African swine fever situation in Croatia in period Jan-June 2024

July 11, 2024

Standing Committee on Plants, Animals, Food and Feed

ASF situation in kept porcine animals

No new outbreak in 2024

Pig census updated

Ban of pig keeping on non compliant establishments

Enforced official controls

Last regionalisation by Impl. Reg. (EU) 2024/808, Feb. 29, 2024

Order on ASF control measures (OG 8/24, 21/24, 32/24) in place - legal basis for national implementation of ASF control and preventing measures in line with IR (EU) 2023/594

Measures in the restricted zones in place according to Impl. Reg. (EU) 2023/594

Pig census update

Operators responsible for regular updating of the pig census in the database within 3 days from any change (i.e. movement from and to an establishment, death, domestic slaughter)

Biosecurity

Enhanced biosecurity required on all pig establishments

- Basic requirements laid down by the General Order (OG 1/23)
- Additional requirements for pig keeping establishments laid down by the General Order (OG 1/23)
- Enhanced biosecurity requirements laid down by the ASF Order in line with IR (EU) 2023/594
- Biosecurity plan mandatory on:
 - All establishments keeping 5 or more breeding pigs or 50 or more pigs in total – whole Croatia
 - All establishments under derogations from movement restrictions – restricted zones

Ban of pig keeping on non compliant establishments

- All establishments recorded in the Register in category 0, 1 and 2 are blocked
- Lifting only by veterinary inspector's decision

National Action Plan for WB management

- Hunting target: to reduce WB population to 10% of parent stock
- In 2023/2024 parent stock realised 18162 (50% of parent stock)
- In 2018/2019 parent stock realised 32240
- Hunting management:
 - wild boar hunting throughout the year, regardless of gender and age
 - the use of optical sights for night hunting with the possibility of electronic magnification allowed
 - artificial lighting devices and devices for illuminating the target outside protected areas allowed
- In hunting season 2023/2024
 - 49.569 hunted WBs
- Biosecurity plan mandatory in all hunting grounds

Future and ongoing activities

Awareness activities – workshops and public campaigning

Enhanced regional cooperation and communication

Veterinary checks on all active pig establishments

Upgrading of surveillance data collection – wild boar surveillance online database

Thank you for attention!
