ASF SN – carcass search 2023

Suche 2023 Intensität

ASF SN – carcass search 2024

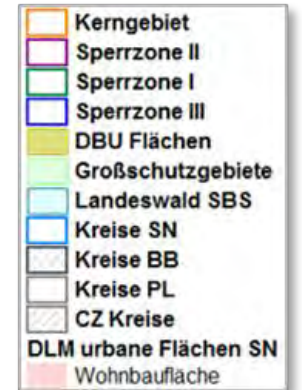

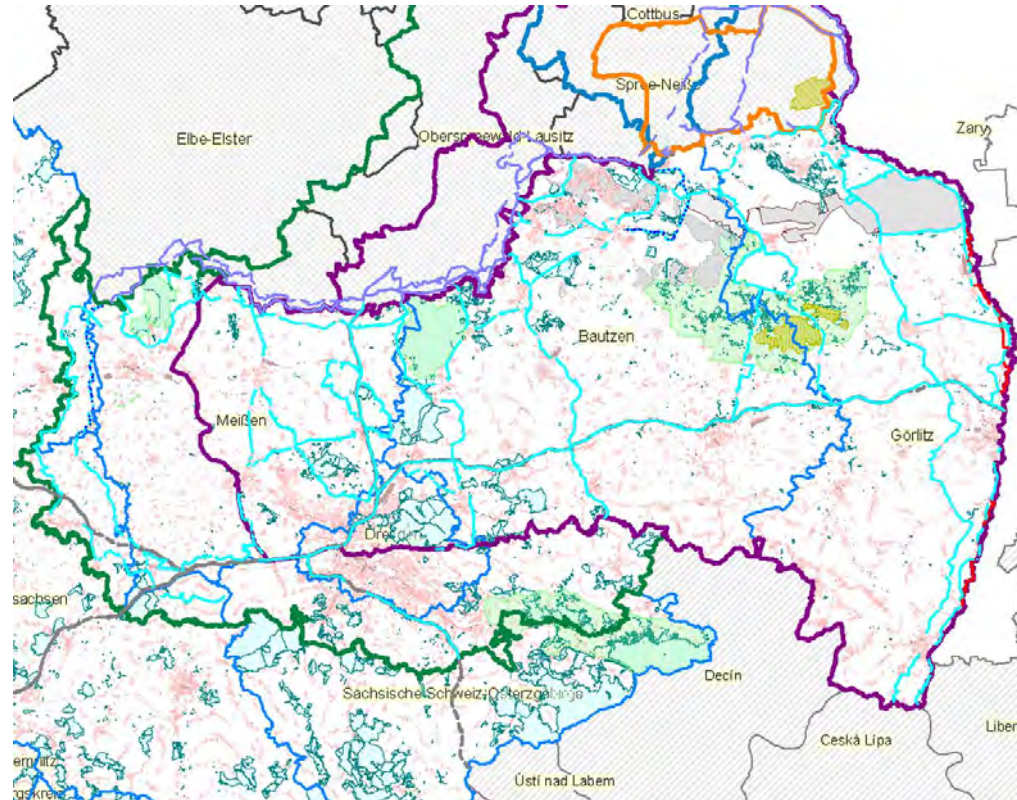

Regular taxation and carcass searches by drones and dogs

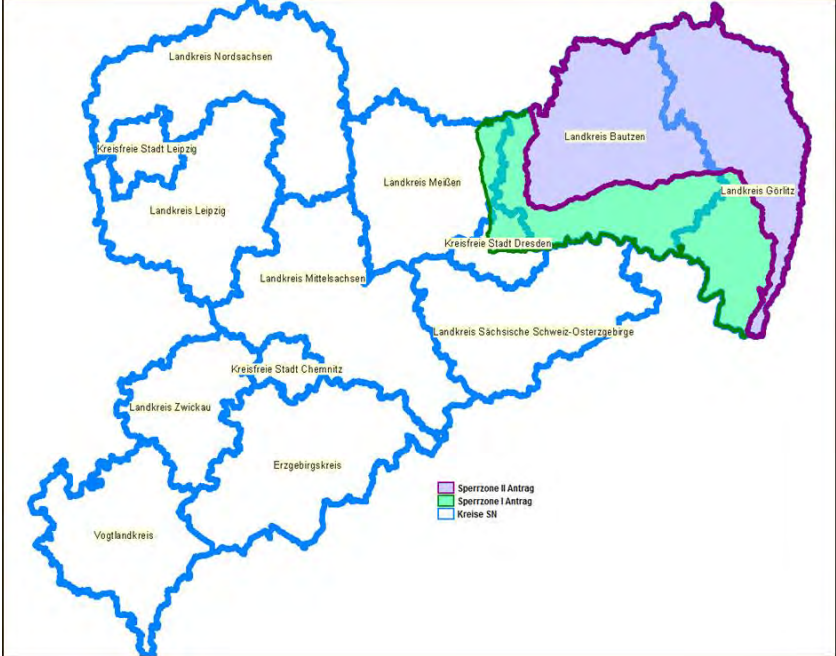

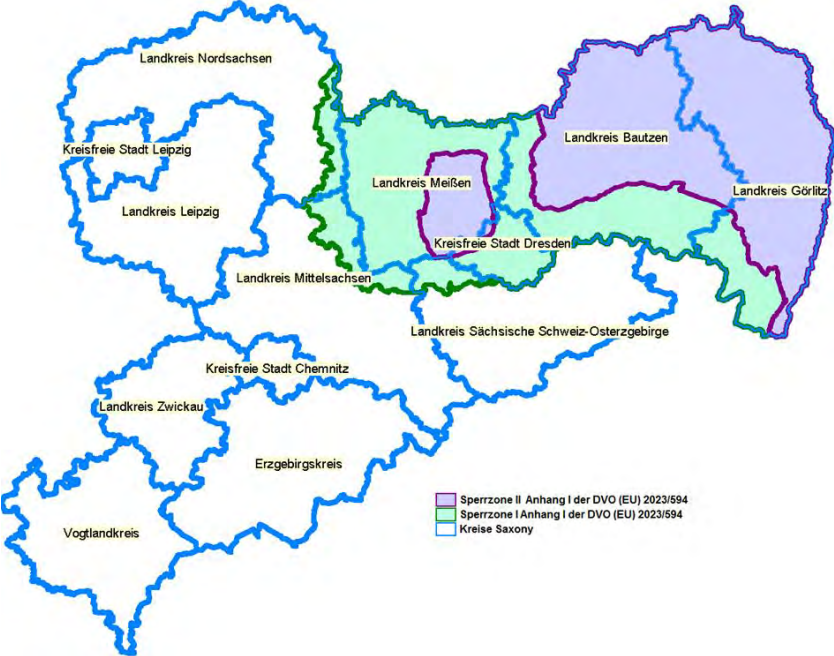

Focus on :

- protection zone near the POL-DEU border
- intensive monitoring of former infectious areas

ASF – Fences in SN

Amendment of RZ in SN and lifting RZ in LK MEI, SN

ASF – Mecklenburg – Western Pomerania (MV)

Domestic pigs in LK VG

ASF in fattening pigs in the district of Vorpommern – Greifswald (LK VG), MV

- Outbreak suspicion and confirmation on June 5th, 2024
- Measures on the establishment as of AHL (stamping out / ABP removal / cleanig and disinfection / tracing back+on)
- Measures in RZ as of CIR 2023/594 (check of all establishments, movement restrictions, ...)
- Slaughterhouse – removal of all carcasses of the same slaughtering day
- Measures in wild boar: regular search / testing/ removal for carcasses / intensified hunting - traps

