### **WORKING DOCUMENT SANTE/10095/2018**

Outcome of the evaluation procedure of survey programme submitted by Member States for Union financial contribution for 2018: list of the programmes technically approved and amount allocated to each programme.

## 1. General information

The current legal framework for which financial contribution from the Union for plant health survey programmes can be granted is Regulation (EU) No 652/2014<sup>1</sup> which entered into force on 30 June 2014.

Regulation (EU) No 652/2014 foresees that the Commission shall adopt the annual or multi-annual work programme by 30 April of the year preceding the execution of the measures of the work programme.

The work programme for the implementation of plant health survey programmes for the years 2017-2018 was adopted on 28 April 2016<sup>2</sup>.

In the work programme, the pest that may be co-funded in priority for the years 2017 and 2018 have been identified and divided into four priority category (A, B, C and D), on the basis of Annex III to Regulation (EU) No 652/2014 which sets out priorities for the Union financial support, as regards the orientation of survey programmes.

In order to ensure the financial support by the Union to the implementation by the Member States' competent authorities of the survey programmes for plant health, a financing Decision for the year 2017 and 2018 has been adopted by 18 August 2016<sup>3</sup> and the maximum Union contribution was set up at: EUR 22.000.000 for 2018.

This document aims to provide the Member States with the list of plant health surveys pests programme technically approved for Union financial contribution for the year 2018 and the approved amount allocated to each programme.

Based on provisions of Article 22 of the Regulation (EU) No 652/2014 it contains:

- the list of national programmes technically approved and proposed for co-financing,
- the provisional amount allocated to each programme,
- the provisional maximum level of the Union financial contribution for each programme

Eligible costs concerning plant health surveys pests programme for the year 2018 are detailed in working document SANTE/10646/2016/Rev 2 (*“Guidelines for the Union co-funded programmes of Surveys programmes for pests”*)<sup>4</sup>

### 3.3. Exceptional and dully justified costs

According the Regulation (EU) No 652/2014, only the costs mentioned in art. 20 (points (a) and (b)) and detailed above in the Guidelines may qualify for co-funding.

Nevertheless, in Art.20 point (c), the Regulation specifies that, in exceptional and duly justified cases, costs incurred in carrying out the survey programme, other than those referred above, may be considered eligible (e.g. information and awareness campaigns, replacement of host plants by non-host plants in a "clear-cut" area, purchase of equipment exclusively required for a specific outbreak etc).

Measures under point (c) should be listed by the Member States in their application, with proper justification and associated costs. The Commission shall evaluate the measures from a technical perspective and the costs from a financial perspective. If approved, these measures will be included in the Grant Decision and the relevant costs will be considered as eligible direct costs. If not included in the Grant Decision, these measures and the related costs are not considered eligible.

#### 4. Union co-financing for survey programmes 2018

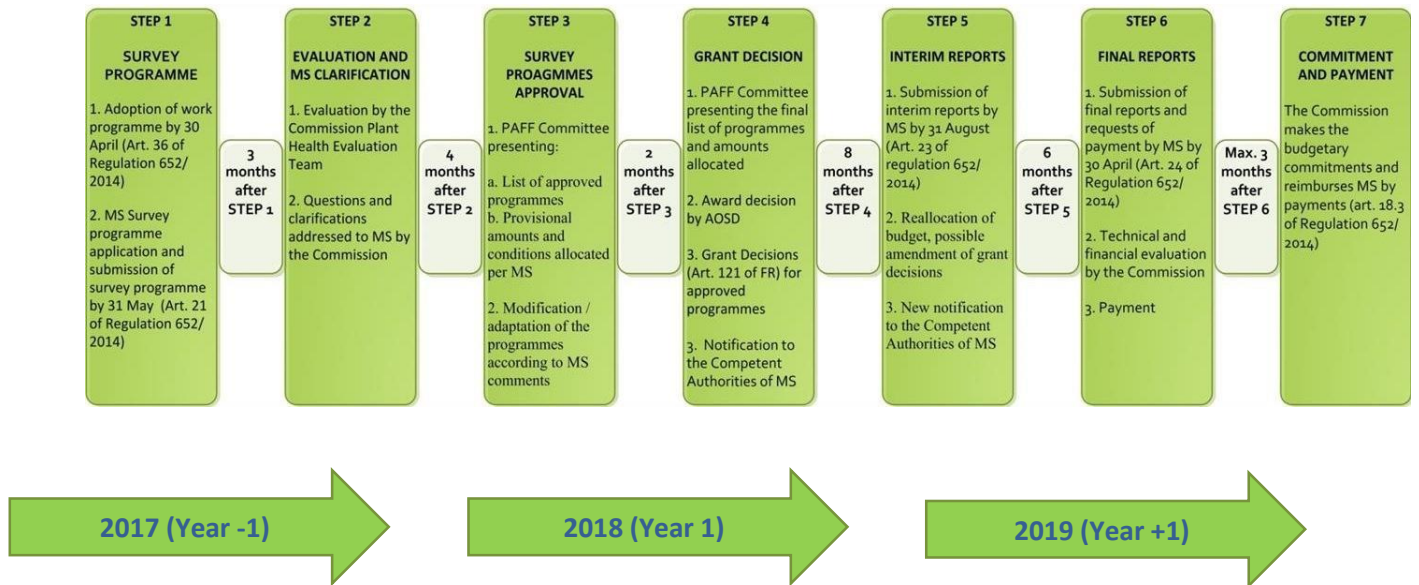

The total Union financial contribution for the survey programmes for 2018 amount to EUR 12 529 000.

Below, a table showing the distribution of the EU contribution amongst the four priority categories. To be noted that 2 different co-funded rates have been applied (as by Article 5 (2b) of (EU) Regulation 652/2014:
