B.01 Exchange of views and possible opinion of the Committee on a draft Commission Regulation (EU) No .../... amending Annexes II, III and V to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for 2,5-dichlorobenzoic acid methylester, mandipropamid and profoxydim in or on certain products

As voting of this draft was postponed in the meeting of the Standing Committee for Plants, Animals, Feed and Feed of 21-22 February 2019, the Commission informed that in the latest revision 4 which was put on the agenda for vote, the active substance prochloraz had been removed, both from the text and the annexes, with a view to include it in a separate draft Regulation in the future.

One Member State abstained due to the wording used for transitional measures in Article 2 of the draft Regulation.

Vote taken: Favourable opinion.