Protection and surveillance zone in LK VG, MV

ASF in domestic pig establishment in MV – tracing forward

slaughter of pigs from the affected holding within the epidemiological time frame before confirmation (15days) took place in BB and Saxony-Anhalt (ST)

1. On June 5th (BB and ST) → all carcasses and meat of that slaughter day was destroyed and safe disposed
2. On May 29th – 32 consignments (products or ABP) had been moved to other MS and GBR:
→ MS and GBR were informed about the details via email
3. On May 22nd (ST)– 43 consignments (products or ABP) had been moved to MS and GBR
→ MS and GBR were informed about the details
FLI investigation on epidemiology revealed earliest introduction as of May 29th therefore these consignments pose no risk!

ASF – Hesse (HE)

Wild boar in LK GG

ASF in wild boar in the district of Groß-Gerau (LK GG) - HE

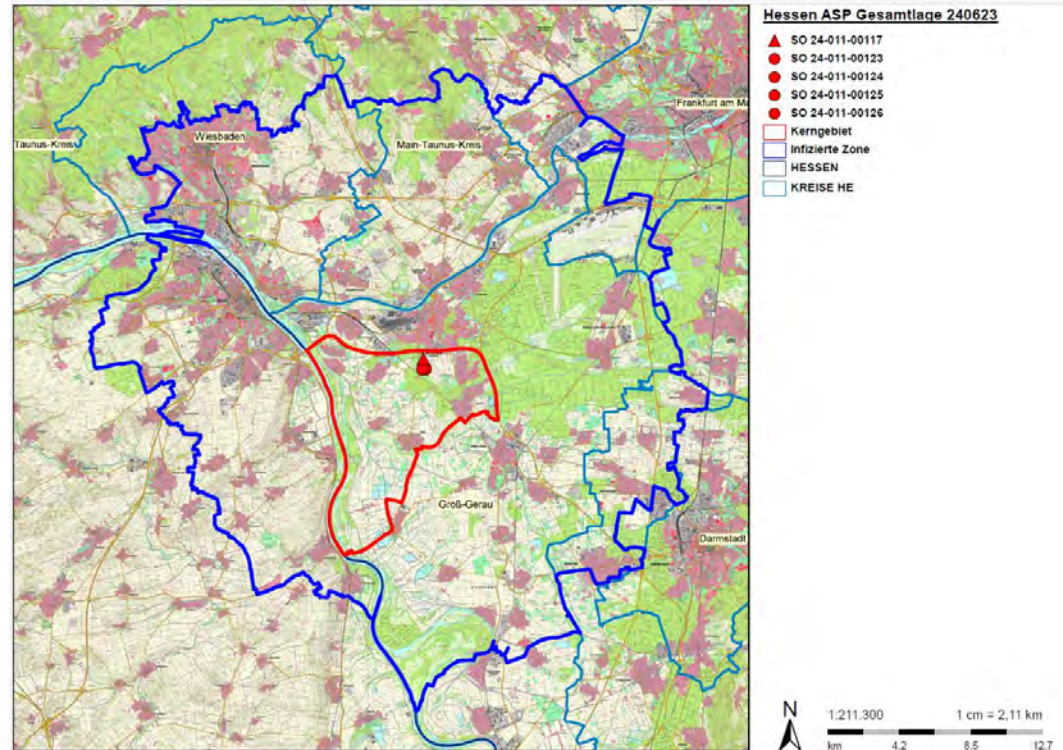

→ Hunted WB with abnormal behaviour

Outbreak [DE-ASF-2024-00116](#) submitted

Country or territory: Germany

Disease name: A.S.F. in wild boar (*outbreak nb 115 notified in 2024*)
