DOLD-ISL-2021-001	2021	 Iceland		04/04/2022	Draft

Detection of listed diseases for 2022

- All 2022 draft reports were created into ADIS
- **Data transfer** from ADIS notifications into draft reports is operational
- However transfer of UR 2021 on absent diseases is still being developed (i.e. in some very specific cases, the dates of last occurrence will need to be put manually in the 2022 report)
- Action required: EDIT the draft report for 2022 and check the data in it

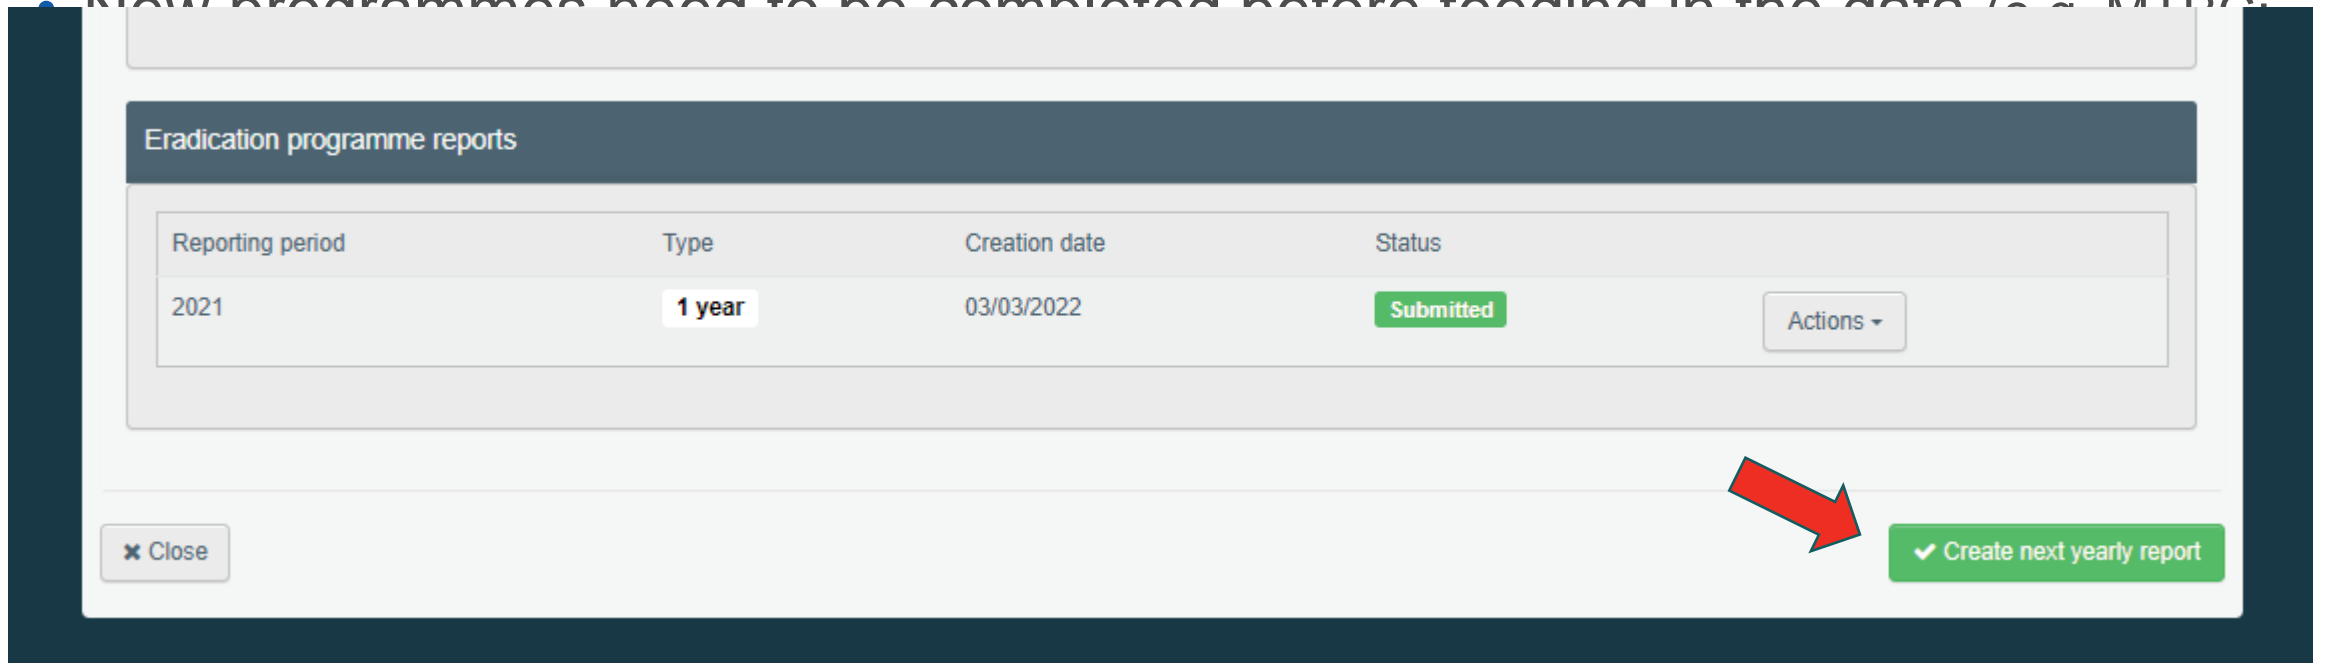

Country type	Date of report ↓ ^Z _A	Status	
Member State	20/03/2023	Draft	Actions ▾
			✎ Update

Union Reporting – Eradication Programmes

Union Reporting – Eradication Programmes

- The Eradication Programme detail page contains the list of existing yearly report and the option to create the next yearly report for the reporting period of 2022
- 2021 reports need to be completed before entering 2022 reports
- New programmes need to be completed before feeding in the data (e.g. MTRC)

The screenshot displays a web interface for managing eradication programme reports. At the top, there is a dark blue header with the text "Eradication programme reports". Below this is a table with the following columns: "Reporting period", "Type", "Creation date", "Status", and "Actions". A single row is visible in the table with the following data: "2021", "1 year", "03/03/2022", and "Submitted". The "Submitted" status is highlighted in a green box. To the right of the row is an "Actions" button with a dropdown arrow. At the bottom left of the interface is a "Close" button with a small 'x' icon. At the bottom right is a green button with a checkmark icon and the text "Create next yearly report". A red arrow points from the bottom right towards this green button.

Reporting period	Type	Creation date	Status	Actions
2021	1 year	03/03/2022	Submitted	Actions ▾

Results of Union surveillance programs

For reporting the results of the Union surveillance programs as foreseen by Commission Implementing Regulation (EU) 2020/690, please follow the link below to the EFSA Data Collection Framework.
In case you need support to access the EFSA database, please contact the functional mailbox for data collection support / data stewarding: zoonoses_support@efsa.europa.eu and the functional mailbox of the EFSA Unit in charge of the Avian Influenza surveillance report: BIOHAW@efsa.europa.eu
