## 1. Technical implementation of the programme

### 1.1 Description and evaluation of the evolution of the epidemiological situation, the technical implementation of the activities foreseen under the programme and the cost-effectiveness of the programme.

The monitoring and control program in 2019 is applied all over Romanian territory. The veterinary surveillance of domestic and wild pigs by clinical, anatomopathological and laboratory examinations is applied all over Romanian territory.

#### DOMESTIC PIGS SURVEILLANCE

The program are to be carried out taking into account the following aspects:

- the European legal provisions on the implementation of monitoring and control measures;
- the existing types of domestic pigs rearing systems, with many non-professional holdings and industrial commercial veterinary approved pigs establishments and commercial pigs establishments type A or other kinds of holdings ;
- the control the pigs' movements from non-professional holdings;
- the absence of CSF cases in swine populations during October 2007-present;
- low density of wild boars population, less than 1 head per square km.

#### WILD BOARS SURVEILLANCE

The objectives are the epidemiological monitoring. In order to achieve this objective, the samples will be collected from wild boars hunted in hunting seasons throughout the year 2019 and hunted in additional hunting seasons, as well as from wild boars found dead, injured, they are to be subject to serological and virological examinations.

## 1.2 Details on the level of achievement of the targets set in the approved programme and technical difficulties.

Romania has reached surveillance and control targets in terms of controlling and monitoring Classical Swine Fever on domestic pigs and wild boars

## 1.3 Epidemiological maps for infection and other relevant data on the disease/activities (information on serotypes involved,...) (Please attach files of data using the PDF attachment feature) Use the textbox below to provide clarifications for the maps you attach, if needed.

Not applied

## 2. Tables for SWINE DISEASES PROGRAMMES monitoring outcome of the year VERY IMPORTANT: Please fill out the following tables with figures corresponding to measures performed during the implementing period (1/1 to 31/12)
