Food waste & Pollution

One-third of global greenhouse gas emissions stem from food systems;

One-third of all food worldwide is wasted;

30% of food waste occurs during **production and processing**.

Food waste across Europe

Purpose driven company

Our dream:

**A 100% circular world where
waste no longer exists**

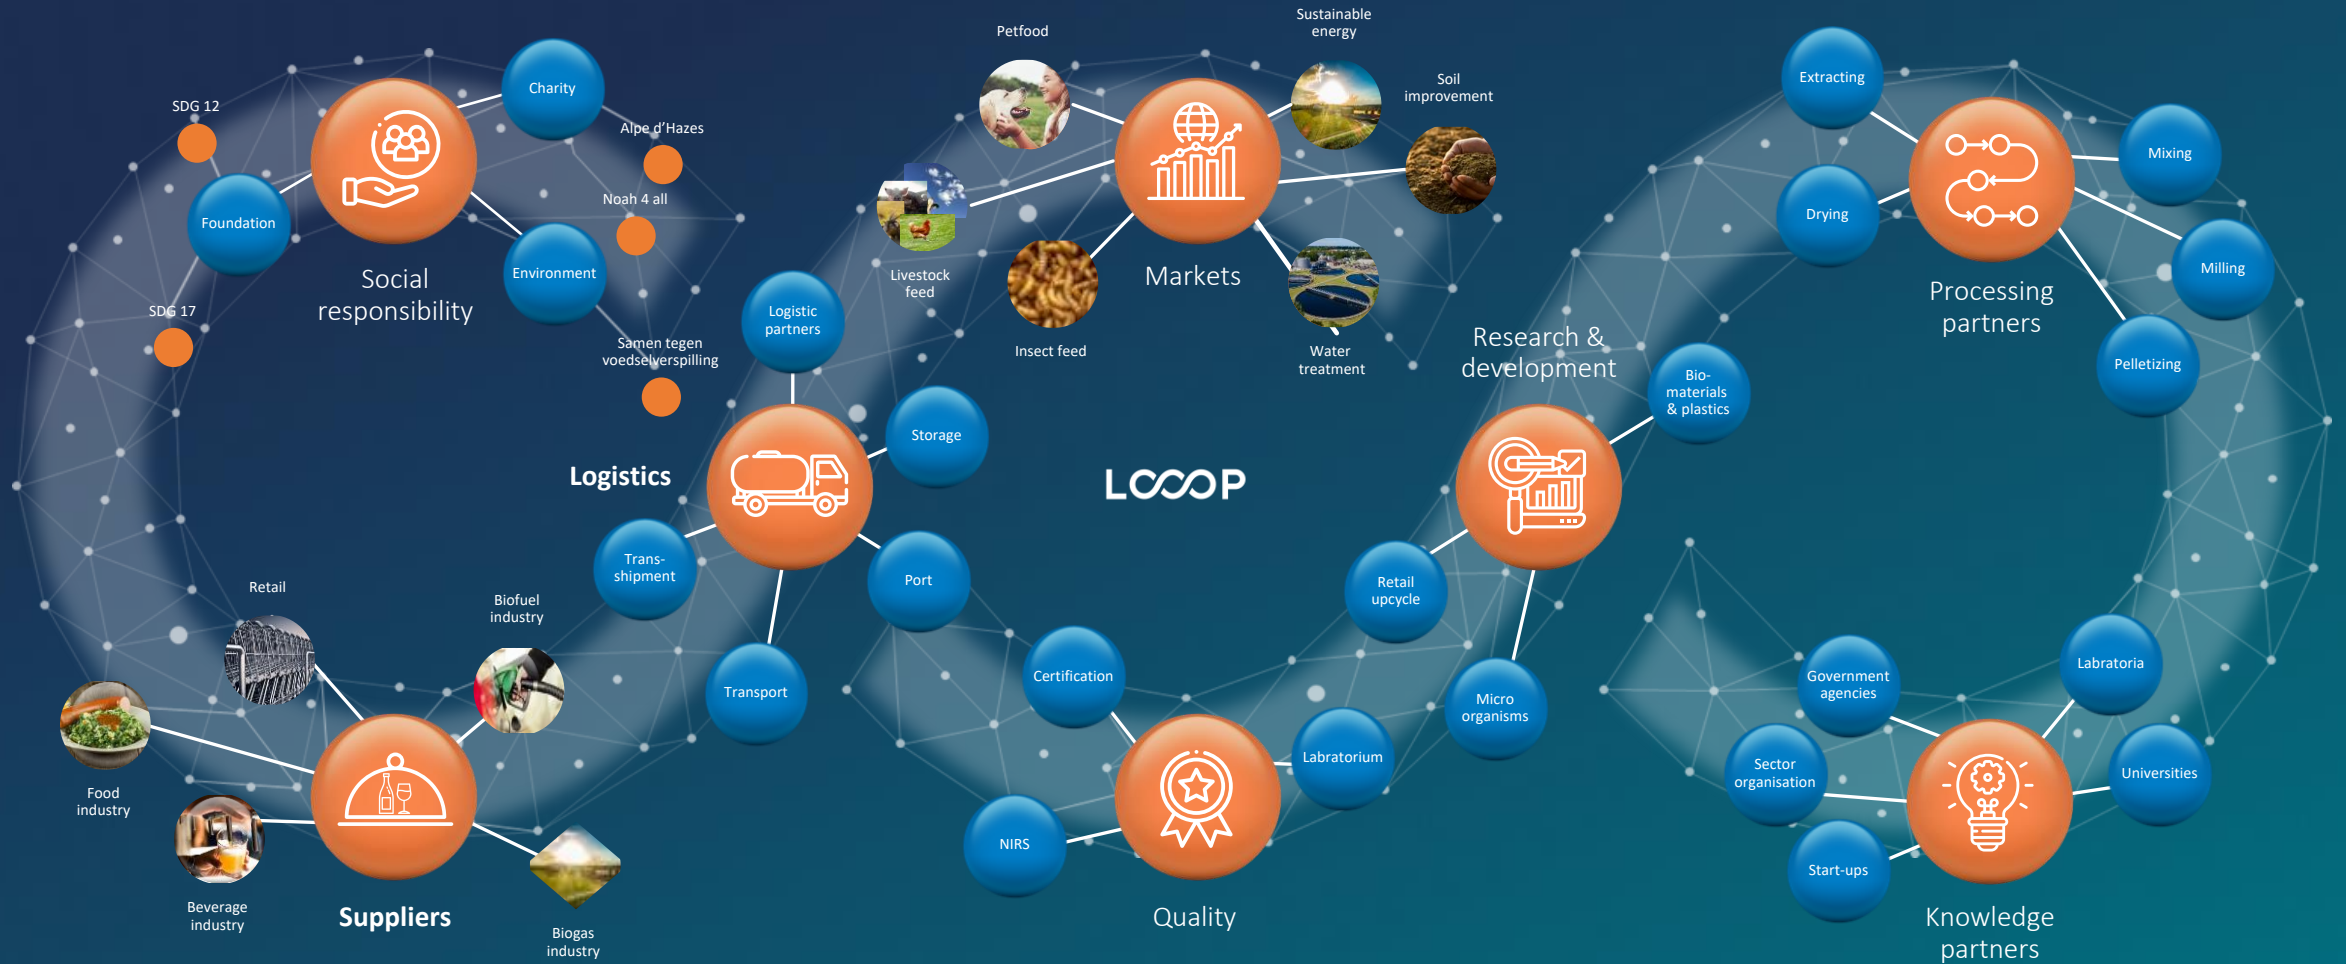

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

Our supplying Partners

To create new value

Adding value to co-products based on the Loop Ladder.

Currently, we already reuse **2,000,000** tons of organic co-products per year. And as far as we're concerned, this is just the beginning.
