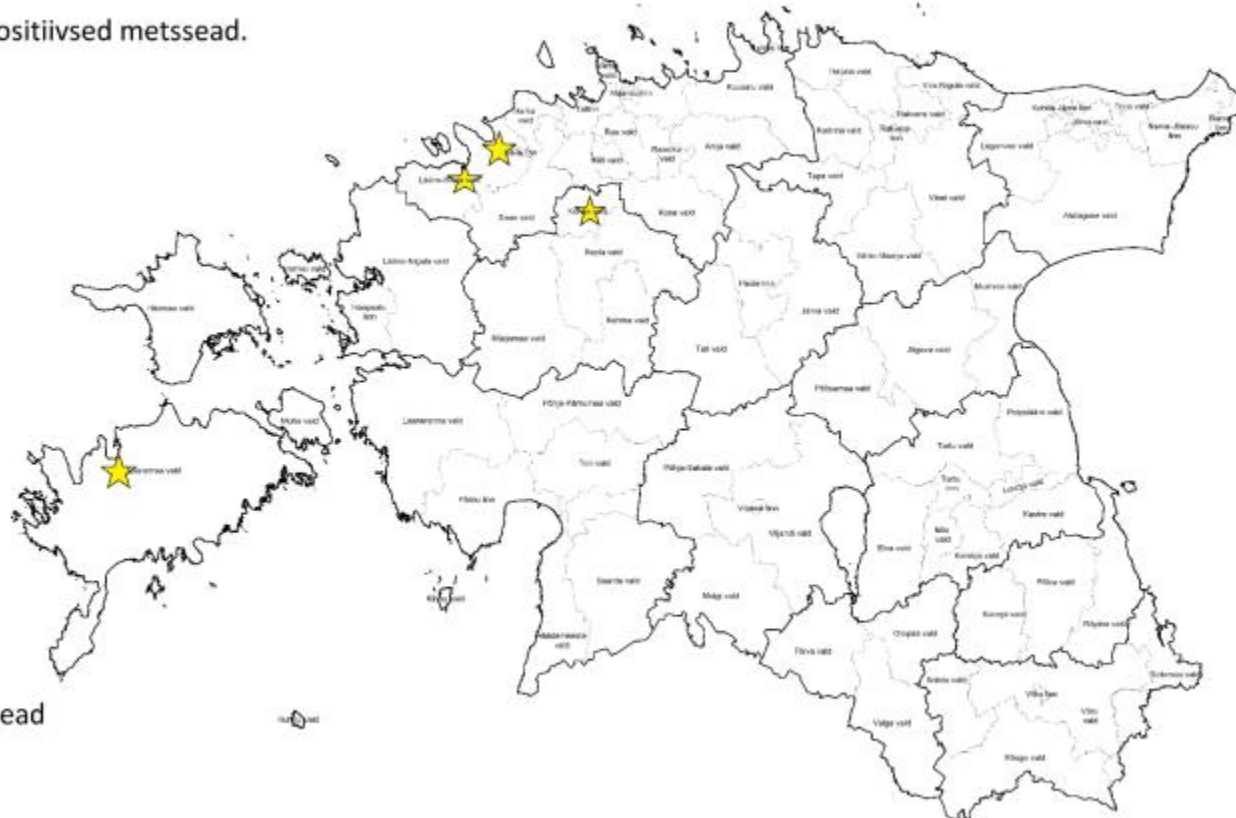

# Surveillance results in wild boars

## ASF findings in wild boar

- ASF findings 28.07-17.08.2018
- Earlier findings

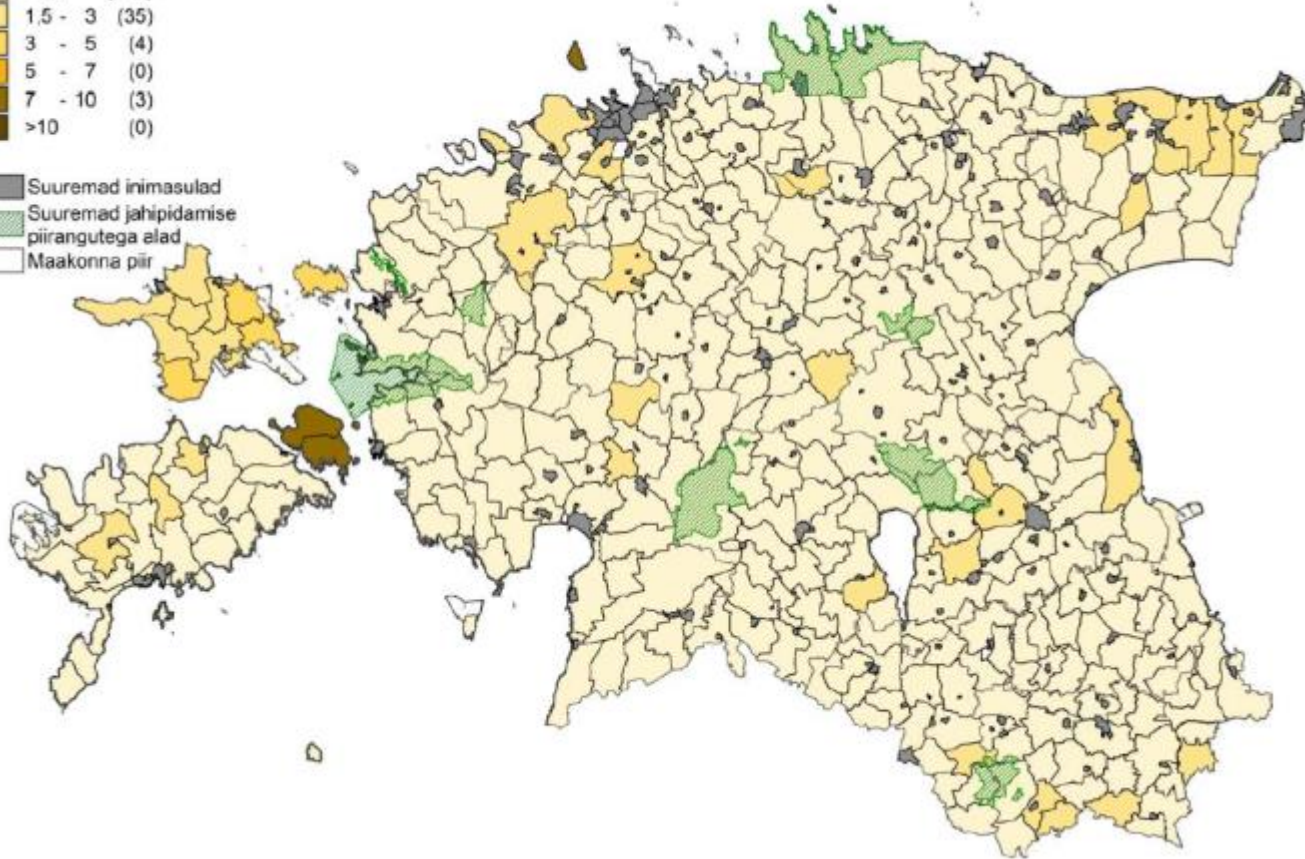

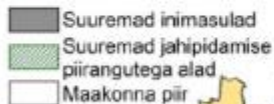

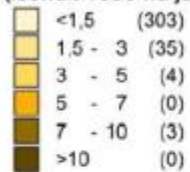

01.-31.08.2018 SAK positiivsed metssead.

★ AK positiivsed metssead

# Density of wild boar in spring 2018 by hunters' estimations

Metssea asustustihedus jahipiirkonna kasutaja hinnangul  
(isendit 1000 ha jahimaa kohta)

# Wild boar management

## Contracts with hunters

- In 2018 we have one big contract with Estonian Hunters` Society for selective female hunting and carcass collection and sampling:
  - By the end of August:
    - 995 hunted females wild boars
    - 16 carcass burials
    - 233 carcasses taken to containers

# ASF in domestic pigs

## Surveillance results in 2016-2018

	2016		2017		2018 (as of August)	
	No of tested animals	No of ASF positive herds	No of tested animals	No of ASF positive herds	No of tested animals	No of ASF positive herds
Domestic pig	8728	6	7431	3	4064	0

# Farm controls – spring 2018

- Carried out by animal health specialists from county veterinary centre
- Total number of farms inspected: 132, from which 128 kept pigs.
- Purpose of the farm controls
  - Inspect if compulsory biosecurity measures are implemented correctly (feed, biosecurity plan, disinfection barrier etc)
- 16 farms received precept, mainly because of disinfection barrier and efficiency
- After the follow-up inspection all pig farms complied with requirements from the law.

Thank you for your attention!
